TUESDAY, - - - JUNE 13, 1893

The following is the statistical report of the Illinois State Board of Agriculture for May 1st, 1893, which would seem to indicate a poor showing to those who are accustomed to the bountiful crops and condition of stock in Oregon: Winter wheat, condition 70 per cent; less than usual put in. Oats, condition 90 per cent; 5 per cent more planted than last year. Old corn in hands of producers 43,599,187 bushels, 32 per cent of crop; average in hands of producers at this time for past fourteen years, 57,208,095, last year, 65,969,599. Meadows not doing very well; average 91 per cent. Pastures, decrease in area and same condition as meadows. An insect in Knox county has killed several acres in spots. Horses, 97 per cent of an average, condition good. In Bureau county horses and colts have mange or itch, and many mares dropped their colts; distemper reported in Knox, Edwards, Jasper, Johnson, Calhoun, Grundy and Pulaski. Cattle, deficiency of 10 per cent, condition 94 per cent. Hogs, only 72 per cent reported. Many young pigs lost in Carroll, Douglas, Fulton and Coles counties and condition 3 per cent below average. Sheep, 99 per cent and condition 100 per cent. Bees did not winter well and season poor for them. Apples, poor crop expected for third successive year. Average wages paid farm help in northern division per month without board, \$27.70; Central, \$24.80; southern, \$20.75. With board \$19.80, \$17.95 and \$14.60.

The action of those democrats who got up a convention and nominated a straight party ticket has not met with that degree of favor with their party that they had hoped for. There are those among them who are out-spoken in designating the action as superfluous in the extreme. Party lines have not been drawn in our city administration for many years, and there is no occasion to do so now. What the people want is a wise, conservative, practical course of conduct without reference to the great questions of national difference, and such an administration have we had in the past, and expect for the future. As stated in the beginning there are many democrats who do not propose to be held to their political complexion or to an accounting for their vote for whom they please. It is therefore confidently predicted that the whole ticket will be snowed under, and thus teach the wholesome lesson that the chicanery and intrigue of machine politics is distasteful to the majority of citizens, who want the best man, no matter what his party affiliations.

The Astorian asks: When will Portland learn wisdom? Her merchants and manufacturers find now that the sweeping reduction in freight rates made by the Great Northern imperils her jobbing trade and local industries. The eastern rates to Spokane are lower than those from Portland to that city. It follows that Portland will be forced to seek for trade within narrower limits. The California drummer is almost at her gates and the Spokane traders will soon invade her territory. Long ago Portland should have prepared for this warfare by promoting the development of Oregon in many ways. The construction of a railroad to Astoria by way of the Nehalem valley should have been one of the first things that Portland undertook to hold her grip on the commerce of Oregon and Washington.

Citizens' Meeting.
At the request of many citizens I hereby announce that a meeting of the voters of Dalles City will be held at the court house, on Wednesday, the 14th day of June, 1893, at eight o'clock p. m., for the purpose of nominating candidates for the offices to be filled at the approaching city election. ROBERT MAYS, Mayor of Dalles City.

Cut Flowers for Sale.
I have all styles of wires, including Odd Fellows, K. of P., and Masonic designs. Everything for floral decorations furnished on short notice. Prices reasonable. Mrs. A. C. STUBLING, dlm Cor. Eighth and Liberty.

THE SNUG.
W. H. BUTTS, Prop.
No. 90 Second Street, The Dalles Or.
This well known stand, kept by the well known W. H. Butts, long a resident of Wasco county, has an extraordinary fine stock of
Sheep Herder's Delight and Irish Disturbance.
In fact, all the leading brands of fine Wines, Liquors and Cigars. Give the old man a call and you will come again.

They poulticed her feet and poulticed her head, And blistered her back till 'twas smarting and red, Tired, tender, aching, pain-killers and salves, (Though grandma declared it was nothing but nerves.) And the poor woman thought she must certainly die. The "Favorite Prescription" she happened to try. No wonder its praises so loudly they speak. She grew better at once and was well in a week.

The torturing pains and distressing nervousness which accompany, at times, certain forms of "female weakness," yield like magic to Dr. Pierce's Favorite Prescription. It is purely vegetable, perfectly harmless, and adapted to the delicate organization of woman. It allays and subdues the nervous symptoms and relieves the pain accompanying functional and organic troubles.

It's a legitimate medicine—an invigorating, restorative tonic, a soothing and strengthening nerve, and a positive remedy for "female weaknesses" and ailments. All functional disturbances, irregularities, and derangements are cured by it. There's nothing like it in the way it acts—there's nothing like it in the way it's sold. It's guaranteed to give satisfaction in every case, or the money paid for it is promptly refunded.

Read the guarantee on the wrapper. You lose nothing if it doesn't help you—but it will.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
