A GHASTLY FIND.

Boys Playing Discover a Human Skull—Chickens Pecking It.

In the rear of the Haynes property, just east of the fair grounds, some boys while playing yesterday noticed a queer-shaped object which the chickens were pecking at, and a closer examination showed it to be a human skull. They buried it, and Coroner Eastwood, hearing of it, today had it again removed.

It is a small skull, apparently that of a girl, or small woman. Some hair still adheres to it, which is of fine texture, and of a chestnut brown color. Most of the teeth are missing, but only one shows any decay, the others having been loosened since it was buried. A round hole in the front portion of the occipital bone near the fissure was most likely made by a bullet, and is about the size of a .32-caliber ball. The opinion of Dr. Doane was that it might have lain in the ground twenty years, and nothing can be proven to the contrary unless it is cleaned of the dirt with which it is now covered and the interior of the skull examined. Nothing is known of how it came to be in the place it was found and there is no basis for any conjecture that it was foul play.

A Good Showing.

The highest per cent expense is 66, and from the report it is found that there are a few postoffices in Oregon that have less per cent expense than 37.

DUFUR NOTES.

"O'Keane" Manages the Local Grist in True Reportorial Style.

EDITOR CHRONICLE:

The Dufur Flouring Mills are running full time on wheat from the Tygh Ridge section.

This city is the home of the celebrated S. B. Medicine Co., who are achieving a world-wide reputation.

C. E. Haight and E. Jacobsen were here a few days ago on life insurance business. They made a fair clean-up.

While this city is quiet, as the common phrase goes, "it neither slumbers nor sleeps." Business is pretty fair and our people feel good over the prospective outlook.

The city school is quite well filled for this season of the year. Prof. Fraser, assisted by Ed. Hinman, are making for us an excellent school, and are giving good satisfaction.

Mr. L. Klinger and family, with several others, will start for the Warm Springs and the mountains for a short season of camp life as soon as the weather gets warm.

The Odd Fellows are making preparations for a fine Mayday picnic. Prof. Fraser has it in charge and everybody will be expected to share the pleasures of the proverbial Mayday.

Dr. Vanderpool is treating cancer patients at present with good prospects for making permanent cures. The doctor has been very successful so far. He will leave on Friday for Prineville to be absent a few days.

The Hoines boys and several others will leave for Idaho in a few days on a sheep-shearing tour. The farmers are nearly through with their spring work, and are delighted with the prospects for the largest grain and fruit yields ever had in this part of the country.

Messrs. T. H. Johnson and Willard L. Vanderpool have bought from old Father Dufur over 200 acres of his farm, lying next to the town, and will have it surveyed and laid out in low lots right away, when it will at once be put on the market. There is a good deal of inquiry for town lots, and to accommodate everyone, this property is added to the city proper.

O'KEANE.

QUEEN LILIUOKALANI'S FLIGHT.

In Searching for Her Late Husband's Relatives She Found Another Wife.

Several years ago a Dalmatian sailor named Jerko Dominis, after innumerable adventures, hairbreadth escapes and feats of valor, found his way to the Hawaiian islands, where he married Liliuokalani, the daughter of a native chief, who in due time became queen, making him the partaker of the honors of royalty. As king he bore the name of Hermann I. For twenty years, says the London Telegraph, he governed his subjects satisfactorily, and toward the end of 1891 he died. His son, Hermann II., is only six years old, and his widow is the regent. Now, this lady, knowing that her late spouse was a European, has been making strenuous endeavors to discover his relatives, and whenever a ship touched at the port she always made it a point to go on board and question the captain as to whether he knew of any Dominis, of Dalmatia. For a long time the widowed queen's endeavors to find King Hermann's relatives were unsuccessful, but lately the imperial Austrian corvet Fasana touched at the Sandwich islands and the dowager queen went on board and asked the admiral whether he could tell her anything of the Dominis family, of Dalmatia. He answered in the negative, but, noticing the lady's desire to learn something about them, promised to make inquiries in the marine department of the war ministry. The latter was then referred to the foreign office, which published an advertisement calling upon all the Dominis of Dalmatia to come forward, whereupon there was a repetition of what occurred when the American spiritualistic medium called for the spirit of Smith. Thousands of Dominis are said to have reported themselves, personally or by letter, for the name is a very common one in those parts. King Hermann's sister was, however, discovered among them, as was also his lawful wife; for it appears that the late king married in Dalmatia when only a sailor. This woman now demands that the Hungarian government should help her to her rights. She does not seek to become queen of the Hawaiian islands, but she asks to be declared the legitimate heir to her husband's property. Should the Hungarian government refuse her its help, the energetic widow is determined to set out for Honolulu and appeal directly to her successful rival, Queen Liliuokalani, the widow of her own husband.
