The rock crusher should be busily employed as long as there is a bad mile of public road in Wasco county. A good wagon road is more important than a railroad to build up a given section of country and make it prosperous. With a bad road the farmer is badly handicapped in his race with other branches of industry. However sober and industrious he may be, however much the demand for his produce may increase, and the market may grow, the present facilities for transportation place in his path an obstacle which he is unable to surmount. A country can ill afford to neglect the farmer or discourage any reasonable measure for promoting and encouraging agriculture, because the life and success of a nation depends upon her agricultural resources, and the prosperity of the farming community rests largely upon the facilities for communicating with thickly settled sections. As it is now, the cost of transportation oftentimes exceeds that of the raw material. Good roads increase property values, and are worth all they cost.

The people of Lane county see the advantages of a boat line. They were in the same fix as The Dalles was two years ago. The Guard says: "The Oregon Pacific railroad has made a rate of \$2.50 per ton, on wheat, from Albany to San Francisco. The giant monopoly, the Southern Pacific railroad, charges our people, for 123 miles, to Portland, \$3.20 per ton. In plain terms, a highway robbery; and still the state railroad commission stands idly by and makes no move to protect the producer. By all means the next legislature should abolish said commission, which is preying on the taxpayers and protecting the corporations of the state. One relief will come as soon as the river raises a few feet. The Oregon Pacific will run boats here, and ship all wheat offered, and at prices that will be far below those charged by the S. P. R. R."

A party recently from Colorado says that Cleveland would not get one vote out of a hundred if he were running for president the coming November. No wonder. Here is the record so far:
 The flag hauled down.
 Pensions cut off.
 Price of wheat reduced.
 Wool completely demoralized.
 Banks closed.
 Factories shut down.
 Laborers starving.

France and Siam are still wrangling. The trouble seems far from being settled, and the chances are that the wily Siamese will figure around until they will be able, by a strategic move, to completely overthrow French domination there.

The Portland Savings bank will probably resume business and not go into liquidation. People are regaining confidence in Messrs. Dekum and Thompson's promises, and the Telegram has quit abetting the panic, as predicted.

NEWS NOTES.

Already the demand for space at the California midwinter fair is greater than can be granted.

The plan for the dissolution of the Standard Oil trust, is now completed, and a meeting has been called for the purpose of winding up the trust's affairs. The dividends were greater than the capital stock, \$90,000,000.

John Cadman and John A. McDonald fell 250 feet in a copper mine shaft near Globe, A. T., and were instantly killed. Cadman leaves a wife and daughter. McDonald was a young man, a native of Nova Scotia, where his parents reside.

The committee to arrange relief for the 10,000 starving New York workmen have gone to work in earnest. It is believed that they will relieve the most pressing wants. It is a fact that thousands are actually starving who never before stood in need.

Olinger & Bone's stages en route to Cloud Cap Inn will locate campers at the best fishing point in Hood River valley, where one can reach Mt. Hood in a few hours and get their mail and provisions daily. 2twed

Checked
 —the frightful inroads of Scrofula and all blood-taints. Dr. Pierce's Golden Medical Discovery purifies and enriches the blood, cleanses the system of all impurities, and restores health and strength. It cures all diseases arising from impure blood. Consumption is one of them. It's simply lung-scrofula. In all its earlier stages, the "Discovery" effects a cure. It's easy to see why. The medicine that masters scrofula in one part, is the best remedy for it in another. It is the best. It's warranted. It's the only blood and lung remedy that's guaranteed to benefit or cure, or the money will be refunded. No other medicine of its class does it. How many would be left if they did?

It's the *cheapest* blood-purifier, sold through druggists, (no matter how many doses are offered for a dollar,) because you only pay for the good you get.

Your money is returned if it doesn't benefit or cure you.

Can you ask more?
