what a comfort it is to have ready at hand a remedy that never fails to relieve Constipation, and that, without pain or discomfort; and almost immediately cures headaches, and dispels every symptom of Dyspepsia. Such a remedy is found in Simmons Liver Regulator—not a sweetened compound to nauseate, or an intoxicating beverage to cultivate an alcoholic appetite, but a medicine pleasant to the taste, and perfectly harmless when given to the smallest child. S. L. R. never disappoints. It possesses the virtues and perfections of a reliable remedy of the kind endorsed by eminent physicians.  
"It affords me pleasure to add my testimony to those you receive annually in reference to your valuable medicine. I consider Simmons Liver Regulator the best family medicine on the market. I have prescribed it with excellent results."

**CONSIDERED A HOAX**  
Such is the Construction Now Put Upon the Port Townsend Story.  
**THE SOURCE OF THE INFORMATION**  
It Originated with One of the City of Topeka's Passengers, But No One Else Knew of It.  
SEATTLE, July 18.—The story sent out last night about the United States steamship Mohican being fired upon and disabled by a six-pound cannon from the steam sealer Alexandria, is now believed to be a hoax. The story was told by G. T. Barrett, of Kodiak island, who came down on the City of Topeka, but the officers of the boat know nothing of the occurrence. Judge Warren Truett, of the United States court of Alaska, and E. B. Hatch, ex-collector of customs, who came down on the Queen, which left two days after the Topeka, say they had not heard of any such affair as told about the Mohican, and the mail boat from the north had arrived in Sitka several days before they left. No other passenger, except Mr. Barrett, on either steamer, and none of the officers of either knew anything to corroborate the story.

**The Acts of a Lunatic.**  
NEW YORK, July 18.—Frederick R. Couder, one of the counsel employed by the United States to argue its case before the Behring sea commission in Paris, was much surprised this morning when shown a dispatch telling how the Hawaiian sealpoacher Alexandria had fired upon and disabled the United States man-of-war Mohican on June 25. He said:  
"It seems possible that the acts of a lunatic should affect the negotiations now being carried on between the two nations of the earth. I can only say that I am sorry that a United States ship could be so easily disabled. I did hear at one time that some fellows up there had threatened to go and make trouble if they were interfered with, but I never thought that any one would be lunatic enough to carry out such a threat. Judging from this dispatch, this ship was raiding rookeries. There can be no international question arising from this as to the legality of the attack. It is much the same as if we were to go and raid our own barn. It would seem to me that Great Britain's ships would be just as anxious to seize such marauders as those of our government, as this fellow is a public foe. As far as flying the Hawaiian flag goes, Hawaii would probably disavow any interest in the ship whatever. Great Britain could not countenance such conduct, as she has her dignity to regard according to the modus vivendi. It may have the good result of hastening a decision from the commission, as it will be seen that the present state of things can't last. I do not see how any international complication can arise from the incident; it is very unfortunate it comes just at this time."

**The Report Not Credited.**  
WASHINGTON, July 18.—The navy department officials do not credit the story that the United States steamer Mohican was fired upon and disabled by a poaching steamer in Alaskan waters on the 25th of last month. Strong reasons for their incredulity is the following telegram received this morning from Captain Hooper, commanding the revenue cutter Rush:  
NANAIMO, B. C. July 17, 1893.  
To the Secretary of the Navy, Washington, D. C.: By order of Commander Ludlow the steamer Rush, seized on July 2d, at Chirukaf island, the American schooners St. Paul and Alexandria, for violation of section 1956 of the revised statutes.  
It may be noted that the events mentioned in the above dispatch were of a later date than that upon which the alleged firing took place, but no mention is made of it, although the order for the seizure was given by Captain Ludlow, and presumably his vessel, the Mohican, was in company with the Rush. Commodore Ramsey, acting secretary of the navy, believes that Captain Ludlow would certainly not have failed to mention so important an event as the disabling of his ship if it were true.

**Killed in a Prize Fight.**  
NEW YORK, July 18.—Frank Egan who has the reputation of being a tough, killed John J. MacDonald, 24 years of age, a meat carver, in a glove contest last night. Egan escaped after the fatal blow had been struck, and MacDonald died in Roosevelt hospital.

**Special Grain Report.**  
The following report is for the week ending Tuesday, July 18th, 1893, B. S. Pague, local forecast officer, weather bureau:  
WESTERN OREGON.  
The wheat crop is in good condition. Fall wheat has generally been increased in acreage; but the acreage of spring-sown wheat has been decreased owing to the late spring rains. Fall wheat has an average increase in acreage of fully 10 per cent, while the yield is expected to be 12 to 15 per cent greater than last year. Spring-sown has been decreased about 7 per cent, and the yield will be fully 5 per cent short. An interesting and valuable fact is reported by a Marion county correspondent. On land which last year was summer fallowed with potatoes the wheat, fall-sown, has a much better appearance than any other wheat, and it promises to yield 15 per cent more. Potatoes always have a sale and many would profit by planting potatoes on summer fallow and not allow the soil to remain idle and become filled with weeds. The grain crop south of the Calapooia is not so good as in the Willamette valley; while on the other hand the fruit of the latter is not so good as in the former. Spring wheat was sown unusually late and some of it is heading, and it is not over 10 or 15 inches high. The warm weather has been of great benefit to the wheat, causing it to ripen more rapidly. Harvesting of wheat is in progress in some of the southern counties and by next week it will be general. Oats are a good crop, spring-sown not so good as fall-sown. Haying continues. Hops are growing rapidly; some are beginning to blossom out. Few lice are so far observed; but are increasing in numbers. Black and raspberries are ripening rapidly. Strawberries are about over. Cherries are now in the height of their season.

**EASTERN OREGON.**  
The fore part of the week was cloudy and cool, while the latter part was clear and warm, the maximum temperatures ranging from 75 to 95 degrees.  
The rains from the 8th to the 11th were of inestimable benefit to the crops. The wheat crop is reported in excellent condition. In Wasco, Gilliam and Morrow counties, where the prospects two weeks ago were from 10 to 15 bushels per acre, have improved from 25 to 40 per cent. Sherman and Umatilla counties will have as good a crop as they had in 1891 and the total product will be more. In Union county the present conditions are excellent. Wallawa, Baker and the interior counties have greatly improved prospects. One wheat grower in Umatilla county who has 6,000 acres of growing wheat reports that he will have at least 120,000 bushels. Some fall-sown wheat is being cut this week; but not until next week will harvest become general in the Columbia river valley. Haying continues and very fair crops are secured. The fruit prospects remain as reported last week. The wool continues to be stored in the warehouses, some 10 or more million pounds now being stored awaiting a market.

**SUMMARY FOR STATE.**  
Fall wheat increased acreage, slightly decreasing yield per acre. Spring wheat decreased acreage and decreased yield. Total product will be for Western Oregon fully 8½ million bushels; for Eastern Oregon fully 6 million bushels. Oats and hay crop as good or better than ever before.

**Take Simmons' Liver Regulator** to improve the appetite, to strengthen the system, to stimulate the liver, to cleanse the skin of its yellowness, to remove boils and pimples and cause new life in the blood.

**OREGON AT THE FAIR.**  
Stands Pre-Eminently at the Head of the States of the West.  
From a syndicate letter printed in a number of county-seat papers in the middle and eastern states, the following extract is taken:  
"Before passing judgment on the individual state exhibits and buildings, one has to look at the purposes for which the displays are made. For instance, the New England states and the old and thickly settled districts have erected magnificent state buildings, which are being maintained as places of reception for their own people and their friends. These states already have as many or more people than they want, and hence do not make a display with an eye to the attraction of immigration. With the new states, and particularly those of the Pacific coast, the situation is reversed. These states invite immigration, and it is for the purpose of attracting attention to their resources, and impressing upon the mind of the homeseeker the fact that desirable lands and homes are to be had at moderate cost, that the Western states are making an inviting exhibition at the fair. As representing the states of the west at the exposition, Oregon, the land of big red apples, stand pre-eminently at the head. Although she has no state building, Oregon makes a magnificent showing of her resources in the several buildings of the fair. Her display in the horticultural building is everywhere acknowledged as being peerless. Here she shows pears weighing five pounds, apples six inches in diameter, plums larger than goose eggs, cherries 3½ inches in circumference and peaches 17½ inches. In her agricultural booth she exhibits grains and grasses that are acknowledged by mill men to be without parallel. In the four tests made at the fair, flour made from Oregon wheat was found to make whiter and finer biscuits than any other flour tried. In the mining department a miniature placer mine is kept constantly in operation, washing virgin gold from the gravel just as it is taken from Oregon's placer mining properties. In the fishery department several tons of the famous Columbia river salmon are shown together with fishing boats, fish-wheels, etc., and in the forestry department are exhibited some specimens of timber that astonish the world. A block cut from a forest of the west measures ten feet across. This is the largest block of wood at the fair and it attracts much attention."

**Has Never Been Disappointed.**  
The above words speak volumes and cannot be said of many things, but coming from one who has been a sufferer for many years, no further tribute can be added.  
"GENTLEMEN:—I have been a sufferer from headache for many years and can cheerfully recommend Krause's Headache Capsules as being the only preparation that has given almost instant relief. Have been using them for about six months and have never yet been disappointed in them."  
Yours with respect,  
WILL H. SLEEP,  
Pub. Altoona (Pa.) Mirror.

**China Refuses to Make Reparation.**  
LONDON, July 18.—A dispatch from Shanghai says the Chinese government has refused to make reparation for the killing of Wilkom, Swedish missionary, by a mob in Macheng. Foreigners in Hankow, 60 miles from Macheng and Shanghai, were summoned to attend a mass meeting for the purpose of calling on the European powers to compel China to respect her treaties, and punish the viceroys of the province and the authorities of the city in which the murder was committed. The correspondent says the situation promises trouble.

They notified her feet and pointed her head, and blistered her back till 'twas smarting and red.  
Tried bibles, elixirs, pain-killers and salves, (though grandma declared it was nothing but "charms")  
The poor woman thought she must certainly die, till "Favorite Prescription" she happened to try.  
No wonder its praises so loudly they speak: She grew better at once, and was well in a week.  
The torturing pains and distressing nervousness which accompany, at times, certain forms of female weakness, yield like magic to Dr. Pierce's Favorite Prescription. It is purely vegetable, perfectly harmless, and adapted to the delicate organization of woman. It allays and subdues the nervous symptoms and relieves the pain accompanying functional and organic troubles. Guarantee printed on bottle-wrapper, and faithfully carried out for many years.
