THE DALLES OREGON

THE WORLD'S FAIR TIME-BALL.

How It Will Be Handled and Controlled in Its Work.
The five-foot time-ball to be dropped at the world's fair will be made of canvas on steel frame. It will be wound up each day to the height from which it is to fall, and it will be set and electrically connected in such a manner that the breaking of the circuit at twelve noon will release it.

The cable by which it will be controlled has already been laid, connecting the new observatory with the entire Western Union telegraph system, the touch of a button at the Washington end of it instantaneously transmitting notice of the hour over three hundred and fifty thousand miles of wire.

When that button speaks the whole country will listen, and the hands of seventy thousand electric clocks all over the country will point to the correct minute and second. There are seven thousand such clocks in New York city alone. All railways, factories and industries of every kind pay attention to the signal. Three minutes before noon each day all Western Union lines are cleared of business, every operator takes his finger from the key, circuits are opened, and at the instant when the sun passes over the seventy-fifth meridian the spark of intelligence is flashed to all parts of the country. It requires less than one-fifth of a second to reach San Francisco.

The twelve o'clock signal sent from Washington indicated 11 a. m. for Chicago, 10 a. m. for Omaha and 9 a. m. for the Pacific coast, the United States being divided into four perpendicular strips, and each strip setting its clocks by the time of the meridian which bisects it from north to south. Thus each strip is only one hour later than the next strip to the east.

"Golden Medical Discovery" cures those diseases which come from blood impurities—scrofula and skin diseases—sores and swellings.

But does it? It's put up by the thousands of gallons, and sold to hundreds of thousands. Can it cure as well as though it had been compounded just for you?

Its makers say that thousands of people who have had tetter and salt-rheum, eczema and erysipelas, carbuncles and sore eyes, thick neck and enlarged glands, are well today because they used it.

Suppose that this is so. Suppose that a quick-witted man was far-seeing enough to know that to cleanse the blood was to cleanse the life. Suppose that by many experiments, and after many failures, he discovered this golden key to health and that his faith in it for you is so strong that you can go to your druggist, buy a bottle, and if it doesn't help you, you can get your money returned—cheerfully. Will you try it? The remedy to have faith in, is the remedy the makers themselves have faith in.

A Sure Cure for Piles.

THE DALLES,

Wasco County, Oregon,

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon. Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these
