The wind just breathed it to the pine. Who shook her head and sighed. And then she told it to the oak. Who said the wind had lied. But all the same, he told the ash. Who told the willow tree. And so it passed along the line. Until it came to me. I heard it from the speckled trout. Who had it from the pool. And this is how the story ran: "The moon last night was full!"

We are often asked, where is Beville?"

The Regulator now makes through ally connection to Astoria.

Wood Brothers are sporting a gaudy cat cart. It is beautifully colored and highly polished.

The Regulator took out 165 bales of wool, 20 horses and 40 head of sheep for the locks this morning.

When a Cascade Locks' denizen gets a bender he is put in the ice house, which generally cools him off in short time. Cold storage is a success at the locks.

Street Commissioner Madron and Engineer Brown have put the water fountain by the post office in fine shape, and now it is not only a blessing to the thirsty, but an ornament as well.

The woman tramp has been heard from in Eugene. She went into the waiting room at the depot and pulled off her shoes and ran around barefooted for a while, and to all appearances is not in her right mind.

The D. P. & A. N. Co. now connects with the Ocean Wave for Ilwaco and Long Beach. The regular excursion day is Saturday, returning on Monday, but those desiring may go at any time, and be carried by the Lurline, which also makes through connections.

On July 11th at noon the Warm Springs agency residence building burned with part of its contents. No insurance. A part of the household goods were saved. Considerable government property was lost with the rest. The loss falls heavily upon Mr. Lucky, and he will have the sympathy of all. The cause was a defective flue.

It is said that nearly 200 arrests for selling liquor to Indians have been made by the deputy United States marshal at The Dalles during the past 18 months, at an average profit to the officers connected with the arrests and commitments of \$20 a piece. It is a matter of

very common belief there that there was something decidedly crooked about the whole business and this is not a bit of a secret either.—Sentinel.

A female in New York going by the name of Alice killed and actually ate her own offspring twelve days old, one night last week, and not a vestige of the little one was to be seen next morning. This cannibalistic deed was done at the Zoo by a lioness.

It is reported that some of the telephone outfit were amusing themselves this morning by throwing a Chinaman into the river, and that said Chinaman afterwards got a gun and fired it several times at his tormentors, succeeding only in boring holes in the air.

The rain of last Saturday was the salvation and insurance of crops in this and adjoining counties and as far south of the Columbia river as has been heard from. It came exactly in the nick of time and it was sufficiently copious to be thoroughly effective. It is the general opinion here that Klickitat county will harvest this year the largest crop it has ever produced.—Sentinel.

One on Prof. Gatch.

Two former pupils of President Gatch of the Washington State University met the other day at the dinner table of the Central, when the following little story was overheard by a Goldendale Sentinel representative: One of the boys said, "I was attending the Wasco Academy when Gatch was principal. At one time the professor gave us boys a long lecture about the way we used to follow the girls, especially on the campus and wound up by warning us that if any of us were to be seen on the morrow escorting any of the girls on the ground we must have a ten-foot pole between her and us. Well, sir, next morning the last one of the big boys marched up to the Academy each carrying a ten-foot pole, but pointing straight up in the air and our best girl walking close up to our sides. The professor thoroughly enjoyed the joke and never attempted to advise us on the same subject afterwards."

Salem's Troubles.

None of the Salem banks are cashing city warrants. Warrants are not at a discount, but the banks are not making loans or taking up paper of any kind that they can avoid. They are pursuing this policy to keep their supply of coin as large as possible. Where warrants are presented by merchants with good accounts, they are received as deposits.

SHARPSBURG, Pa., Jan. 27, 1892.

MR. J. J. KELL, Sharpsburg, Pa. DEAR SIR—I have used Krause's Headache Capsules for some time and want to testify to their value. AN ABORTION.

Finding of an Infant's Body under the Railroad Bridge.

The coroner was notified this morning of the finding of an infant's body, and a jury was summoned and an investigation made. The body was found yesterday morning at 10 o'clock by Arthur Jenkins under the bridge below the Columbia house at the edge of the water. Its color was white and the flesh not decomposed. Young Jenkins did not believe the discovery was important, but telling Ned Gates, a boy of 17, the matter was at once reported.

It was found to be a fetus of about six months, a boy, perfectly formed, but evidently the victim of an abortion. This is a high crime, being nothing less than manslaughter, and it will go hard with the guilty parties if they are discovered.

The following is the verdict of the coroner's jury:

"We, the jury empanelled to investigate the cause of the death of the infant found on the banks of Mill creek, find that it was of premature birth; that the cause of said premature birth is unknown to us. We find that the placing of it in the creek is an evidence of crime; and such conduct on the part of those placing it there is most reprehensible, and if they could be found should be punished to the full extent of the law.

Domestic Don'ts.

Don't forget that the patient little woman you call your wife was once your sweetheart. A caress now and then or a tender word costs so little and means so much to her.

Don't forget that the sunshiny side of woman's nature cannot outlive coldness, indifference and neglect.

Don't take it for granted that if she wants a little change she'll ask for it.

Don't meddle in affairs of the house. The man who gives out the week's wash and counts the cost of all household moves is a simple nuisance.

Don't bolt from your evening table to your club and leave the poor soul, who would like to enjoy your society, to the horrors of an evening alone. Remember that the tenderest mother and the most untiring housekeeper would enjoy an occasional change from the nursery and home duties.

The Lively Recorder.

A hobo, arrested for stealing a jar of fruit and begging, was fined \$10 this morning. A drunk and disorderly was fined \$5, for which he gave up a fine revolver for security. A row at the "white house" resulted in Nightwatchman Gibbons pulling the entire occupants, and \$20 bail was produced for their reappearance tomorrow.

There are some patent medicines that are more marvelous than a dozen doctor's prescriptions, but they're not those that profess to cure everything.

Everybody, now and then, feels "run down," "played out." They've the will, but no power to generate vitality. They're not sick enough to call a doctor, but just too sick to be well. That's where the right kind of a patent medicine comes in, and does for a dollar what the doctor wouldn't do for less than five or ten. We put in our claim for Dr. Pierce's Golden Medical Discovery.

We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing bilious, typhoid and malarial fevers if taken in time. The time to take it is when you first feel the signs of weariness and weakness. The time to take it, on general principles, is now.

A Stubborn Dog.

The bulldog has in all ages been regarded as an animal endowed with a high degree of courage and determination, not unmixed with silent ferocity. But sometimes the creature does not exercise that quality which is fittingly described as the "better part of valor." There are instances when this breed of dogs emulates the example of the rash bull which attempted to butt a locomotive from a bridge. A case of that kind occurred very early this morning on Morrison street between Seventh and Eighth. A large bulldog had a misunderstanding with one of the street-cars. Just how it happened no one seems to know; but the animal must have been foolish enough to dispute the right of the way. There could be but one result—the car went on, but the dog, alas, remained on the spot. Its sudden and gory death should be a warning to all rash and stubborn dogs.—Telegram.

The Dalles City will connect with either Ocean Wave or Lurline every evening for Ilwaco and Long Beach. The D. P. and A. N. Co., will sell round trip tickets at reduced rates on and after today.
