SHORT ON WHEAT.

Enough is now known of the present wheat crop to make safe and certain the statement that the yield this year will be exceptionally light in the United States. On the Pacific coast the prospects indicate an exceptionally heavy crop, but in the states of Ohio, Indiana, Illinois, Kentucky, Tennessee, Missouri, Texas, Kansas, Nebraska, Iowa, Michigan, Wisconsin, Minnesota, North Dakota and South Dakota the acreage is light and the yield will be far below average. The significance of this fact to the wheat growers of the Pacific coast becomes more apparent when it is stated that last year these states produced 390,000,000 bushels of the total crop of 535,949,000 bushels. These conditions were first brought out by the last government crop report. Now they have been made more apparent by detailed reports gathered by the New York World from 700 correspondents reporting by telegraph from all parts of the United States and Canada. Noting the facts, the Spokane Review pithily says:

And yet in the face of these reliable reports, the wheat market remains depressed, and the prices quoted are the lowest paid within a century. The causes must be sought in the lack of sufficient money to handle the crop, and in the falling off of the European demand, due to the growing paralysis of industry; and these in turn are the outgrowth of the demonization of silver and the consequent depreciation and scarcity of gold. The repeal of the Sherman act would do more to cure these evils than a spoonful of water to cure a malignant case of smallpox.

THROUGH THICK AND THIN.

The following from the Ochoco Review, is a very valuable object lesson: "I don't expect to make a dollar out of the sheep business in the next three years, but I intend to go right on increasing my flocks until prices come up again, then I will sell out at a profit on my three years' work," said one of our most successful young sheep raisers the other day, when asked if he was discouraged on account of the low price of wool. Such a man as this one who is not discouraged by present depressions in business, is sure to succeed, and the country would be better off had it more of his kind. If half the young men of Crook county had the courage to devote themselves to business as he has, and as he proposes to in the future, even though the present outlook is not flattering, the present cry of "hard times" would not be heard. But, unfortunately, too many of them lack stability—they have not the courage to go into business of any kind, give it their undivided attention, and stick to it through prosperity and adversity until it eventually grows into a valuable investment."

An eastern editor who lost a subscriber says: The biggest fool on earth is the idiotic imbecile who will withdraw his support from a paper because he sees something in it that doesn't suit his make-up. This same bigoted cuss should remember that what displeases him will please some one else, and in the very next issue he sees something that will please him and displease the other fellow. The withdrawal of the support of one imbecile won't stop this band wagon. You may depend on that.

The Oregon City Herald is the latest candidate for popular favor. It announces that it is dead set against the "plutes" from the start and won't quit tooting its horn until the rich pay their just taxes, and the poor have a share of the money manufactured by Uncle Samuel.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called in two doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhoea Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhoea or colic medicine. J. E. Hare, Trenton, Tex. 25 and 50 cent bottles for sale by Blakeley & Houghton, druggists.

Captain Sweeney, U. S. A., San Diego, Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good." Price 50 cts. Sold by Snipes & Kinerly.

Vessels Preparing for Action.

LONDON, July 23. The Bangkok correspondent of the Times says Saturday the French gunboats were fixing their chain armor amidships. The Siamese vessels were also preparing for action. All have their steam up. The French legation professes to believe the gunboats cannot cross the bar until high tide Wednesday, which would leave time to complete an amicable settlement. The territory Siam offers to sacrifice covers the extreme point of the recently-attempted French aggression. The cession involves the evacuation of the Siamese ports of Poowadone, Altopen and Sumang.

A RUSSIAN NAVAL STATION.

I am credibly informed that Russia recently sounded Siam as to whether the latter was disposed to concede the island of Saland or Junkerlon on the eighth degree of north latitude, and west of the Malay peninsula for a Russian naval station. The naval authorities consider Salang as of great strategic importance.

An Aggressive Fight.

LONDON, July 23.—The correspondent of the Daily Chronicle says: "The Siamese warships are anchored one mile from the French and crowded with men ready for action. Their intention is, in case the French commence hostilities, to steam down and ram the French gunboats, attempt to board them in force and attack the crews with fixed bayonets. The German gunboat Wolf has arrived."

Pennoyer's Shot.

The New York Recorder printed fourth of July patriotic sentiments from the various governors in the Union. Pennoyer gave them this shot:

SALEM, Or., July 3d.—The grave fact that the newspaper press of the country has repeatedly stated, without official denial or public protest, that the president of the United States is using the federal patronage to influence congressional action favorable to his wishes on financial questions, is most unmistakable evidence of national decadence.

Deserving Praise.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, as we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. Snipes & Kinerly's druggists.

A new man can be made, out of one that's "used-up," bilious and dyspeptic. It's done by Dr. Pierce's Golden Medical Discovery. It starts the torpid liver into healthful action, purifies and enriches the blood, cleanses, repairs, and strengthens the system, and restores health and vigor. As an appetizing, restorative tonic, it sets at work all the processes of digestion and nutrition, and builds up flesh and strength. It's the only Blood and Liver Remedy that's guaranteed, in every case, to benefit or cure. If it doesn't do all that's claimed for it, the money is promptly refunded. But it keeps its promises—that's the reason it can be sold in this way.

"Discovery" strengthens Weak Lungs, and cures Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, and kindred affections. Don't be fooled into taking something else, said to be "just as good," that the dealer may make a larger profit. There's nothing at all like the "Discovery."
