NO SUNDAY OPENING.

The Directors Decide to Close the World's Fair That Day.

CHICAGO, July 14 .- The world's fair is to be closed Sunday, after July 16. The admissions of next Sunday have already been donated for the relief of the families of the fremen who lost their lives in the recent fire on the grounds, and but for this fact the fair would probably be closed next Sunday. The vote of the local directors rescinding its former action was overwhelmingly in favor of closing, standing 24 to 4. When the meeting of directors was called late this afternoon an address strongly advocating Sunday closing and signed by most of the leading Chicago clergymen was read. After several speeches in favor of closing, resolutions were adopted setting forth the fact that the action opening the fair was taken in response to urgent appeals from persons and organizations representing a large majority of the public, as well as from stockholders of the corporation, and also in accord with resolutions adopted by the city council of Chicago. It not appearing by actual admissions that the general public does not, by its attendance, manifest a desire that the exposition be kept open each day, and if the exposition is kept open Sunday it will require the attendance of more than 16,000 laboring men and women, employes of the exposition and others, and hardly worthy of notice. The night il- currency from the country, and there is it further appearing that the number of laboring men and women whose services are required to keep the exposition open Sunday is disproportionate to taken advantage of the day to post in- them in better condition than could the number of visitors, all previous rescendiary placards. the government. With the artillery under General Ezeta a battle was fought in which the revolutionists were defeated after a short fight. Then the rebels capitulated. In the engagement Colonel Flories was killed. His principal lieatenants were captured and thrown in prison, where they will remain awaiting court-martial. Senor Pedot was arrested later and he is also imprisoned. Many civilians have also been implicated in the conspiracy. Official reports have been promulgated by the government, denying that any revolution is now in progress or that there was any outbreak, and further deany news relating to the outbreak, and no direct advices are obtainable.

What Senator Allison Thinks

MINNEAPOLIS, July 14 .- Senator Allison, of Iowa, is in the city, the guest of Senator Washburn. He said today the present financial disturbances were due largely to the fact that there is a belief that if we continue to purchase silver we must soon reach a silver standard. Added to this is an expansion of credits. and a distrust of the democratic policy on the currency and tariff. The stoppage of the purchase of silver will greatly aid in restoring confidence, and we can easily maintain at a gold par all the silver. We have silver bullion now far below the normal price, and it will addid so till recently. Now, however, it ersly. has the effect of causing a hoarding of Get your bathing pants from S. & N. Go to N. # California's Silver Men.

SAN FRANCISCO, July 14 .- A meeting in the interest of the free coinage of silver will probably soon be held in this city. Silver mining men from Montana. Idaho, Nevada and other states, who are staying at the Grand and Palace hotels, have been discussing the proposition of having such a meeting here, and steps will be taken to have one called by prominent citizens of San Francisco. 11 is desired to select delegates from California to the Bimetallie League which
