BEHRING SEA CASE

Rumor That a Decision Will Soon Be Made.

THROWN OPEN TO ALL NATIONS A Limit of Thirty Miles Around Breeding Stations, and A Ten-Mile Limit Off Alaska.

SAN FRANCISCO, May 23.—There is much rejoicing in local sealing circles over the information which has reached here in a dispatch from Paris that the deliberations of the Behring sea tribunal, now in session across the ocean, will result in throwing Behring sea open to sealers and sealing vessels of all nations, and will also declare a limit of 30 miles around the northern breeding islands of both Russia and the United States, and a limit of 10 miles off the mainland coast of both Siberia and Alaska. At the present time the modus vivendi is in force, and Behring sea is closed to all sealers under its provisions, and nearly every vessel in the sealing fleet had express orders on starting out to stay away from Behring sea. The fleet is composed of about 90 vessels this year, and nearly all of them are off the Japan coast. Reports from those waters are that seals are very plentiful this year and the sealers are likely to make big catches.

HAWAIIAN MINISTER. Shall the Provisional or Royalist Party Be Recognized?

WASHINGTON, May 23.—Dr. Mott Smith, who until recently has been recognized as the representative at Washington of whatever government there may be at Hawaii, has returned to the city and confirmed the unofficial announcement that Lorin Thurston was appointed by the provisional government of Hawaii as its representative at Washington. At the same time Dr. Smith was in a quandary. The United States, in Dr. Smith's opinion, had never officially recognized the provisional government now ruling at Hawaii. It is true Minister Stevens recognized the new government, but from what Commissioner Blount has made public it is difficult to understand whether the present administration has recognized the provisional government or not. There is a belief that Blount is now United States minister to Hawaii, but the appointment has never been officially promulgated. Dr. Smith is therefore at a loss as to his future conduct. He proposes, however, when Thurston arrives here as the new minister from Hawaii, to introduce him to Secretary Gresham as his successor and throw upon Gresham the responsibility of deciding whom the United States will recognize as minister from Hawaii.

Secretary of the Congress. The secretary of the Trans-Mississippi congress, O. W. Crawford, was born in Columbus, Ohio, in 1851. He was educated at the State University of Missouri, read law and was admitted to the bar. He never practiced law, the routine of a law office being too tame for his speculative nature. He removed to Texas in 1872. Mr. Crawford has been seventeen years in the real estate business, and has never received but four commissions. He has always been a dealer and developer of properties. The recognition of his ability as an advertiser caused him to be elected secretary of the commercial club of Houston, Texas, which he resigned to accept the position of general agent and manager of the Brazos River Channel and Dock Company and Texas Immigration Co. Mr. Crawford has probably the largest list of personal acquaintances of any person in the Trans-Mississippi country.

Much Damage at Detroit. DETROIT, May 23.—A terrific wind and rain storm broke over the city this morning. It continued to increase in violence. At noon it was blowing 60

miles an hour. The streets are almost obstructed by broken shade trees. Nearly all the telegraph and telephone wires are down. It is feared there is much damage done throughout Michigan and many wrecks on the lake. It is known that there is great damage at Adrian.

Dr. Cornelius Herz. Arrested on suspicion of being implicated in the Panama canal scandal, is about 47 years of age. His business was to win over to the scheme men high in authority, such as cabinet ministers, senators and deputies. It is estimated that 12,500,000 francs found their way into his hands through his connection with the enterprise. Reports concerning his history are conflicting, he himself saying that he was born at Besancon, France, of German parents, who afterward removed to the United States and were naturalized, he thus becoming an American. He was arrested at Bournemouth, England, on a warrant from the French government. He is under guard at that place, being too ill to be removed.

Lost Half Its Army. PANAMA, May 23.—Advices from Nicaragua in regard to the battle between the government forces and the revolutionists near Masaya yesterday say the battle lasted 12 hours, and eventually the government troops were driven from the field. Counting deserters, dead and wounded, the government lost fully half its army. The rest are demoralized and disheartened. Of 12 departments, but four now remain loyal to President Saca, and he is believed to be ready to treat for surrender. The removal of the Pacific Mail steamship service from San Juan to Corinto has disturbed the plans of the revolutionists, who are anxious to maintain relations with the outside world.

Crop-Weather Bulletin. EASTERN OREGON. Frequent showers, some heavy rain, cool temperatures and lack of sunshine have marked the weather for the week. The rainfall varied from 0.50 to 1.50 of inches.

The rains keep the soil in fine condition, but there is an absence of sunshine and warmth, which are necessary for the more rapid growth and the development of vegetation. The wheat prospects are excellent, and if no hot winds should occur the yield will be phenomenal. There has been a general increase in the acreage of cereals. The peach crop will not be an average one. They are considerably injured about The Dalles and Milton. The strawberries are ripening slowly, due to absence of warm sunshine. Wool is being hauled into the warehouses. Is of excellent quality and staple. Sheep shearing continues in progress. In the interior counties the fruit buds are swelling and opening, but the backward conditions continue. The stock have good range feed, and they are generally reported to be in good condition. The year promises, from the present outlook, to be most successful.

The temperature over the country drained by the Columbia and tributary rivers has been below the normal since last Thursday. As a result the rapid melting of the snow has ceased, and the rivers are falling slightly. It is expected that they will continue to fall slightly until Saturday, when they will have a tendency to rise again. The extreme high water for the year has not been reached yet.

The P. & B. papers are recommended for wrapping around trees to protect them against sunburn, borer and rabbits. The P. & B. roofing for barns, outbuilding, sheep and cattle sheds is unexcelled.

Hogg has vetoed the sugar bounty bill, to enable the superintendents of the Texas penitentiaries to accept from the general government bounty on sugar raised on convict farms. He denounced the sugar bounty of the United States.

Jake Kafka, 9 years old, remarkable for his diminutive size and bright mind, died yesterday in Portland. He was 28 inches high and his maximum weight was 14 pounds. He was quick at repartee, and his mind was far in advance of his physique, even had the latter been normal. It is related that on one occasion an uncle from New York visited his parents, and one day Jake saw him take a handsome gold watch from his vest pocket. The child expressed much pleasure at seeing it, and his uncle promised to send him one upon his return to New York. Jake replied: "No, never mind; I don't need it. My mamma is my watch."

President McLeod Resigns. BOSTON, May 23.—President McLeod tendered his resignation to the directors of the Boston & Maine railroad today.

Frank Jones will be chosen to succeed him. Mr. McLeod is of Scotch descent. He is now 44 years of age and with his wife and son makes his home at the Aldine hotel in Philadelphia. Mr. McLeod (who pronounces his name "McLee-od") began his work as a surveyor in the employ of the Northern Pacific. Little was heard of him until he became general manager of the Elmira, Cortland and Northern, an obscure and unimportant line, but in the management of which he gained a vast amount of valuable experience. In 1886 he succeeded Austin Corbin as manager of the Reading, then almost bankrupt, but which in the few years he has controlled it, has become the rival of such roads as the United States.

The people at the World's Dispensary of Buffalo, N. Y., have a stock-taking time once a year, and what do you think they do? Count the number of bottles that've been returned by the men and women who say that Dr. Pierce's Golden Medical Discovery or Dr. Pierce's Favorite Prescription didn't do what they said it would.

And how many do you think they have to count? One in ten? Not one in five hundred!

Here are two remedies—one the "Golden Medical Discovery," for regulating and invigorating the liver and purifying the blood; the other, the hope of weakly womanhood. They've been sold for years, sold by the million bottles; sold under a positive guarantee, and not one in five hundred can say: "It was not the medicine for me!" And—is there any reason why you should be the one? And—supposing you are, what do you lose? Absolutely nothing!

Special excursion, Dalles to Cascades and return, steamer Regulator, Saturday, May 27. Tickets, 50 cents. (No half fares.) Steamer will leave Dalles at 7 a. m. Returning, leave Cascade Locks at 3 p. m. D. P. & A. N. Co.
