MR. MALONEY.

Mr. Dan Maloney, as was stated last night, is adopting queer methods to gain him the suffrages of the people. His latest attempt is to muzzle THE CHRONICLE by intimidation. He apparently does not realize the magnitude of his contract, for while he might go on and slaughter a graveyard full of CHRONICLE reporters, there would always be one more. The following excerpt in last night's CHRONICLE, is the cause of his umbrage:

Dan Maloney has filled the office of marshal fairly well, having proved himself to be an industrious officer, though lacking in judgment on one or two notable occasions, but his methods in politics the last few days are at least questionable. Having secured the nomination on the regular democratic ticket, it is not strictly the part of wisdom to accept like honors at the hands of the citizens convention. He should repudiate the latter, since it is now too late to repudiate the former. Geo. Herbert who is his partner in misfortune, did the honorable thing in refusing to be a nominee last night, which was wise as well.

Now, if the CHRONICLE had stated that he secured the nomination by only eighteen votes, which, with two other candidates in the field, gave him really a large minority; if we had stated that he was out with a handsome equipage with four spirited black horses, going into the country for votes for a city election; that he had peremptorily forbidden an unassuming quiet stranger the privilege of expounding his religion upon the public streets; and allowed a leg-show to exhibit their immoral graces upon the street on Sunday, all of which facts we knew at the time, he would have had more excuse for thus hailing a reporter:

"If you put my name in the paper again, I will hunt you up, slap your face and kick you; you hear me; you hear me."

There is so little argument in the above, though forcible enough, that the reporter did not attempt a reply other than the modest statement that he would not be kicked if he had dexterity enough to pull a gun.

Nevertheless, this is a personal matter, and the public is not expected to interest themselves in these details, only as showing the manner of the man who asks to be marshal. If the people of the Dalles want a man for this position whose insignia is a club, who adopts for his motto "Might is right," a bully of the Sullivan type, and a man who has so little intelligence that he thinks he can force a newspaper into the same dumb submission that he can an individual, who while an officer of the law, adopts such lawless methods, then vote for Dan Maloney. If you prefer a manly individual, one who commands the respect of his fellows, and will not abuse the power conferred upon him with the star, we say in all sincerity, vote for George D. Read.

And now Pennoyer gets another endorsement. It is stated that the board of engineers will report in favor of a portage railroad at the upper Cascades, and that a ship railroad is impracticable and canal expensive. Should this plan be too adopted by the next congress, the Columbia river could be opened to move the crops of 1894.—Portland Dispatch.

The jute factory is giving the state officials considerable trouble, and it is not likely that anything more than the erection of the building can be accomplished before the next session of the legislature.

Crittenden to Succeed Blount.

CITY OF MEXICO, June 15.—Thomas T. Crittenden, the United States consul-general here, has been offered the post of minister to Hawaii. He was at first inclined not to accept the mission, but he is now reconsidering the matter. C. A. Doherty, secretary of the United States legation, has been granted a leave of absence on account of ill-health, and will start tonight for the United States. It is believed here that he will not return to Mexico.

The Coming Circus.

Sanger & Lent's is not only the best circus in the world, but also the leading Zoological institute of every continent. It has in addition a superb hippodrome, and the only aquarium of deep sea monsters in this country, also many living wonders obtained in its travels that would be impossible for others whose territory of action is limited to frequently not more than a thousand miles from their native village. Sanger and Lent are favorably known wherever civilization extends as the foremost, most enterprising and reliable of managers. The great show will exhibit at The Dalles, June 29th.

The Big Bonanza Co.

The LeHorn children—Cora, who is less than six years of age, and little Max, who will see his 5th birthday October 17th, have been delighting the patrons of Cordray's the past two weeks. Without doubt these are the most versatile and talented children who ever appeared on the coast, and their efforts have been crowned nightly with merited applause.—Oregonian, May 28th. These wonderful children will appear with the Big Bonanza company at the Armory hall Friday, June 18th.

Two doctors of an Eastern town, To learning much inclined, Were called to see a gentleman, Whose health was undermined. The first one used his stethoscope Upon his patient meek, "I find," quoth he, "one lung is gone; You cannot live a week." To this the other wise M. D. Vehemently objected, "I see," quoth he, "as all may see, Your kidneys are affected. These wise men argued loud and long, Yet the patient owes recovery (Not to those doctors, but to— Pierce's Golden Medical Discovery).

There are some patent medicines that are more marvelous than a dozen doctors' prescriptions, but they're not those that profess to cure everything. Everybody, now and then, feels "run-down," "played out." They've the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten. We put in our claim for Dr. Pierce's Golden Medical Discovery. We claim it to be an unequalled remedy to purify the blood and invigorate the whole system. It's the cheapest blood-purifier, sold through druggists, no matter how many doses are offered for a dollar. Why? Because it's sold on a peculiar plan, and you only pay for the good you get. Can you ask more!

WINANS
 THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and water-falls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
