If however, like thousands of other people, you have learned that you must "draw the line at lard," this is to remind you that there is a clean, delicate and healthful vegetable substitute,

which if used in place of lard, permits you to eat pies, pastry, patties and such "good things" without fear of dyspeptic consequences.

DOLPH'S BILLS.

Work for Himself.

Quite a number of the senator's bills have a familiar sound and appearance, she had intrusted to his care. and some of them have been regarded as impossibilities in the way of legislation, but this does not prevent him from introducing them from congress to congress, because he believes in their principles and thinks they ought to be adopted. For instance, a bill which provides for coast fortifications is one which Senator Dolph has introduced at that he does make an extended speech urging the passage of the bill. This bill appropriates \$123,000,000 to be expended at twenty-five different points in the United States, one of which, of course, is Portland, Or. Another bill is in effect to loan any state or territory money to prosecute irrigation canals. The loan shall not exceed \$2,500,000 in any one year to any single state or territory, nor exceed a grand total of \$10,000,000 to any one state or territory. The states, to secure the government, shall issue irrigation bonds at 1 per cent. running fifty years and redeemable in five years.

Senator Dolph also has a bill for the relief of certain settlers who have made entries on lands and the entry has been erroneously allowed and cannot be confirmed, the secretary of the interior being directed to repay the person who made the entry and allowing him the right to make a re-entry. Provision is also made for the repayment to settlers within forfeited railroad grants to receive back one-half of the money they have paid for lands within such grants. He has also introduced a bill making a public park of ten townships of land surrounding Crater lake. He also has a bill providing for the sale of the unsold portion of the Umatilla Indian reservation in Oregon. The senator has also introduced a bill providing for the formation and government of municipal corporations in Alaska. Also a bill to create and establish a pilot service of the United States.

#### The Beauty Standard.

The standard of female loveliness varies greatly in different countries and with individual tastes. Some prefer the cut Charles H. Conners' throat with a plump and buxom type; some admire razor and afterward ran naked through the slender and sylph-like, and some the the fields, slashing and tearing at his tall and queenly maiden. But among own throat until he inflicted wounds all people of the Caucasian race, one point of beauty is always admired-a pure, clear and spotless complexionwhether the female be of the blonde, "murder" caused him to enter.
