FRIDAY, - - - AUG. 11, 1893

In a late issue of the North American Review Representative Thos. J. Geary defends the law bearing the name. He contends that there is nothing in the law in violation of any treaty, and that all existing troubles have been brought about by the resistance of the Chinese themselves and the Six Companies. He gives figures to show that there is nothing in the Chinese trade, or rather the loss of it, to alarm any American. He says: "We would be better off without any part of it. For the year 1892 our imports from China amounted to \$20,488,291; our exports amounted to \$5,663,000, or a balance in favor of the Chinese of nearly \$15,000,000 for the last year. In the last twenty-five years we have shipped to China more than \$184,000,000 in coin. The loss of this trade would not be injurious, and there is no possibility of China ceasing to trade with us, so long as we are always a customer for more than \$14,000,000 of her products over and above what she takes from us." Mr. Geary also shows that Americans have no such rights in China as are accorded the Chinese here, and concludes: "Nine-tenths of all the Chinese in the United States are found in the Pacific states, and they have had opportunities for studying the effect of their presence not permitted to the other states. American interests in the far west, the maintenance of American civilization, and the just protection of American labor from Chinese competition are of more consequence than the profits of the Chinese trade or the maintenance of missionary stations in China. The law should be enforced."

A correspondent writes to the Portland Telegram, praying that the agitation against the idle men there using the city plazas be discontinued. Nurses with babies object to their uncouth presence and the gallant representatives of the law run them in for hobos. The correspondent says truly: "It is far better for them to remain on the plaza, where water can be had for drinking purposes, than to be run in and fed at the city's expense for lounging around some saloon. To call these men hobos and bums who are found on the plaza block is unfair. Where in all this great city of churches is there one whose doors swing open wide and bid these men a hearty welcome? I know of only one, and that stands at the corner of Third and Stark. Credit to whom credit is due. Will the ladies who begrudge these men their summer resort please bear in mind that winter is approaching with 8,000 unemployed in our fair city? The plaza or the jail. This is the situation. I prefer to see the men about the plaza, and enter my protest against any more of this hobo about nurses and babies needing it for their use."

To use a vulgar, but significant expression the members of congress are "chewing the rag" over a proposition they can never hope to agree upon. What is sauce for Teller, Wolcott and Jones, et al., is not sauce for the great majority of congressmen. They are a distinct species on the silver question. Postpone the discussion of the question and do something to relieve this stringency that is breaking the country's back.

Review: "We must redeem our pledges," said Crisp before the democratic caucus. If you don't, Mr. Crisp, you will be damned, and if you do you will be doubly damned. It looks like a case of taking to the woods.

President Cleveland: Sorry to leave you, gents, but I have a private engagement which takes precedence over this minor matter of the country's finances. Will tell you later on whether its champagne or beer.

The times are too hard to indulge in strikes, and there are none nowadays. Wages are good enough for awhile and wage-earners are sharp enough to see it.

Whatever else may be said about those counterfeiters on a lonely isle in the Columbia they have done their best to increase the circulating medium.

**IDLE MEN IN NEW YORK.**  
Arranging for a Monster Parade for Next Week.

New York, Aug. 8.—Arrangements are being made for a parade of the unemployed, probably to take place next week, and it will form a melancholy sequel to the magnificent displays illustrating the progress and wealth which have flitted along the streets of the metropolis on the recent occasions of national remembrance and as a melancholy prelude to labor's yearly celebration, September 4th. The secretary of the American Federation of Labor estimates there are 100,000 men out of work in this city. The promoters of the parade argue for a peaceable array of the supporters of families who humbly ask their brother man to give them leave to toil, but for whom there is no opportunity. It will be worth pages of statistics in bringing home to New Yorkers the terrible conditions existing. There are 7,000 cloakmakers out of work. Of 9,000 bakers, 4,000 are idle, which shows a greatly reduced consumption. Of 25,000 cigarmakers, 10,000 are out of work on account of the greatly decreased demand. It is estimated 50 per cent of the Central Labor Federation, composed of waiters, piano-makers, clothing-workers, etc., lack work.

**Negro Suffrage.**  
CHICAGO, Aug. 9.—In the suffrage congress today Fred Douglass was greatly wrought up by Stephen B. Weeks, professor of Trinity college, of North Carolina, who read a paper on negro suffrage. The professor said: "Negro suffrage is a failure; it must remain a failure so long as it is not an ally to the white vote. The southern people will not submit to domination. The white man must rule. No man who has not lived in negro-land knows what negro domination is. It means destruction of property, ruin and bankruptcy."

When the professor finished, Douglass made an impassioned reply. He said: "You are not afraid of negro domination. The negro never can rule this country. He would be outvoted by 60,000,000 of whites. There is no opposition to the negro in the south until he aspires to rise. If he aspires to become a lawyer or doctor he at once becomes an upstart."

The session discussed papers on government of cities, female suffrage and law reform.

**GENTLEMEN.**—I am subject to periodical attacks of sick headache of the worst possible type, and commenced taking Krause's Headache capsules last summer. They cure it in every instance, and since that time I am enjoying splendid health and have gained ten pounds in weight. Yours very truly,  
F. M. DANIELS,  
Columbia, Mo.

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by Blakeley & Houghton, Druggists, 1m.

**The explosion of a bomb** is not more sudden or unlooked for than the attack of some malignant disease which would not occur were the blood in order. To impure blood is due a great variety of ills that make life a burden.

All the year round, you may rely upon Dr. Pierce's Golden Medical Discovery to purify the blood and invigorate the system. It's not like the sarsaparillas, that are said to be good for the blood in March, April and May. The "Discovery" works equally well at all times, and in all cases of blood-taints, or humors, no matter what their name or nature. It's the *cheapest* blood-purifier, sold through druggists, because you only pay for the good you get. Your money is returned if it doesn't benefit or cure you. Can you ask more?

"Is life worth living?" "That depends on the liver." Dr. Pierce's Pills are the best Liver Pills.

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in position, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon. Being the nearest town to Mt. Hood. It is unsurpassed as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its rushing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be exceeded anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
