WEDNESDAY, - JULY 19, 1893

Railroad stocks keep on tumbling down hill. Union Pacific is reported 18 1/2, Northern Pacific 7 3/4, Central Pacific 18, Oregon Railway and Navigation 50, Missouri Pacific 25 1/2, and Short Line 11 1/2. Among the few which are still above par is the Pullman company, easily leading with 1.48, then Lackawanna 1.38 1/4, Canadian Express 1.09, and Wells Fargo 1.30. It is not to be supposed that these figures represent anything like actual values. Stocks are selling at figures which will lead many to wish a few months hence that they had not neglected a golden opportunity. Still this takes a good deal of courage. Panic has followed panic and failure has succeeded failure, until it looks as if there was an end to all things stable. But better times are dawning. The reports from the crop-growing districts could not possibly be better. There is no doubt that we will harvest an immense corn crop, and the prospect for wheat is unequalled. There is little danger that wool will be placed on the free list, with the author of the "Mills" bill, who is interested in sheep, against it. Cotton has shown a disposition to recover, and the special session of congress may be relied upon to steady silver. We may soon expect a period of small fluctuations around fixed values, and it is needless to say, they will be at much higher points than now quoted.

It is in times like these that the outlay of a few thousand dollars establishes the foundation for monumental fortunes. One requires nerve, of course, to buy properties when everybody looks for blue ruin and chaotic conditions, but on the principle that majorities are always wrong, those who have the courage of their convictions, and the wherewithal to back them, cannot do better than place their money in some of the bargains that are now generally available all over the country.

Dr. Walter Kempster, who has been in Europe making a study of the cholera, says: "The preventive of cholera is not a theory, but an absolute scientific certainty." Now if the doctor will cut off the last two or three figures from the daily reported death rate in the old countries he will be of some benefit. Else we will have to think he has found the Irishman's cure—death.

While the price of wheat is so low, would it not be well for the farmers to think about mixed farming. Supposing the grasshoppers came along, which they are likely to do at any time, and destroy the grain, where would the farmers be—in the hole. In any country mixed farming is the thing.—Genesee News.

The Victoria disaster and the more recent engagement between the French and the Siamese, lead to a suspicion that the country without a navy is safer than the country which has one.

The Iowa editor who was unable to find more than two places at the world's fair where liquor could be had, doubtless tarried too long at the first bar he came to.

Oscar Neebe, pardoned by Gov. Altgeld after eight years' imprisonment, is again booked for a life sentence. That is, he is engaged to be married.

A comet was formerly considered the forerunner of disaster. The one in Casiopea may mean a new novel by Backyard Stripling.

A \$7,000,000 fire is reported from London, England.

A Million Friends.

A friend in need is a friend indeed and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.—If you have never used this Great Cough Medicine, one trial will convince you that it has wonderful curative powers in all diseases of Throat, Chest and Lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at Snipes & Kinsersly's drug store. Large bottles 50c and \$1.00.

Wanted.
A girl to do general housework. Good wages. Apply at this office.

RN OUTING.

Continued from Third page

further trace of him, but had a very trying task of going up a precipitous portion of the journey for going out of our way. For the next three hours the trail was not disputed but we soon found that the snow was much lower than usual and we were compelled to tie up our ponies and proceed on foot with pikes and lurch, coats and vests being left with our ponies. We soon found a place to eat our lunch and black our faces, then we proceeded with slow step, but ere we had gone more than half the distance, one of our party said he knew when he had enough, and, having some heart trouble declined proceeding further. He rested for some time and then went back to the horses and built a fire. The rest of us went on enjoying much the evidences of volcanic action depicted in the two red mountains, the lava beds, as well as the immense glaciers with their terminal, medial and lateral moraines. We used these moraines of rock much for ascent, because when we sank to the knees or deeper in the snow, it was too exhausting. At a point about two thirds of the way up, Mr. Burnham found a coffee can containing the names of a party from Arlington. Soon afterward Prof. Brown was on the point of giving up the work, but a rest of a few minutes, an egg sandwich Mr. Hoag had, and a draught of the chalybeate water found all the way up the mountain, so revived him that he went on.

Mr. Hoag, Mr. Burnham, and Prof. Brown reached the summit at about 6 o'clock; found the records sent by the Alpine club of Portland, except the copper box. The view from the top of Mt. Adams can never be effaced. Standing with your face toward Mt. Hood, you may see the three sisters, Mt. Tacoma, the two red mountains before-mentioned, two beautiful little lakes near these mountains, the large prairie in the distance, Trout lake, etc. Mr. Burnham furnished a rubber tobacco pouch in which our records, consisting of names, date, ages, two bits each, etc., securely wrapped in six plies of canvas made from our lunch bag, were placed and securely fixed under a pile of stones. We came down to the horses in about one third of the time it took to go up, reaching the ponies about 8 o'clock p. m., and arriving at Mr. Hoag's at 12 o'clock p. m. After eating lunch Mrs. Hoag prepared, of bread and milk and wild strawberries, we retired, very, very weary. The journey home was a quiet one, and but for Captain Haines' *lappas pedis* in the ice cave and the rays of Sol, we all came off without being disfigured.

The Dalles Evening Chronicle is recognized as essentially the home paper for the Dalles City folks. It is not a half penny paper, but a paper of high reputation. Some 2,000 of our best citizens watch the columns of this paper daily for the spiciest local news. It is successful in pleasing the field, and hence grows in popularity and importance. Take it while you who don't, try some of its premium offers.

CHAS. ADAMS, Shoemaker

No Fit, No Pay.

Union St., opp. European House.

It's a sign that you need help, when pimples, blotches, and eruptions begin to appear. Your blood needs looking after. You'll have graver matters than pimples to deal with, if you neglect it. Dr. Pierce's Golden Medical Discovery prevents and cures all diseases and disorders caused by impure blood. It invigorates the liver, purifies the blood, and promotes all the bodily functions. For all forms of scrofulous, skin and scalp disease, and even Consumption (which is really lung-scrofula) in all its earlier stages, it is a certain remedy. It's the only one that's guaranteed, in every case, to benefit or cure, or the money is refunded. It's a matter of confidence in one's medicine.

It is the *cheapest* blood-purifier sold, through druggists, because you only pay for the good you get.

Can you ask more?
The "Discovery" acts equally well all the year round.

J. F. FORD, Evangelist,

Of Des Moines, Iowa, writes under date of March 23, 1893:

S. B. MED. MFG. CO.,
Dufur, Oregon.

Gentlemen:—
On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, Mr. & Mrs. J. F. Ford.

If you wish to feel fresh and cheerful, and ready for the spring work, cleanse your system with the Hemicure and Liver Cure, by taking two or three doses each week.

Sold under a positive guarantee.
50 cents per bottle by all druggists.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Falls and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unsurpassed as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its rushing streams and water falls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
