### A DEEP-LAID SCHEME.

The true story of the interview between Secretary Carlisle and the New York bankers has leaked out. And it shows up handsomely for the credit and resolution of the administration. Instead of the bankers having all the say as the dispatches ran, they had very little to do but to sit like a pack of naughty school boys and take their medicine. The secretary opened and closed the whole conversation. He went over the entire gold business since the election of Cleveland and told them how and why the gold tide had ebbed so rapidly. He warned them that he understood the whole matter and all their schemes and did not intend to allow their avarice to force him to issue bonds. That the Sherman law was at the root of the evil and would be wiped from the statute as soon as congress met. That to issue bonds was to admit that the administration was too weak to contend with them and that the New York banks were not yet masters of the treasury. He said that there was lots of gold in the country and the people would rally to the national support when necessary. The Boston, Chicago and Virginia already led the advance and he scornfully advised them to follow their example. That the government was in daily receipt of offers of gold and the bonds would never be issued; because it would be a blot upon his administration, send gold up and might produce a serious crisis. This strong, manly, independent, patriotic stand completely upset the plans of these plutocrats and they came to their knees without further special pleadings. It makes the American spirit proud to know that no set of rich men are able by any scheme, however deeply laid, to intimidate or affect the government. Never again will the banks try such a royal bluff as that—Exchange.

Mackay's two physicians charged \$7,500 and \$5,000 for extracting Rippey's bullet, the former making 45 visits, and the latter 26. Mackay next went to Chicago. At this giddy rate of speed he will go broke before the year is out. Mackay is surely getting reckless, and we will next hear of subscriptions being taken for him.

Ohio and Pennsylvania have been visited by the heaviest rains known for years. At Cleveland 3 1/2 inches have fallen and the storm continues without abatement. In Pennsylvania the loss of property is large, besides railway traffic is suspended to a large degree. Disastrous floods are expected in both states.

"Physician, heal thyself!" will come to mind in connection with the failure of Dr. Warner, the safe cure man. The general supposition was that he was healed, but he foolishly spent his money in speculations, instead of keeping up his advertising.

Governor Penneyer has easily distanced the field as the winning populist presidential possibility in 1896 by his spirited resentment of Gresham's insult to Oregon. It will now be Penneyer or Llewellyn of Kansas.

### RAILROADS IN AFRICA.

Towns in Mashonaland No Longer of Mushonaland Growth.

A recent issue of the Engineering Magazine has an interesting survey of "Railroad Development in Africa," from the pen of Cyrus D. Adams. Only five years ago, he says, a magnificent harbor was discovered at the mouth of the Zambezi river, about one hundred and fifteen miles below the Zambezi delta. It is about two miles wide and six miles long, and on its northern shore has risen the town of Beira, where five hundred Europeans, half of them British, are now living. Beira is one of Africa's latest marvels.

Probably no white man six years ago... (text continues with details of the Beira harbor and the challenges of building a railway through the region, mentioning the Mozambique company and the difficulties of the terrain.)

ish extension will be pushed forward. This line will give to Mashonaland—which, in agricultural and mineral resources and the salubrity of its climate, is one of the most favored parts of Africa—its shortest outlet to the sea. Beira is destined to be a port of large importance, and lots for business purposes are now selling for fifteen hundred to twenty-five hundred dollars apiece in a place which not many months ago was a barren waste. Five years ago only two or three white men had ever visited Mashonaland; its present population includes three thousand white settlers.

### IN SPORTING CIRCLES.

It is estimated by a writer in the Philadelphia Press that \$900,000,000 are yearly spent on the races in this country.

The company that runs the Monte Carlo casino has declared a dividend of about forty per cent. on last year's business, which was more profitable than ever before.

### MARKET REPORT.

THURSDAY, May 18th.—The condition of the markets has been quite satisfactory for the past week. Business has been more brisk and prices steady. There have been no changes in quotations in the grocery and provision lines. Farm products continue to arrive, with the exception of potatoes, which are scarce, and prices are higher than last week's quotations.

Eggs are plentiful on former market prices. Butter is more plentiful, and dealers are loath to pay quotations.

The cereal situation is unchanged, although there is a light movement in arrivals. Foreign and eastern advices indicate easy markets and a light demand.

The wool market situation continues unchanged. The market quotations are nominal and lifeless. There are only two or three buyers on the market and the interest in trade is in a slumbering condition.

**WINANS**

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large slightly lots, broad streets and alleys, good soil, pure cold water and shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort and for all Oregon, being the nearest town to Mt. Hood. It is also unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
