PORTLAND'S VARIETY THEATERS  
Judge Munly Charges the Grand Jury to Investigate Them and Squelch Their Vices.

**Ate Toadstools for Mushrooms.**  
NEWARK, N. J., Sept. 6.—The Vojacek family residing at 427 Fifth avenue, this city, ate toadstools last night in mistake for mushrooms. The mother and her son, Willie died this morning. The father is dying, and the 11-year old daughter is dangerously ill. A neighbor named Norvak is also dangerously ill. The toadstools were gathered Labor Day by Vojacek. Last night the family partook of them. This morning the neighbors, seeing no signs of life about the house, investigated and discovered the dead and dying.  
Variety Theatres of Portland.

Judge Munly, in his charge to the grand jury at Portland, speaks of the variety theaters. He said: "I feel it incumbent upon me in this connection to direct you to investigate the variety theaters conducted in the north end of the city. Although advertised and licensed as places of amusement, the records of the police court, which they have kept busy in the past, show them to be dens of vice where prostitutes and thieves are regularly employed as attendants and waiters in private boxes. Here in these private boxes are nightly enacted bestial orgies that make one blush for humanity. Thither victims are led and systematically robbed, and are treated with violence if resistance or remonstrance be made. Youths, sometimes mere boys, are permitted to frequent these theatres in violation of the law, and there imbibe lessons in corruption. Prize-fighting, perhaps the least insidious form of disorder that prevails in these places, is frequently a part of the programme of the theater exhibits. In short, the class of theaters that flourishes in the north end of the city presents a variety of villainies that would be difficult to parallel in any city in the country. The district attorney has already undertaken the prosecution of the keepers of these places, and I trust you will second his efforts and compel them to respect the law."

**Running Into Debt.**  
WASHINGTON, Sept. 7.—At no time since the war have customs receipts been so low as now. The matter is causing Carlisle a good deal of worry. In the treasury last night the cash balance was reduced to \$105,000,000, inclusive of gold reserve and \$10,000,000 of uncurrent and subsidiary coin. What is left of the depleting gold reserve continues to be the only cash balance in the treasury with which to pay current expenses. The receipts are now running about \$170,000 per day behind the expenditures. For the first time the import duties have fallen below the internal revenue receipts. For the fiscal year from July 1st to the present time, the government expenditures have exceeded the receipts by \$19,000,000. At this rate the deficit at the end of the year will be very large.

The Midway Plaisance is agog over a story that Miss Jennie Hammond, of Belaire, O., and Abdul Lateef, manager of the Turkish village, have fallen in love and will be married. They first met while the young lady was visiting the fair.  
Cashier M. J. Bofferding, of the Bank of Minneapolis, shot himself yesterday. It is supposed to be the result of brooding over the action of Paying-Teller Scheig, who absconded Saturday with \$15,000 of the bank's money. Bofferding's accounts are straight.  
Ernest Hart, editor of the British Medical Journal, made an address on the ethics of the medical profession, before the pan-American medical congress now in session at Washington, in which he classed homeopaths with "quacks," as men not to be recognized as doctors or to be consulted with.  
Selma police saw a man approach a laundry in the Chinese part of town and pour oil over the walls, after which he set fire to the place. The guards called upon the incendiary to surrender, but he escaped in the darkness amid a shower of bullets from the guards, who extinguished the fire before serious damage had been done.

**A Good Thing to Keep at Hand.**  
From the Troy (Kan.) Chief.  
Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhoea, etc., we become scared. We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy the very thing to straighten one out in such cases. We are not writing this for a pay testimonial but to let our readers know what is good to keep handy in the house. For sale by Blakeley & Houghton, druggists.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was the Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring and always with the best results. For sale by Blakeley & Houghton.

**MARKET REPORT.**  
The Financial Stringency Continues and Low Prices Rule.  
FRIDAY, Sept. 8th.—The tone of trade continues quiet, with the financial stringency yet affecting all departments of the merchandise market. The money market is somewhat easier since last week's report, but the improvement has not been sufficient to materially help business to any extent. The movement in dry goods is confined to limited demands, while that in provisions is confined to local traffic, and prices continue to be maintained without any material change to note.  
The produce market is unusually quiet and has a very sluggish appearance. Deliveries of fruits and vegetables are large, mostly for export, and prices all around are weak. The egg and butter market is again well supplied, and the former quotations remain unchanged.  
Poultry is fairly active on the market, with a fair delivery and prices are the same as quoted.  
The grain market continues quiet and nearly lifeless, with a very light delivery. The market is not really opened yet, and quotations range from 42 to 45 cents per bushel at the mills. The demand for export at Portland is held in check, owing to a want of present tonnage. There is 61,089 tons en route to arrive in the near future, when the requirement for filling charters will be manifestly improved. European markets, while a light activity prevails, have a coloring of an upward tendency, as they seem more firm from last advices.  
The annual report of the Hungarian minister of agriculture has appeared. Its estimate of the world's production of wheat this year is 2,279,000,000 bushels, against the official average of 2,280,000,000 annually for the last ten years. The report gives also the following figures:  
The deficits to be filled by the importing countries will require 379,000,000 bushels. The surplus available in exporting countries to satisfy this demand is 378,694,000 bushels, of which the United States can supply 69,518,000. Russia leads the countries having a surplus product, with 97,893,000 bushels, while Great Britain has the largest deficit, 184,127,000 bushels.  
The wool market is in statu quo. During the month of August the wool trade was at a standstill. The market report of the Boston Herald estimates 80 per cent of the woolen machinery now idle. Other authorities make it greater. The limited amount of woolen machinery still in motion is using up stock already on hand and new purchases are almost nothing. This explains why so few buyers have been in market. Manufacturers whose mills are shutting down do not want wool. Sellers of wool, however, are far from willing to sacrifice their property, although most dealers will accept offers if they are considerably above the free wool level. Free wool for the United States is still a long way off and if proper efforts are made to prevent it, free wool may never be realized.
