AUGUST ANGLINGS.

Small Fry Hooked by Persistent Chronicle Reporters.

"Two souls with but a single thought, Two hearts that beat as one!" But the harmonious tone was weak, and when it stopped, it spelt their ruin.

The Regulator now lands at her old landing place at the end of the dock.

Three million grain sacks on overdue ships have arrived at San Francisco, and the corner is broken.

Messrs. Saltmarsh & Co. will ship two cars of beef cattle and one car of fat hogs to the Portland market tonight.

Sheriff Leslie of Sherman county is in town today to take George Gilbert in custody on a charge of burglary in Sherman county.

Intending exhibitors at the district fair may obtain premium lists at THE CHRONICLE office or the office of the secretary, Mr. J. O. Mack.

Tickets have been printed for the grand ball of the firemen next Monday evening, and may be obtained at many of the stores about town.

Private advices from a Spokane fruit dealer state that cantaloupes from The Dalles command much better prices than the Walla Walla production.

The days are perceptibly shortening and the cool and frosty evenings at the mountain resorts will soon drive summer pleasure parties home again.

The Union Pacific has procured an injunction against the Oregon Telephone Co., restraining them from erecting their poles along their right of way.

Capt. Kennedy steamed the inland Star into port last Saturday evening, having repaired the damages sustained in the wreck during the high water just below Hood River.

Dick Miller, Billie Anderson and Roe Smead have returned from Kentucky, where they have been with horses. Mr. Miller says they disposed of their horses to a good advantage, getting fair prices for them.—Prineville News.

The First National, which resumed Saturday, is doing a good business and confidence is completely restored. The result was brought about more by the efforts of Mr. Stage than any other one man, and he has earned an enviable reputation for good business sense and ability as a financier, though a young

man. He went to Portland Saturday to assist Mr. Wightman, and it is hoped the same success will attend his labors there.

Clark P. Crandall, a brother of K. W. Crandall of The Dalles, died in Atlantic City, N. J. He was widely known throughout Oregon, and was a brilliant writer. He was city editor on the Oregonian for a number of years.

Mr. D. J. Cooper had just come into town and drove up to E. Wolf's establishment and while there his team became frightened at a bear skin and ran around several blocks, and up the street past the brewery and up the steep road grade. Dr. Rinehart's oldest boy, aged 10 years, was in the vehicle during this time, and on going up the grade they slowed up and the boy jumped out, and as it happened another boy who was on horseback, coming down the grade, checked them and caught the runaway without any damage to horses, wagon or boy.

Up on the Ferndale road a few days ago, reports the Fairhaven Herald, a cougar visited the house of a farmer. The animal came right up to the door, which was open, and a little girl, who was alone in the house, saw it. She didn't know what kind of a beast it was, but the cougar blinked at her, and she says looked at a piece of bread she had in her hand. She threw it to the beast; it ate the bread, took another look at the child and quietly disappeared into the forest at the rear of the house. When the parents returned the child told her story, and an examination of the footprints showed them to be those of a large cougar.

Goldendale Accepts.

Chief of Fire Department Fish has received a letter from Goldendale, accepting the invitation to attend our tournament and will send a team to contest for the honors. They will not bring their cart, as the city would then be left without protection, but Mr. Fish has replied that they may run with our cart. They announce their intention, also, to play against the Oregon City base ball team. They are plucky. This makes the fifth contestant so far for the prizes, and all indications point to a very lively day the coming 4th of September.

This is to certify that I have used Krause's Headache Capsules periodically for over one year, and have very much pleasure in stating that they have always proved beneficial and have relieved me in from ten to fifteen minutes. I have been a sufferer from headache for many years, and have never found anything to do me as much good as Krause's Headache Capsules. Yours truly, LOUIS HERMAN, 2348 Poplar St., Wichita, Kan.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhoea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johnstown, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera, and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several cases where it was equally successful. I think it cannot be overpraised and cheerfully recommend it." 25 and 50 cent bottles for sale by Blakeley & Houghton, Druggists.

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." 25 and 50 cent bottles for sale by Blakeley & Houghton, Druggists. 1m.

HALF DONE.

The House Votes to Repeal the Sherman Act Unconditionally.

WASHINGTON, Aug. 28.—[Special to THE CHRONICLE.]—At 5 minutes to 12 the clock in the hall of the house of representatives was turned back an hour, as the time approached when the vote on the Wilson bill was to be taken. The silver men saw that their hopes were doomed, and they tried to check the tide by substituting amendments variously of 16 to 1, 17 to 1, 18 to 1, and finally 20 to 1, when the question was plainly put for yeas and nays on the Wilson bill (unconditional repeal). The vote resulted in yeas 239 and nays 110. The actual time of this vote was about 3 o'clock, the clock in the house having been turned back several times. This vote shows 18 more than the actual democratic majority in the house. There was prolonged cheering when the result was announced.

Bartletts Next.

J. A. McDonald, of the Earl Fruit Co., returned last evening from Portland, where that company have been shipping peach plums, peaches and prunes. He returns for the purpose of shipping Bartlett pears. These are quoted in Chicago at \$1.75@2.25 per box, with an upward tendency, and has received a message from San Francisco, telling him to "hurry up with the Bartletts." He regrets that the last shipment of peach plums was attended with a loss to the growers, but says that if the growers will stay with the company they will make money in the end. The markets have been very bad for the last ten days in all sections of the east, but the bulk of this fruit has now all gone off, leaving the markets open for the Pacific coast. The terrible storm in the Atlantic states ruined the Delaware peach crop, and they were shipping 100 carloads a day. Mr. McDonald says that the markets offer exceptional inducements just now for Bartlett pears, and that last October he shipped a carload from Colfax that brought \$4.75 per box.

The Cascade Locks.

Eighty stone-cutters are at work at the locks.

The pump decreases the water in the canal about three feet in twenty-four hours. It will take about a week to pump the water all out.

While a second boiler was being put in place Saturday to assist in pumping water out of the canal, the chain from the swinging crane broke in two, and the boiler fell in twenty feet of water.

A New Rain Compeller.

Scientists say that the effect of a low temperature on a cloud of vapor will be shown in the precipitation of rain. Acting on this knowledge, a European living in the tropical regions of India has invented a novel rain producer. His apparatus consists of a rocket, capable of rising to a height of a mile, containing a reservoir of ether. In its descent a parachute-like attachment opens out, causing the apparatus to descend slowly. At the same time the ether is thrown out in a fine spray. The absorption of heat by the ether is said to lower the temperature of the surrounding air sufficiently to condense the vapor, and hence cause rain. This being true, a large number of rockets would probably be required to cause a prolonged shower.

Mr. J. C. Boswell, one of the best known and most respected citizens of Brownwood, Texas, suffered with diarrhoea for a long time and tried many different remedies without benefit, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was used; that relieved him at once.
