That railroad accident, says the Tele-gram, is another that could have been prevented. If the fence law was properly enforced no cows would be on the track, and no disasters from such causes would result. The proposition to build the fence seems to demonstrate itself when it is considered that the cost entailed by this accident, not to mention the death of one or more passengers and injuries inflicted, would more than pay for a good fence from here to The Dalles. In the first place, for their own protection the Union Pacific should have this work done, because these mishaps make a big hole in the profits and dividends of stockholders; and in the second place, the state law should not be allowed to remain unobserved. It is not put on the statute books as an ornament, or to be a dead letter. In a measure, therefore, the blame rest on the officials whose duty it is to see that the laws are enforced. From this affair they can take warning. Their responsibility, however, is nothing like that of the railway authorities. Obedience to law comes before enforcement. Let them remember that they have in charge the safety of thousands of passengers, and that these accidents may come at any time unless precautions are taken.

Except two small concerns, one at Corvallis, Oregon, and one in Michigan, every bank that has failed so far will pay depositors in full. Banks cannot afford to keep deposits in their vaults at all times, because there would be no profit in it, and timid depositors called for their cash, without notice, at a time when the funds were loaned on good security. The banks were, therefore, compelled to suspend for a short time, but when the loans are called in will pay in full. There was no more sense in runs upon the banks of late than there would be in attempting to stay a northwest blizzard with a pair of blacksmith's bellows. Still, the money sharks have made their millions out of the flurry. They it was who started the wave, and their money went out at fabulous rates of interest.—Welcome.

The CHRONICLE for more than a month, and without a second, has held that the scare on the wool market had no foundation in fact. It is agreeable therefore, to see such papers as the Portland Telegram swinging into line. Its last issue says: "The woolbuyers have raised such a howl about the low prices of wool resulting from the succession to power of the democratic party, that they have actually fooled many organs of the producers and caused them to advocate like ideas. It is unfortunate that this game should have been so successful. The buyers are able to wait, and they even enjoy the effects of their diplomacy, but the producers have not the same reserve strength and therefore may not hold out until the folly of the scare is demonstrated."

If the telegraphic report of Carter Harrison's speech at Chicago was correct, the mayor of the exposition city declared that the world would not have lost much if the Pilgrims had been lost at sea. Such a remark, if it was made by the mayor at the dinner to the Bay State delegation, as reported, was in very poor taste. Massachusetts has more reason to be proud of the Pilgrims than Chicago has for pride in her present mayor.

Not long ago when a young man was graduated at college, he usually began in his profession at the lowest round and at a very small salary. If the graduate is a base ball pitcher of a crack college team, nowadays, he has a bright prospect before him. Base ball pays better than teaching a country school.

No law ever upon the statute books of the United States has been more generally abused than the Sherman silver law, and none ever deserved more abuse.

Bucklen's Arnica Salve.
 The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Snipes & Kinersly.

Crop-Weather Bulletin.
 WESTERN OREGON.
 WEATHER—The cool, cloudy weather continues. Since March 1st the temperature has averaged nearly five degrees a day below the normal, making the coolest season on record. A heavy rain fell in Lane, Douglas, Josephine and Jackson counties on the 22d. The frosts on the 18th and 19th were general in the southern counties, and are the latest on record.

CROPS—The reports this week are not as encouraging as they have been. There is a unanimous desire for more sunshine and warmer weather. The wheat crop will be an average one, possibly more. Fall wheat is out of possible danger, though its condition would be improved by warmer weather and sunshine. Spring grain is from 4 to 10 inches high. The cool weather retards growth. Corn is not doing well, owing to the cool nights and lack of warmth during the day. Strawberries are yet very plentiful and sell at from 3 to 5 cents per box. Cherries are ripening slowly; they will be a short crop. Potatoes are growing well and a large yield is indicated. Prunes and plums continue to be reported as being a large crop, the same for berries, while peaches, apples and pears will not be an average crop. The increase in bearing acreage will, however, materially increase the total product.

EASTERN OREGON.
 WEATHER—On the 22d rain fell in Northeastern Umatilla county, and on the night of the 25th rain fell in Umatilla and Northern Morrow counties. The mean temperature ranged from 50 to 54 degrees.

CROPS—In Wasco, Sherman, Gilliam, Morrow and Western Umatilla counties rain is badly needed. The crop prospects were excellent in these counties some three weeks ago; but the continuous dry, northerly winds have dried up the grounds, and the result is where 30 bushels of wheat were indicated, not over 20 bushels, and in some places not over 10 bushels, per acre will be realized. Rain within ten days would materially improve the present outlook. In Umatilla county, east of a line drawn north and south of Pendleton, the crop prospects continue to be excellent and 35 to 40 bushels per acre of wheat will be secured. In this section of Umatilla county fully two million bushels of wheat will be harvested. The cool weather, however, is a detriment, and warmer weather would be beneficial. The first crop of alfalfa is being cut in the interior counties. The corn is in need of warmer weather. The cherries in the river counties are ripening, but are not over three-fourths of a crop. The peach crop indicates about one-half a crop. The berry crop will be very large. The wild hay crop is fully up to the average and a good winter supply of feed can be secured on the ranges. Stock is in fine condition. Sheep shearing has been finished in all of the counties, and a large wool clip of excellent staple has been secured. The warehouses are being filled with wool and no market for it.

Attention A Company, Third Regiment.
 The members of A company will assemble at their armory hall fully uniformed, armed and equipped Friday, June 30th, 1893, at 8 o'clock p. m. sharp, for quarterly inspection. By order of
 COL. JAY P. LUCAS,

Rheumatism, Lumbago, Sciatica, Kidney Complaints, Lame Back, &c.
D. J. SANDEN'S ELECTRIC BELT
 With Electro-Magnetic SUSPENSORY.
 Latest Patent! Best Improvement!
 Will cure without medicines all Weakness resulting from over-exhaustion of brain, nerve forces, excess of indigestion, nervous debility, sleeplessness, lagging, Rheumatism, kidney, liver and bladder complaints, lame back, lumbago, sciatica, all female complaints, general ill health, etc. This electric Belt contains powerful magnets over all other belts. Currents are instantly felt by water or wet feet. \$5.00, and will cure all of the above diseases or no pay. Thousands have been cured by this marvelous invention after all other remedies failed, and we give hundreds of testimonials in this and every other state.
 Our Powerful Improved ELECTRIC SUSPENSORY, the greatest boon ever offered, weak men, FREE with all belts. Health and Vigor Restored GUARANTEED in 60 to 90 days. Send for Illustrated Pamphlet, mailed, from SANDEN ELECTRIC CO., No. 172 First Street, PORTLAND, ORE.

Checked—the frightful inroads of Scrofula and all blood-taints. Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, cleanses the system of all impurities, and restores health and strength. It cures all diseases arising from impure blood. Consumption is one of them. It's simply lung-scrofula. In all its earlier stages, the "Discovery" effects a cure. It's easy to see why. The medicine that masters scrofula in one part, is the best remedy for it in another. It is the best. It's warranted. It's the only blood and lung remedy that's guaranteed to benefit or cure, or the money will be refunded. No other medicine of its class does it. How many would be left if they did?
 It's the cheapest blood-purifier, sold through druggists, (no matter how many doses are offered for a dollar,) because you only pay for the good you get.
 Your money is returned if it doesn't benefit or cure you.

WINANS
 THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse-power in its flashing streams and water-falls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate, that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment!
