For the former offense he was placed under \$500 bail and the latter will be heard before Justice Schutz Monday.

The amount of money offered for the capture of Tom and Bill McCarty, the Roslyn bank robbers, who escaped from the officers at Haines a few days ago, is reaching a snug sum and is a big incentive for vigilance on the part of all. The amount is \$3,700—\$2,700 for Tom and \$1,000 for Bill. The association of the former with the Denver bank robbery accounts for the larger reward.

A Young Mother.

Polk county takes the cake. On Saturday last Mary Schmidt, nee Campbell, presented her husband with a male heir. Mrs. Schmidt will be remembered as the 14-year-old girl who some months ago eloped with her father's hired man from the farm on Salt Creek. She is probably the youngest mother in the state, the child arriving on the 15th of April her 15th birthday.

Postal Aggravations.

THE CHRONICLE often gets letters or papers addressed O. D. Taylor, I. C. Nickelsen, Times-Mountaineer, etc., but the most exasperating experience was that of a prominent business man of this city yesterday who received a letter from Lyle dated and postmarked April 4th, asking him to come to Lyle on a business proposition on the 15th. The Dalles postmark showed it to have been received on the 5th, and it laid sixteen days in this office, and a week past the time for the engagement.

Indian Thieves.

Mr. Polk Butler of Kingsley is in today. Mr. Butler some time ago bought a little house on Jordan creek in upper Tygh valley, and stock it up with provisions, bedding, and numerous other personal effects. Two days ago after an absence of 24 hours he returned to his house and found that everything had been stolen, even to some cartridges that were on a high shelf. The theft was accomplished by some Indians from Des Chutes, as he discovered by a trail which was plainly made by the thieves.

Eleven Feet of Snow.

Messrs. W. G. Steel and O. C. Yocum, of Portland, made a trip to the government camp at the base of Mt. Hood and returned yesterday to that city. They report an immense depth of snow on the mountains. After digging for three hours through eleven feet of snow they uncovered the roof of the cabin. They found 11 feet of snow on a level, where there usually is three feet at this season of the year. The mountains are unusually covered with deep snow.

Klickitat Pine.

Mr. H. Glenn shipped by the steamer Regulator this morning, a nice lot of Klickitat pine, to a sash and door manufactory in Portland. The Klickitat pine is the best and finest pine lumber in the Northwest and as soon as the sash and door manufactory understand the value of this class of lumber, Klickitat region will be more noted and more sought after than the Grants Pass country.

Awarded Damages.

An interesting case was on trial before Justice Davis yesterday afternoon in which Robt. Densmore brought suit to recover damages from Robt. Hardwick, the cause for complaint being that Densmore's horse was killed as a result of running into Hardwick's wire fence, the fence not being a legal fence. Mr. N. S. Sinnott appeared for the plaintiff while the defendant was represented by E. Schutz. Three jurors by consent, Messrs. Liebe, Larsen and Vogt listened to the testimony of the various witnesses and the haranguing of the attorneys, which occupied the greater portion of the afternoon and closed the case by bringing in a verdict that gave the plaintiff \$40 damages.

A WORLD'S HUMBUG.

Such is the Private Opinion of a Chicago Man We Give Publicly.

A letter received by T. A. Hudson from his brother, W. J. Hudson, a well-known business man of Chicago, member of the board of trade and for thirty years in the employ of the Anchor Line steamship company, states that the world's fair is likely to be a world's humbug. He says "from appearances things will be ready about July 1st or thereabouts. I get the same story from others. I have not had the curiosity to travel up to it since we went there together when they were commencing the foundations. It is estimated that in order to visit the fair when it is in full blast and see all the sights will cost each person \$35."

The Branch Asylum.

The committee to locate the new insane asylum for Eastern Oregon has a disagreeable as well as a responsible task. There is the sharpest competition for the prize, and the places that are unsuccessful will always believe that a mistake was made when the successful town is named.

Eastern Oregon has many bright towns, among which are The Dalles, Heppner, Pendleton, La Grande, Union, Milton and Baker City. As far as this section is concerned it has little or no preference. Its only desire is that the state make the best deal possible, and combine with a favorable land purchase conditions which will always be beneficial to health.

Eastern Oregon has an excellent climate, remarkable resources, indications of growth and prosperity, and the location of a branch insane asylum there is simply in line with the needs of every developing section. Probably it has no more and perhaps not as many people suitable to be inmates as other sections of the country, but for the sake of convenience and accessibility it was necessary that an asylum be located there. Whichever of the above-mentioned towns is the winner in the contest, the needs of Eastern Oregon will be well satisfied.—Telegram.

Pendleton Fossils.

Workmen on the excavation before Judge Fee's residence on Main street, discovered deeply imbedded on the cement formation three remarkable fossils. They are mammoth teeth. One being measured this morning was found to be an inch and a quarter by an inch and an eighth, nearly square at the crown of the tooth, which is evidently a molar. The root of the tooth was badly decayed and crumbled to pieces. The piece that remains is nearly five inches long. The whole tooth must have been fully eight inches in length. The other teeth, although still in good form and showing the outline clearly, are very tender and crumble easily.—Pendleton Tribune.

About Sheep.

Sheepman have had a tough time for the last couple of weeks in the Lone Rock district, most of them being obliged to work with their sheep day and night. The lamb crop will be somewhat lighter than usual, but very good, considering the bad weather.

At Contention sheepmen are not having the best of success. Many of them say they will not have over 50 per cent of lambs, one man saying he would not save more than one-third. The backward spring has proved unfavorable to the sheepmen.
