Minister Blount Declines to Deliver an Address

AND WON'T CELEBRATE AT ALL. Afraid It Might Be Looked On as Though He Were Taking Sides---

Annexationists Discouraged.

San Francisco, June 28 .- The steamship Australia arrived from Honolulu this morning, bringing advices to June

During the days that have elapsed since the departure of the last steamer for San Francisco there have been no new developments in politics, but American tongues have been wagging in a refusal to participate in the coming Fourth of July celebration. Not only ing aloof that he believes the political would not be becoming in him to take partin any public celebration. Although he does not say so, it is quite evident that Mr. Blount looks upon the Fourth of July celebration here as purely an annexationist affair, and he does not wish to participate in any affair that could give the impression that he favored the annexation cause. The American residents here say that the Fourth of July is not an annexationist holiday, but is, and has been for years in Honolulu, a day when patriotic Americans, whatever their local politics, might be joined together in an observance of the day set by their ancestors as a national holiday in the

United States.

Stabbed to Death. San Francisco, June 28 .- An unknown woman about 30 years of age was stabbed in a water front saloon early this morning and left to die in a little apartment in the rear of the saloon. She came into the place with Martin O'Neil, chief of the galvanizing department of the Union iron works. He says they went in to have a drink, but he could not recollect what took place. O'Neil's face was scratched and blood was found under the said he has a divorced wife there. He was arrested for the crime, and the police are positive he is the man.

James Lotan Fired.

Washington, June 28 .- The president this morning summarily removed from office James Lotan, collector of customs at Portland, Or. This unusual action was taken on receipt this morning of a telegram from special agents of the treasury department, who have been engaged for some time investigating the fraudulent practices prevailing in the Puget sound and Portland districts. The telegram stated they had information of the intended landing at Portland of a large number of Chinese coolies. Lotan was summarily dismissed and his deputy placed in charge, who will continue to act until Black, the new collector, qual-

BLAND ON FREE SILVER. An Interview With the Great Silver Advocate

Sr. Louis, June 28.-Congressman R. H. Bland, the great silver advocate, is here. Reviewing the silver situation as affected by the action of the Indian government, he said:

"Heroic measures will be required on the part of this government for the remonetization of silver. Most emphaticically I do not think it is a knockout for silver in this country. On the contrary, I think if congress does not adopt some measure looking to a bimetallic standard it will make the battle of the standards the coming issue in this country. This battle will disrupt the political parties and cause a contest between the commercial centers and agricultural districts of the country. Free coinage classes, and this is what the free-silver men will now demand of congress. The demonetization of silver is a conspiracy between banking institutions in England and the eastern portion of the United States, and the suspension of silver coinage in India is a part of this conspiracy to bulldoze the congress of the United States to the adoption of a single gold standard. I do not believe they will succeed. If the democratic congress stands true to its ipledges, this conspiracy will not succeed. The low price of silver is due to the fact that this and other governments are discriminating against it and that the money inter-

#### MARKET REPORT.

THURSDAY, June 29 .- The depression in business circles that characterized the former part of the season and the lifeless condition of trade, apparently vigorous manner at Minister Blount's have, in a measure, vanished, and the past few weeks have been encouraging to dealers and business generally. Through daily service (Sundays ex-cepted) between The Dalles and Port-tend the meeting of Americans to arrange of trade has increased in all branches in consequence.

Prices are generally maintained. The grocery and provision market continues its allegiance to King Oscar II. Norway of their demonstration. Mr. Blount steady without any apparent change in quotations.

Old fowls are quoted at \$2 to \$2.50 per The wheat market is decidedly weak on the coast. Foreign advices, while in some respects unsalisfactory, have an

encouraging outlook. The crop reports indicate a general shortage and a prospective demand for an additional supply of breadstuffs for 1893-4. Our United States crop bulletin for the week ending June 13th contains the statement that the average per cent will not exceed 78 per cent of acreage and prospective yield. Later advices will determine the product, but enough is known to base the calculation that the yield for 1893 will approximate near 435,000,000 bushels, and with the hold-over, as estimated, of 78 millions, will be 513,000,000 against nearly

> The situation continues unsatisfactory. Values of coarse and medium unwashed wools have reached a point at which buyers are showing more interest, but on all grades of washed wools prices are to a great extent nominal. The supply of the latter is not yet large enough to fairly establish a market. A few lots are selling at 27@28 for fine Ohio delaine and there are reports of some business in fine clothing fleeces at 25c, and in medium at 28c but the transactions at these rates are small and buyers evince no disposition to operate freely, except at further material concessions, which receivers are not yet in position to offer. Fair sales of quarter and medium unwashed have been made at 1916@20c and here and there buyers have made offers for considerable lines at 19c. question of his successor is discussed with the greatest interest all over Ger-

He is considered the shrewdest man in the ministry, and manages to keep on good terms with the leaders of the different shades of politics. By opposing the Russian treaty of commerce he has won the support of the agriculturalists. It is hardly likely that Caprivi will be retired before autumnupon the final rejection of the military
