**WHAT THE BILLION MEANS.**

A billion dollars is a sum so enormous that it is almost impossible for the mind to comprehend its vastness. It would give one thousand men fortunes of a million each. It would provide twenty thousand men with a competence of fifty thousand dollars. It is nearly twice as much as the entire interest-bearing debt of the United States. It would pay all the expenses of the national government for two years and a half. If divided equally it would give about eighty dollars to every man who voted for president and vice-president in 1892. It is three-fourths as much as all the currency in the United States—gold, silver and paper.

Enormous as this sum is, it does not equal the loss to the American people that has been caused by democratic rule. The country would have been more than a billion dollars richer today if Cleveland had been defeated and Harrison elected last November. The triumph of the party of free trade and dishonest money has reversed the current of business and industry. The shrinkage in values, which began on March 4th, and has been intensified by democratic imbecility at Washington, has prevailed throughout the whole country, and has lost the people, as the press has shown by incontrovertible figures, over \$1,000,000,000.

It is at once foolish and cowardly for democrats to try to evade responsibility for this unprecedented depreciation of the people's property. The facts are self-evident. The nation was splendidly prosperous under republican government. It has gone from prosperity to panic in four months under the government of the party that is pledged to prostrate American securities and debase American currency. The free trade democracy and its president have robbed the people of more than a billion dollars since democracy returned to power at Washington.—New York Press.

An exchange says that a carefully prepared table of the world's annual output of gold and silver from 1851 to 1892 shows that the quantity of the precious metals has continually fluctuated. Also that during the period named the world has produced more than 40 per cent. more gold than silver, or to the value of \$1,371,000,000 in excess of the value of silver. From 1851 to 1872 the world's output of gold exceeded that of silver 151 per cent. And, remember, this did not affect the coinage ratio of the two metals. The cry that the product of silver has been so great over that of gold is a very poor plea for the demonetization of the white metal. Since the demonetization act of 1873 the world's output of silver has only exceeded that of gold by about 8 per cent.

An act of the last legislature compels all railroad companies in the state to fence their tracks within three years. The Southern Pacific company accordingly placed a fencing crew on the line of its road and fenced the track from Aurora to Salem. From there the builders will continue on south. The fence consists of posts sixteen feet apart with false posts in the center of the panel. Three strands of barbed wire stretched from post to post with a board on top. The crew numbers twenty men, and erect a mile of fencing daily.

Those New Englanders who were loudest in their denunciations of an open fair at Chicago are paying little attention to the welfare of souls in their own communities. A gentleman just arrived from the east says that more than half the churches are closed during the warm weather, the devout shepherds, with plug hats and numerous trunks, having gone to Newport or Saratoga. The devil is at his old post. He never takes a vacation.

A zealous Philadelphia Sabbatarian declares that Napoleon's defeat at Waterloo was because of the fact that he fought the battle on Sunday. Why was Wellington, who fought even harder than Napoleon on that day, permitted to win a victory?

 See Harris' corner window, oh, my!

Hon. John M. Thurston, general attorney for the Union Pacific, while in Portland, was seen by an Oregonian reporter. He said concerning the Union Pacific: "There are three propositions as to what should be done with the road, and it is impossible at this time to predict which one of them will be adopted. The first is to foreclose the first mortgage and wipe out the government debt, which would result in putting the road on a fair level of competition with its rivals. The second is the plan advanced by the populists—that the government take the subsidized Pacific railways, and either purchase or build a road from the Missouri river to the Atlantic coast, and with the unbroken transcontinental line thus formed cut down rates until it compels its competitors to sell their property to it, thus getting every important railway in the country under government control. Plan No. 3 is to get an extension of time in paying the road's debt to the government—a portion of it is due in 1896—and to issue new securities bearing 2 1/2 to 3 1/2 per cent interest. This appears to be the most feasible way out of the difficulty. Certain it is that the Union Pacific cannot compete with its rivals while it is compelled to pay into the sinking fund the sum imposed upon it by the Thurman act. Its debts are really paid by its patrons, and anything that may be done to lighten its burdens will correspondingly relieve the people."

**Children of Chang and Eng.**  
 RALEIGH, N. C., Aug. 5.—The once famous Siamese twins, Chang and Eng, who were joined at the sides by a large piece of flesh, have children, now grown men, residing in Surrey county, N. C. The twins after retiring from the show business, married and settled in Surrey county. Their farms adjoined and they would pass one night at the house of Eng and the next with the family of Chang. The young men are perfectly formed, nearly white and intelligent. One was a delegate to the republican state convention in this city last September.

**What Your Great Grandmother Did.**

She hatched the flax and carded the wool, and wove the linen, and spun the tow, and made the clothes for her husband and ten children. She made butter and cheese, she dipped tallow candles to light the house at night, and she cooked all the food for her household by an open fire-place and a brick oven. Yes; and when she was forty years of age, she was already an old lady whose best days were over. Her shoulders were bent and her joints enlarged by hard labor, and she wore spectacles and a cap. Her great granddaughter, with all the modern conveniences for comfort, refinement and luxury, may be as charming and attractive at forty-five as at twenty. Especially is this true if she preserves her health and beauty by the use of Dr. Pierce's Favorite Prescription, which wards off all female ailments and irregularities, cures them if they already exist, keeps the life current healthful and vigorous, and enables the woman of middle age to retain the freshness of girlhood upon brow and cheek, the light of youth in her eyes, and its elasticity in her step. Sold by all druggists.

**A Great Convenience.**

Worlds fair visitors travelling via the Northern Pacific Railroad, and Wisconsin Central line, are landed at the Paid Central station in Chicago.

This magnificent fire-proof building, located in the heart of the city has been fitted up as a hotel, run on the European plan, with about 200 rooms handsomely furnished and each room is supplied with hot and cold water, electric lights, etc.

The charges for accommodations are reasonable and parties can secure rooms in advance by calling upon agents of the Northern Pacific railroad.

By taking the Northern Pacific through car line to Chicago, visitors will avoid the discomfort of all transfer in that city, and can also travel between the Grand Central station and world's fair grounds by trains which run direct between the two points. 2nd1wlm-7-12

The success of Mrs. Annie M. Beann, of McKeesport, Pennsylvania, in the treatment of diarrhea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhea very badly. I got some of Chamberlain's Colic, Cholera, and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several cases where it was equally successful. I think it cannot be excelled and cheerfully recommend it." 25 and 50 cent bottles for sale by Blakeley & Houghton, Druggists. 1m.

**Hits the nail on the head**—one of Dr. Pierce's Pleasant Pellets. They do the right thing in the right way. They cleanse and regulate the liver, stomach and bowels—thoroughly and effectively, but mildly and gently. They persuade, rather than force. One tiny, sugar-coated Pellet's a gentle laxative; three to four act as a cathartic. They're the smallest, but the best. There's less to take, but there's more good in it, when it's taken. They're the original Little Liver Pill, and they've never been equaled. Sick Headache, Bilious Headache, Constipation, Indigestion, Bilious Attacks, and all derangements of the liver, stomach and bowels, are prevented, relieved, and cured. They're the *cheapest* pill you can buy, because they're *guaranteed* to give satisfaction, or your money is returned.

 S. B. MED. MFG. CO.,  
 Dufur, Oregon.

Gentlemen:  
 On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, Mr. & Mrs. J. F. Ford.

If you wish to feel fresh and cheerful, and ready for the spring work, cleanse your system with the Headache and Liver Cure, by taking two or three doses each week.

**WINANS**  
 THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing factories will cluster, surrounded by soil and climate that cannot be equaled anywhere for fruit and agriculture, and with transportation already established you will find this the place to make a perfect home or a paying investment.

See me on the ground, address me at Hood River, Wasco County, Oregon.
