AUGUST ANGLINGS.
Small Fry Hooked by Persistent Chronicle Reporters.

Old Mother Hubbard went to the cupboard. To get her poor loafers a bunch. When she got there she was wondering her hair. And left in the better a bunch.

It is proposed to petition the state of California for aid for the Midwinter exposition.

The 10th of the present month closes the fishing season until the 10th of September again.

Ten Chinese were ordered deported from the United States at Portland yesterday. They were all recent arrivals.

Mr. Max Blank has finished firing his large kiln of brick, and now has about 500,000 of fine brick as ever was used in any country.

The largest salmon run of the season at Astoria was the evening of the 7th. It resembled an old-time catch in its venitude.

The Astorian says that there is a total tonnage en route to and listed for that port of 45,304 tons; in part 11,049, making a total of 56,353 tons.

In the mention of Mr. Harry Clough and stepfather, Mr. Allen, as going to Portland, the report would have read Bennett, instead of Allen.

A practice ball game will be played at the fair grounds this evening. All ball players are requested to be present and give The Dalles nine a game.

Mr. E. E. Snipes made satisfactory arrangements yesterday with his depositors whereby they are secured against any loss in his Ellensburg bank.

The report made by the state board of agriculture of Illinois says that the wheat crop in that state is one of the smallest ever known, and that the grain is very poor in quality, and not salable for flour.

The Earl Fruit Company wired S. A. Clarke of Salem that a fruit car of peach plums from The Dalles sold in Chicago at \$1.30 a crate, which nets the growers good prices. The next car goes to New York because this carried so well.

Regular classes will open at Mt. Angel Wednesday, September 6th, and it is hoped that the pupils will remember how important it is to enter at the appointed time so as to facilitate the proper and expeditious arrangement of the different grades and classes.

J. E. McCormack brought in a cave crystal, which he found in a small cave

on Pleasant Ridge, heretofore undiscovered. It is about the dimensions of a well, 20 feet deep, in an oblique direction with an opening that will just admit of the passing of a man.

Mr. H. Riddell received his commission this morning as first lieutenant and adjutant of the Third Regiment for the company at this point. A regimental quartermaster's office has been fitted up in the rear of Maier & Benton's grocery store, under the charge of Regimental Quartermaster J. M. Patterson.

Some individual, influenced by malicious mischief, tore in two a number of telegrams left at the doors of stores, between the hours of 12 and 5 o'clock this morning. As no boy is apt to be up at this time of night, it was done either by an inebriated individual or one who don't like the Telegram, and seeks in this petty way to injure it. A man of mature years and pretending to manly dignity cannot be imagined who would do such a thing for fun.

At the first practice made by the Jackson Engine Co. hose team last evening, the remarkably good time was made of 32½ seconds, only a half second less than the time made at the 4th of July races, 1892. There is good reason to hope they will lessen this time considerably, for the company numbers among its members some of the fastest runners of Eastern Oregon, and with the encouragement of the fair sex, which assumes a very practical form in this burg, there is a brilliant possibility of winning first honors and the \$150 prize.

Kingsley News.
Some of the Datur sports were out on a hunting trip in the neighborhood of Kingsley yesterday.

The fall grain is well filled. The yield, both in quantity and quality, will be above the average.

Our genial postmaster, Mr. Kelley, is in Portland this last two or three weeks. We miss his smiling countenance.

Harvesting has commenced in this neighborhood. There are several reapers running. The headers will start next Monday.

Kingsley is feeling the effects of the dull times. The hotel and stables at this place failed to open their doors last week for want of patronage. So you see Kingsley is in the swim.

The sudden change in the weather on Saturday from ninety degrees to sixty is very beneficial to the spring grain, which also promises well. The straw is short but very plump leads.

UNO.
KINGSLEY, AUG. 7, 1893.

Mosier News.
Peach plums are being shipped from here with good results. It was a little cool yesterday and threatened to rain but this was about all. The corn growers would like to have had a good shower. We may be blessed with it yet.

I wish to announce that there will be a campmeeting at this place, commencing Thursday evening, Aug. 10th. It will be held on Mr. Lamb's place near the Mosier creek bridge, a little over half a mile from the station. All are cordially invited to attend.

IX.
Ask your dealer for Mexican Silver Stove Polish.

GENTLEMEN.—I am subject to periodical attacks of sick headache of the worst possible type, and commenced taking Krause's Headache Capsules last summer. They cure it in every instance, and since that time I am enjoying splendid health and have gained ten pounds in weight. Yours very truly,
F. M. JANSSEN,
COLUMBIA, IOWA.

Rogers Farm Sold.

The Alex. Rogers fruit ranch near this city on Mill creek, was sold today at administrator's sale and was bid in by Judge A. S. Bennett for \$6,000. This is very valuable property, though it has deteriorated somewhat in the last two years for lack of proper attention. There is an orchard of 6,000 trees upon it in full bearing, commodious house, barn, fruit dryer, and the whole place of 175 acres is under fence. The ground is finely adapted for irrigation, and at one time plans were made and machinery furnished for this end. But, after the decease of Mr. Alex. Rogers, the property has declined rapidly, the irrigation plans with the rest.

PERSONAL MENTION.

Mr. H. Glenn left for Portland this morning by boat to be absent a few days.

Mr. D. M. French writes that his son Walter is better and in a fair way for recovery.

Mrs. Hathaway departed for Portland this morning to visit friends and relatives in that city.

The Misses Cushing left for a visit to the Cascade Locks and will be the guests of Mrs. G. P. Morgan.

Mr. Wilber G. Kerns of East Portland arrived in the city last evening and will remain several days among friends.

Mr. Prinz and family left for Shepherd's Landing, near the Cascades, for a short stay with Mr. and Mrs. Herbring.

A marriage license was taken out at the clerk's office today for the union of Levi Chrisman and Miss Edna C. Martin.

Mr. Grant Mays, of Antelope, departed this morning for Berkeley, Cal., where he will attend the university during the coming year.

Mr. Charles Schutz of Goldendale was in the city last evening, and went down on the Regulator this morning. From appearances he is out on a surveying trip.

W. W. Wilson, who started for Hot Springs, Ark., Monday, upon reaching Huntington, concluded he would come back to the Dalles, concluding that it was warm enough here for him.

Clark G. Crandall, of Edgerton, Wis., who has been visiting in Portland, arrived on the Regulator last evening, and will visit the Crandalls of The Dalles. He is a cousin of J. C. Crandall's father.

Mr. A. C. Phelps of Collins Landing was in the city yesterday. He informs us that the river has so far receded as to afford the use of the hot springs and baths at that place and that the camping is excellent for all those who desire an enjoyable outing.

Misses Sula and Louise Rich and Clara Story departed this morning for the seaside. In Portland they will join Misses Ettie and Auburn Story and Nona Rich, from whence they will go to Long Beach and will be the guests of Mrs. J. W. and S. French.

J. M. Huntington recently went to San Francisco with his little daughter for medical treatment of the latter, her intestines having become knotted and her health thereby rendered precarious. The medical term for the trouble is typhilitis. The operation was successfully performed, and in twenty-four hours she was well on the road to recovery.

HOTEL ARRIVALS.
Columbia—Aron Frazier, Charles Alberson, Dufur; Albert Erickson, W. H. Meers, Goldendale; J. W. Cartman, Hood River; I. Daniel, Nelson; Charles Hook, Lyle; C. Becker, Fred Butterby, C. H. Morrow, Missouri; H. Norris, G. Hamilton, Portland.

Skibbe hotel—W. T. Lockwood, 5-Mile; C. Croval, San Francisco; Bud Lohr, Bake Oven; Van Woodruff, Tygh Valley; John A. James, Dallas, Tex.; Ferdinand Mathews, Benjamin Whillson, 15-Mile; Hedry Olgur, Portland.

Use Mexican Silver Stove Polish.

MANY RESPONSES.

Volunteer Firemen of the State Interested in Our Tournament.

The surprising manner in which the volunteer fire companies of Oregon are responding to the invitations sent from The Dalles, is most encouraging, and assures us one of the most pleasant and profitable tournaments ever held in the state. Chief Engineer Fish has a pocket-full of friendly letters already, containing assurances of co-operation, making inquiries as to purses and features of the proposed program. These were sent out last night and the result of such definite information will be to engage for us hundreds of guests, and the most exciting of sports. A few of the replies are as follows: Albina promises twenty or twenty-five men. Oregon City has a ball team among her firemen, which she enthusiastically says is able to play any nine in the state, and if no purse is offered want to play for gate receipts. She says at least fifty men will be with us. Portland says several hundred people will leave on September 3d for The Dalles and inquires with much solicitude about our hotel accommodations. Union inquires for more particulars and claims a lively interest in the matter. The Veteran Volunteers of Portland accept the invitation and will participate in the tournament. As regards accommodations The Dalles is amply able to care for all. Six or seven hundred people can easily be entertained at the various hotels, to say nothing of all other means usually employed in entertaining guests in like cases. THE CHRONICLE is glad to note the lively interest manifested in this matter so far, and believes that one of the most enjoyable occasions ever held here is in store on September 4th.

FOUND COPPER.

Rich Ore Discovered by Messrs. Deerhake and Drew Near Badger Lake.

Henry Deerhake returned yesterday from the mountains, where he has been on a prospecting trip, after silver. He missed the white metal, but made a find of perhaps more worth, a mineral of staple value in manufacture and commerce, particularly since the age of electricity. Mr. Deerhake has discovered a copper mine, and a rich one, too. The locality is in the vicinity of Badger lake, and a sample shows that it will yield \$400 per ton, there being 200 pounds of copper in 2,000 pounds of the ore, which is worth 20 cents per pound. The ore is what is known as the ruby variety, and it is believed there is an immense quantity of it. Badger lake is northeast of Mt. Hood, about 30 miles from The Dalles in a southwesterly direction.

Mr. Drew, who has also returned, reports a find much similar and fully as good as Mr. Deerhake's, being in the same vicinity. Copper has been found before in the Clackamas country, but it is believed the last discoveries are more profitable in all ways.

Not Alma Miller.

The mystery of the two children found at Eugene, one of whom was believed to be Alma Gladys Miller, has been cleared up. They belong to a man named Compton, living near Florence, Lane county. The two, Francis, aged 9, and Newton, aged 7, were sent from Hailey, Idaho, under charge of a young man, who was to go only part of the distance. He was provided with a letter for Mr. Compton and money to buy their tickets to their destination. But he kept both money and letter and the children were sent through from Umatilla to Eugene through the kindness of citizens, the little ones telling where they started to go. Mr. Compton was in complete ignorance of the whole transaction and discovered their present whereabouts only through accident. The above facts are reported by the Eugene Guard, which goes on to state: "Regarding the resemblance of Frances to Alma Gladys Miller, the lost girl, it is truly wonderful. The marks given in the description, as well as the general details, were found to be so nearly alike that one who knew them would need to see the children to tell the difference. Such striking resemblance is seldom seen, and the officials here are to be commended on their caution and also for the kindly care given the children until their father's arrival."

Boy or Girl.
On Sunday morning one of the prominent bootblack stands in the city was presided over by a slender youth of perhaps sixteen years of age whose every appearance indicated the feminine sex and the suspicion aroused that he was a girl in male attire has not yet been allayed. All day long the stand of the boy-girl was patronized by the young men with their Sunday clothes on and there was no end of speculation as to the identity of the new bootblack. And it is still a mystery as far as the reporter knows. The "shiner" was dressed neatly and his brown tresses hung down to his shoulders; hands small and feet dressed in tan shoes.—Baker Democrat.

Notice.
All persons having accounts and holding certificates of deposit with the First National bank of this city, will please call at the bank on matters pertaining to the foregoing. Also persons who are indebted to the bank on over draft notes which are past due or about to become due, will please call.
