CAPT. LEWIS TELEGRAPHS.

And Finds that He Is Not To Take Entries on Patented Lands.

By the wording of the late communication to land officers by Secretary Hoke Smith, Capt. Lewis believed, in common with all other citizens of The Dalles, including too the lawyers, that the patented lands acquired under the Dalles Military Road Co., included in the N. P. grant, were subject to entry by homesteaders, but seeing an ambiguity in the wording of the instructions he telegraphed a point-blank question to the interior department and today received the following in reply:

WASHINGTON, D. C., June 5th. To the Register and Receiver, The Dalles, Or.: Allow no entries for patented lands. Steps will be taken at once to recover lands erroneously patented to Dalles Military Road Co., within conflicting limits of the Northern Pacific grant.

This prompt settlement of the question in the mind of Capt. Lewis will probably save a good deal of money in lawyers' and other fees attendant upon a land entry to a class of people who toil hard for their money and accumulate their dollars slowly and with infinite self-denial.

Will Elect an Assistant Bishop.

At a meeting of the vestry of St. Paul's Parish, held in the vestry room of the church today, W. H. Lochhead, J. C. Coatsworth and L. S. Davis were elected delegates to the Episcopal convention which meets in Portland on Wednesday next. The important duty of electing an assistant bishop for this diocese will devolve upon the convention this year. Bishop Morris, who is getting old, needs an assistant, as the duties imposed upon him are too arduous to be longer borne by him alone.

Adjourned to meet June 30th, 1893.

The Same Story.

A local dealer, speaking to an East Oregonian reporter says: "All over the country there is a depression in wool. According to my idea there is a concerted action among larger manufacturers, speculators and commission merchants to crowd prices down to the lowest possible point—to place them on a free basis. I mean that by taking advantage of the financial depression they have combined to affect prices so that they can buy domestic wools as cheaply or cheaper than they could foreign wools duty free, so that if they are compelled hereafter to compete with free wools they will suffer no loss, which must be borne by the growers. In my opinion the situation would be much better if we would have free wool now, after affairs had become settled, as prices have actually been pushed down lower through the unnatural cause I have mentioned than they would be if wool were on a free basis.

"According to the prices that are talked of East at present for cleaning wool, our wools cannot bring more than from six to ten cents. There are at present no offers and no sales."

For best quality 10 oz., heavy riveted overalls at 50 cents per pair go to N. Harris.

It is a well-deserved victory for them. The way they throw their entire stock before the public, they cannot help but sell lots of goods, as we saw with our own eyes goods going out at 50 per cent. less than they can be bought elsewhere. We have learned that there is no less than 20 cases on the way of assorted
