PROFITS IN PORK.

Pork brings 7 1/2 @ 8c on foot in Chicago. Here it is only worth 7c. What makes the difference? Why, indeed, should pork not be worth more here than in Chicago? The reason is because there is not enough pork raised in the country.

The trans-Mississippi congress, assembled at Ogden, had for its chief topic yesterday the Nicaragua canal. Good argument was presented why it would be as likely to prove a curse as a blessing.

The Oregonian published a rounder recently, to the effect that two men were discussing the origin of man when one asserted "all men are animals," and thereupon his vis-a-vis called him an ass.

With Moses as his advance agent, God took forty years to get his chosen people from Egypt to the happy land of Canaan. He could have done it in less time but he did not want to do so; he wanted them to be fully prepared to enjoy the land when they got there.

It would be interesting to know how many hand-shakes a president has during an administration. He has the shakes worse than a Southerner with the chills.

MARKET REPORT.

THURSDAY, April 27th, 1893.—The characteristic features of trade remain near the same as those of a week ago. In certain branches of trade there is an improvement. Sheep men have been more numerous in the city, who have come in for the purpose of getting supplies for the shearing season.

Prices of dry goods remain steady, while in groceries and provisions, some lines have experienced an advance. Sugar has advanced 1/2 of a cent during the past week, making 3/4 of a cent within the past three weeks. Beans have advanced in sympathy with the advance of the season and the shortness of supply. Flour has declined from \$3.75 per bbl. in ton lots to \$3.50. Retail dealers sell it at \$1 per sack or \$3.75 per bbl.

Produce has been more active and the market is stiff in most things, others dearer.

Eggs are firm on former quotations with a shaded advance.

Butter is steady on former rates.

Potatoes are dearer and the market is becoming quite bare of home growth, and good table potatoes find a ready sale at \$1.75 per 100 lbs. Our provision dealers are receiving large shipments of valley which have a good inquiry.

Onions have advanced to 3 to 3 1/2 cents per pound, and are very scarce.

The green apple supply is nearly exhausted, and former quotations have been advanced.

The poultry supply still continues short at last week's quotation.

The meat market is steady, although a prominent buyer is responsible for saying that the country east of the mountains is completely cleared of beef cattle and buyers are compelled to go to California and Nevada to get a supply for western markets. Mutton sheep, that is to say prices, are in good demand and prices are firm. Fat hogs are scarcer and prices remain steady with a clearer tendency.

The grain market is firm as far as feed is concerned. Oats are very scarce and the demand is good at \$1.50 to \$1.60 per cental. Barley is shorter in supply and is a little dearer than a week ago.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J.
