An Appeal for Help.

New York, Aug. 21.-The committees son streets.) appointed Sunday at the meeting of the organized labor conference today formulated an address to the people of the United States, declaring that 100,000 men, women and children are nearing the verge of starvation in this rich metropolis of these free United States. Hundreds of thousands of others within a short distance are suffering from want and its attendant misory and crime. It calls upon New York aldermen to convene in special session and devise ways and means for the employment of the unemployed directly, and calls 'upon all to contribute funds for the unemployed

who seek work in vain. It charges that those who control the industries and finance of the United States are responsible for the employment of labor, and it is demanded of them immediate re-
