A DEMOCRATIC PANIC.

The committee on national affairs of the republican club of the city of New York has issued an address in which the present disturbed condition of the country is discussed at considerable length, and the causes leading thereto fully set forth. Attention is called to the fact that in 1892, under the last year of President Harrison's administration, the balance of trade was in favor of the United States to the amount of \$202,875,686; every laboring man was employed; the farmer had a ready market for his products; the production of pig iron increased over 40 per cent, and savings bank deposits increased over 36 per cent. With the advent of the democratic administration this condition of affairs was reversed, and the feeling of distrust has become general. It is not believed that the silver purchase act was altogether responsible for this state of affairs, although it unquestionably contributes to the existing trouble. It would not cause such a general contraction in business enterprises, restricting the output of mills and factories, reducing the wages of workmen or throwing them out of employment entirely, and causing commercial houses to countermand or largely reduce their orders for goods. The real source of this distrust is to be found in the declaration of the democratic platform that the republican policy of protection to American industry is to be abrogated, that it is "unconstitutional," and that the gates are to be thrown wide open to foreign wares and products. The democratic programme has alarmed the people, and until it is manifested that revolutionary measures are not to be carried out there will be no restoration of confidence. The Sherman law is brought forward as the convenient pretext for the alarm occasioned by democratic recendency, and is made to bear a greater burden of responsibility than it is entitled to. The people were not in an unsettled state of mind so long as the republican party was at the helm, but when the control of affairs was passed over to the democracy the evils which beset us were begun, and they have continued to grow apace.

There is something ludicrous in the fact that 65,000,000 people, who believe they govern themselves, place themselves at the mercy of a few hundred men called congress. These "representatives" of the people are now trittering away their time at the seaside waiting for two weeks to expire. They have been delegated with power to act for their varied constituencies, but it may be seriously doubted whether a single one reflects the feelings or will act upon the wishes of those who elected them. The eyes of the nation are turned upon them, yet they seem oblivious of such attention and equally unmindful of the demand for a speedy and harmonious plan of action that will put money into circulation again. We doubt not that if some of the excellent measures already proposed were submitted to the people by a direct vote, the existing troubles would have been safely passed ere this. The aggregated intelligence of the masses is superior to that of any one individual. The United States has tried to frame laws to suit majorities, but it has failed in countless instances. Individuals can be bought, and legislation prostituted to mercenary ends.

In these times of scarcity of money we hear a great deal about men being out of employment, on the verge of starvation, and the like, which, generally speaking, is true, and it is on this basis as a starting point that we are disposed to read this class of persons a lecture on consistency and the lack of judgment. To show the point more strongly let any kind of a fake institution strike a city and these men are the first to gather round it and give of their resources to support a set of trifling idlers in their games of chance. If the institution carries a banjo and a comic fool the greater the crowd and patronage, until they succeed in raking in what they can, leave a very small percentage of it for license and something to eat, and pull out, having drained the street patrons of their small change. As a protectorate or guardian of this class of people it would be wise on the part of the city to refuse a license to all street shows and fakirs. In an educational point it would be a

great step forward, because neither they or their exhibitions are of value to any one, on the contrary they are demoralizing in every way they can be viewed, and lead the naturally perverse into worse conduct.—Illinoisian.

It is announced that Col. Robert A. Miller, the new register of the Oregon City land office, is soon to lead to the altar Mrs. Grubbe, a well known school-teacher of Salem. It is lucky that Col. Bob did not go to Turkey after all. A big office without grub is not a fat take. The land office with a side position as manager of a home is different. Col. Bob and his fiancée will be the recipients of hearty congratulations until after the honeymoon is over.—Dispatch.

A Split in the Flock.

The queer faith of Mrs. Williams at Portland furnishes an inexhaustible mine for the newspapers of that town. The Dispatch of yesterday has the following:
 There has been a split in the Mrs. Williams flock. The demand made by the prophetees in the new faith, that all shall fast forty days, has been objected to in most emphatic terms by a part of the flock, and about thirty members, led by a loud-singing member of the Y. M. C. A., have bolted from her congregation. They have set up a religion of their own and their leader claims he is nearer Christ than Mrs. Williams is. This causes the prophetees to wax wrathful, and she is desirous of an opportunity to seize upon the backsliding members and cast the new devils out of them. She proposes to wage war upon them, and judging from reports in circulation it is reasonable to suppose that the split in the flock will cause some nasty denunciations from both sides before the week is out. The leaders of both factions are competent to entertain the crowd when it comes to stiff tongue-lashing and the use of emphatic adjectives more forcible than polite. The late secession of members is regarded as the beginning of the end of the new faith and it is generally hoped so.

Solution for Calomel and Quinine.

Simmons Liver Regulator, purely vegetable, is equal to blue mass or calomel, but without any of their injurious properties. Have tried it in a most satisfactory manner. Dr. J. H. Bowen, Clinton, Ga.

Unjustifiable Assault.

The Astoria Herald publishes portraits of the water commissioners. They look like they were made with a butcher's cleaver and a base ball bat. The same implements might with justice be employed on the anatomy of the artist who butchered up good type metal in such a diabolical way.

Blotches, pimples, liver patches, U. M. D. rick-cure discharges. Drives away incipient tumors. Clears the blood from poisonous humors. Ailing one, whole or you be. Try the worth of G. M. P.

which is the great Golden Medical Discovery of Dr. Pierce—a wonderful tonic and blood-purifier. The "Discovery" is a standard remedy for consumption, bronchitis, colds and lung troubles; guaranteed to benefit or cure, if taken in time, or money refunded.

Malaria in any of its Forms. Chills and fever, congestive chills can be prevented or cured by the use of Simmons Liver Regulator, a purely vegetable medicine, superior to calomel and quinine.

A Leader.
 Since its first introduction, electric bitters has gained rapidly in popular favor, until now it is clearly in the lead among pure medicinal tonics and alteratives—containing nothing which permits its use as a beverage or intoxicant. It is recognized as the best and purest medicine for all ailments of stomach, liver or kidneys. It will cure sick headache, indigestion, constipation and drive malaria from the system. Satisfaction guaranteed with each bottle or the money will be refunded. Price only 50c. per bottle. Sold by Snipes & Kinsley.

NOTICE.
 Inasmuch as my wife, Georgie Anna Brooks, has, without just cause or provocation, left my bed and board, against my wishes and consent, and refuses to return or further live with me, I hereby warn all persons not to give her any credit on my account, as I will not pay any bills of her contracting after this date.  Have you Catarrh? This remedy is guaranteed to cure you. Price 50c. Inquirer's Trial. For sale by Snipes & Kinsley.

Can't be found
 —the equal of Dr. Pierce's Golden Medical Discovery. If other medicines of its class were like it, they'd be guaranteed. This is. If it doesn't benefit or cure, in every case for which it's recommended, you get your money back. I isn't a "cure-all," but it does cure all diseases arising from a torpid or deranged liver, or from impure blood. For all Scrofulous, Skin and Scalp Diseases, it's a positive remedy. Even Consumption, or Lung-scrophula, is cured by it, if taken in time and given a fair trial. That's all that's asked for it—a fair trial. Then, if it doesn't help you, there's no pay.
 We claim it to be an unequalled remedy to purify the blood and invigorate the liver. We claim it to be lasting in its effects, creating an appetite, purifying the blood, and preventing Bilious, Typhoid and Malarial fevers, if taken in time. The time to take it is when you first feel the signs of weariness and weakness. By druggists.

 Gentlemen:
 On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, Mr. & Mrs. J. F. Ford.
 If you wish to feel fresh and cheerful, and ready for the spring work, cleanse your system with the Headache and Liver Cure, by taking two or three doses each week.

WINANS
 THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for the square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured, you will find this the place to raise a perfect home of a paying investment.
