THE CRICKETS.

A Very Entertaining Insect if He Wasn't So Numerous.

Agent J. C. Luckey came in today from the Warm Spring Indian reservation. He states that the crickets are thicker this year than ever on the reservation and are proving very destructive, many of the Indians losing their crops. They are very voracious and soon clean up a field of spring grain. Rye, which is nearly headed, is too tough for them. Two or three of them have been seen to commence on a radish and follow it down in the ground, leaving nothing but a hole, and when a drove of them commence in the morning on a field of grain, the ground looks at night as if it were freshly plowed. The Indians are afraid to use poison, and there is but one way for them to save their crops, and that is by trenching.

They are a very interesting insect as regards habits. After they start on a course they will not be turned back by any obstruction, even to crossing a river, which they will plunge right into, making use of a leaf or any floating object to help them across. Nothing can be done to change their course but fire, and after they round this they will persist in their original direction. It is interesting to observe them withdrawing from their skin, leaving the tenacious hide swinging from a bush or twig. After emerging they are nearly transparent and are as varied and brilliant in color as the rainbow. The female depositing her eggs is an interesting process. Taken as a whole the cricket is a very interesting little insect, if he wasn't so plaguey numerous.

QUARTERLY INSPECTION.

Co. A. Inspected at the Armory--Notes on the Militia.

Brigadier General Compton and Major Jackson, of the O. N. G. official inspectors made an inspection of Co. A. at Armory hall, a report of which will be published at some future time. In the afternoon they were entertained by local militia men by a drive to Seufert's fishery and left on the night train for points east, where inspections will be made. Lieut. Staags, of Co. B at Weston, who was ordered to report at The Dalles, was prevented on account of sickness in his family. Lieut. J. H. Ferguson of Hood River, was here on Monday on official business for the O. N. G.

There yet remains an unexpended portion of the allowance for the Third Regiment band, which might be utilized to advantage in the near future. Quartermaster J. M. Patterson, of the Third Regiment, is fitting up permanent headquarters in the first floor of the Gates building, in the rear of Maier & Benton's.

The new uniforms of the Third Regiment are expected very soon. Col. Lucas, of the Third Regiment, has resigned, which will necessitate the election of a new colonel. Two majors will be elected tomorrow evening at the Armory.

MEDICAL ASSOCIATION.

A Light Attendance, But a Good Time Experienced.

The attendance yesterday at the Medical Association was very light, in consequence of the attractions at Chicago this year, and the fact that those who were to have come could not do so on account of the increased practice thereby. A grand banquet was given in Fraternity hall. Speeches were made by many of the visiting doctors and also by Mrs. Rinehart and Doane. A spread was made for over fifty persons. Among them were the following: Ex-president, Dr. Rinehart and wife, Senator Hilton, and wife, Judge Bradshaw and wife, Agent Lytle and wife, C. L. Phillips and wife, L. E. Crowe and wife, J. T. Peters and wife, J. B. Crossen and wife, M. T. Nolan and wife, Hugh Glenn and wife, Miss Ruth Cooper, T. A. Ward and wife, S. L. Brooks and wife, John Michell, D. C. Ireland, Capt. Lewis, and W. H. Wilson.

Dr. H. R. Holmes was elected president of the Medical association, Dr. Smith, vice president, Dr. Cauthorn, secretary, Mrs. Dr. May Whitney, treasurer. This is the first lady ever elected to an office in the Pacific coast district of the association.

The association and friends then, in response to an invitation, took an excursion to Seufert's cannery, which took place at 2 o'clock by special train. The visitors were much pleased with their entertainment here and spoke in a highly complimentary manner of the city and its inhabitants.

Dr. M. J. Davis is a prominent physician of Lewis, Cass county, Iowa, and has been actively engaged in the practice of medicine at that place for the past thirty-five years. On the 26th of May, while in Des Moines en route to Chicago, he was suddenly taken with an attack of diarrhoea. Having sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for the past seventeen years, and knowing its reliability, he procured a 25 cent bottle, two doses of which completely cured him. The excitement and change of water and diet incident to traveling often produce a diarrhoea. Every one should procure a bottle of this Remedy before leaving home. Hickey Will Be Released.

Some time since H. S. Dukes, a son-in-law of Hon. John M. Clayton, who was murdered in Arkansas some time ago, sent a photograph of Hickey to Dr. Doane for identification, who collected and sent at once a number of affidavits that the original of the picture was in The Dalles at the time of the crime. A letter acknowledging their receipt has just been received by Dr. Doane as follows:

"Please accept my hearty thanks for your prompt compliance with my request. Upon receipt of the affidavits to which you refer, Hickey was released upon a nominal bond of \$1,000, which I think may as well be considered as the final determination of this now famous case, as I do not believe the grand jury will ever indict Hickey. Burkhardt, the witness who tried to convict Hickey, is still in jail, but will undoubtedly be released soon, unless he is prosecuted for perjury."

KIDNAPPED.

Mrs. Hope Entertains Two Bright Little Strangers, Who Were Stolen.

Two bright and pretty little children, a boy of 7 and a girl of 4 years, have been at Mrs. Hope's lodging house for two days, who were kidnapped from Portland and brought to The Dalles by Ben C. Uhlen. Mrs. Hope suspected something was wrong from the talk of the children, and sent at once for the officers. By the time Sheriff Ward had arrived, Uhlen scented a mouse and had fled. Yesterday noon's train was carefully searched, which was the first he could have escaped upon, but he was not to be found, and was probably hidden, though he might have escaped by the ferry. Mrs. Hope stated that the children were named Van Ostran, and came from Portland; that she believed there was domestic infelicity between the parents, and that the children were to meet their father here. A telegram was sent to Portland yesterday, informing the authorities of the situation, and Deputy Morgan arrived who will take the children to Portland back tonight.

May his shadow continue to grow until it infringes on the periphery of that cast at noonday by the broad-brimmed planter's hat, which is part of his customary adornment.
