The Boston Herald estimates that the National banks hold about \$170,000,000 of gold in their vaults. Practically every dollar of this would be handed over to the secretary of the treasury in exchange for United States bonds.

The proposition to establish government warehouses or sub-treasuries where agricultural products might be deposited money borrowed thereon was denounced generally as preposterous, says the Louisville Courier Journal.

Since dollars are coined out of sixty cents' worth of silver, says the Scientific American, it is no wonder that counterfeiters have turned honest and are getting out dollars containing the same amount of silver as the genuine, and undistinguishable from the mint issue.

Of the many locomotives at the world's Columbian exhibition, English, French, American, the towering form of No. 999 is particularly attractive by reason of the great exploit made therewith on the 10th of May last, when it was run at the wonderful rate of 112 miles per hour between Batavia and Buffalo.

There is a big advantage to be gained in the large cities in the fact that the Chinese did not register. There are a large number of them who are well known as criminals, but who, nevertheless, cannot be convicted for lack of evidence.

The contract for the erection of the dormitory at the state university at Eugene City was let to Messrs. Hutchings & Southwick of Salem for \$18,367.

Jim Hill has announced a huge cut in rates on the Great Northern, and Oregon Pacific and the steamship companies have commenced the fight on the south.

Cleveland has just learned that Murphy and Markley were recommending Weaver men for office, and has consequently turned them down.

Don't be a spider and crawl in these days! Why not keep up with the nineteenth century? You would not buy a steam engine made like those of a century ago.

As great improvements have been made in pills as in steam engines. Dr. Pierce's Pleasant Pellets are tiny, sugar-coated granules, or pills, are easiest to take, and never gripe or shock the system.

They are purely vegetable and perfectly harmless. One little Pellet's a laxative, three to four are cathartic. They regulate and cleanse the liver, stomach and bowels—quickly, but thoroughly.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 160 square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the many factories will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
