A burglar got into a room occupied by Mr. Smith and wife. The latter saw him as he was picking up Mr. Smith's pants, and gave an alarm. The burglar fled, taking the pants with him, but leaving his own hat behind. There was only a ten-cent piece in the pants.

A war correspondent of a morning paper states that the soldiers at Camp Campson are doing quite well; that a foraging party captured a pig and took it to camp. If the foraging party is not careful, says the Dispatch, it will exchange places with the pig when the old farmers get around.

Louis Paquet and Mr. Dolzier left on Tuesday morning for across the mountains, accompanied by Mr. Paquet's father and brother, who are well along in years, the former being 82 and the latter 78. They are going to look after 150 head of stock now grazing on 100 acres of land near the Blue mountains. The party will make the trip by wagon team. The elder Paquet and his wife were residents of this section of the country in early days, when there was but one log hut in Portland, and the Willamette had but one boat paddled across, holding but one team.

Nellie, the 15-year-old motherless daughter of R. G. Gibson, who lives near Marengo, Garfield county, Washington, has made complaint, charging her father with incest. She said that two years ago, while her mother was alive, he began abusing her. After her mother's death she was placed in an orphan's home in Spokane, but was taken home in July, when he repeated his abuse under threats. He has fled and a warrant has been issued for his arrest.

This summer, it is said, will see the last of the famous Harney valley crickets. They are dying by millions from disease, and have not yet deposited their eggs. Those who have observed their habits say the disease which has caused their destruction in other places is the same to all appearances as that which is killing them there. They have been in the valley in numbers ever since it was first visited by white settlers.

Four masked men entered Ed. C. Allen's store in Grant county, a few days ago, compelled him at the point of a six shooter to open his safe, and relieved him of \$1,000 in coin. A young lady was in the plot and received \$100 of the booty. One of the robbers was tracked to her house and she became frightened, gave up her part of the money, and told the names of the robbers. All of the men are under arrest and most of the money has been recovered. The names of three of the men are Grisman, Davis and a fellow called "Tex."

Mr. Parish informs us that there is great activity throughout the country in harvest work, and that the crops are better and larger than they have been for years in Crook county. In stage business travel is unusually light. That the stage companies are in the same boat as the railroad companies are as far as passenger traffic is concerned.

GENTLEMEN—I never sold a medicine that gives such universal satisfaction to my customers as Krause's Headache Capsules. I can speak also from experience, as they have nearly cured me of frequent attacks of sick headaches. I could get you many testimonials in this vicinity from those who have used them.
Yours truly,
C. L. Corroson,
Lod. 10nd, Feb.

the ground in front of I. I. Burget's house. The occupants all received bruises, but were not severely hurt. Speaking of the accident, one of the young ladies said: "I didn't know but that I was going to be killed, so I just shut my eyes and let myself go."

In the absence of Mr. Balie Johnson, for a month, the situation of telegrapher at the Umatilla house is being filled by Mr. Lewis. This gentleman is most affable and courteous and it would be a pleasure to THE CHRONICLE to announce his permanent residence among our people.

A pretty well authenticated report is that the Union Pacific will make some tremendous cuts in their steamer service by the first of the coming month, withdrawing all of their boats from the Lower Columbia but the Oregon and State, discontinuing the routes between Portland and Astoria and Portland and the Cascades.

The labors of the city council are persistent on the matter of sidewalks, and a special meeting is likely to be held soon in this connection. Few have been built since the last regular meeting, but many lot-owners have been notified. There have, however, been some new walks laid in the last several days.

Eighty hop-pickers are wanted at once at North Yakima, about 100 miles from The Dalles. Apply to James Blakeney for particulars. Here is a good chance for a large number of idle men in this vicinity. The work is especially valuable for those needing work at this time, as it can be done by women and children, as well as men. Hence whole families can secure remunerative work by applying at once.

A Natural Curiosity.

A *Lepus nature* among human beings, and even cattle and sheep, is met with quite often in a lifetime, but the most singular freak of nature was shown to us this morning, the head of a common digger squirrel with abnormally long teeth. The right upper tooth is about two inches long and curled in the shape of a mountain sheep's horn. The left lower tooth is about three-quarters of an inch long and has grown into the upper jaw, forcing the mouth open at a wide angle. While alive the little animal must have been a constant sufferer, from the continual effort to hold its mouth open, as the long tooth is as sharp as a needle. Mr. Frisco of Hood River is the owner of the squirrel head, and shot it about a week ago. It is of mature age, and from the yellow discolorations of its teeth, must have been an old one. How it handled its food is a mystery.

A Leader.
