WEDNESDAY, SEPT. 13, 1893

While the world has not yet come to an end, an Alabama murderer who was hanged last week lit a cigar just before the final drop and left the world smoking.

An eastern scientist, after the most careful calculation, predicts another deluge in about 10,000,000 years. This should not be allowed to defer action in regard to the financial difficulties which now beset the country.

Home rule carried in the house of commons by a majority of 34, and was defeated in the house of lords by 370. The defeat is crushing, but the fight will never abate its earnestness until Ireland is free. Time gives all opportunity, and only opportunity is lacking for liberty to assert itself, in letters of blood, if need be.

The cheapest property today in America is timber land. Its advance has not been rapid since the panics during the seventies. The demand for wood pulp, the wanton destruction by fire of our forests, the increase in our population and many other causes all are tending to make timber more valuable.

The senate is still idling away time, doing a great deal of talking and no business. All eyes are turned toward it, but it seems indifferent to the gaze. There is no use in putting off the inevitable. They will surely pass the Wilson bill, reported from the house by so large a majority, and though the dose is a bitter one to a handful of silver senators, there is nothing to be gained by procrastination but the yet sincerer condemnation of the country at large. The senate will not vote, but the people have voted it a nuisance long ago.

All the world has been informed that San Francisco is to have a mid-winter fair and that many of the attractions at the Columbian exposition will be among those at the Golden Gate. It was felt, however, that there must be something to supply the place of the Eiffel tower and the Ferris wheel, or the San Francisco show would not be a complete success. But San Francisco has shown herself equal to this emergency as she has to many others. A genius of that city has devised a colossal statue of Justice, 150 feet in height, supporting an immense pair of scales, at the extremities of which are cars holding fifty persons each. The beam is a truss, 300 feet long oscillating like a walking-beam, lifting the cars to half that distance above the top of the statue. It is believed that this will prove as great an attraction as the devices for looking about at the Paris exposition and the world's fair.

Speaker Crisp is a frequent caller at the treasury department. Two or three times a week since the extra session opened it has been his custom to drop in upon Secretary Carlisle to ascertain from him the changing conditions of the money situation, and to communicate to Mr. Cleveland's chief financial minister such new developments as may have arisen at the capitol. Neither the speaker nor Mr. Carlisle has attached any great significance to their consultations until lately, when they found them magnified into secret and mysterious indications of some contemplated change of policy on the part of the administration. It is said that Mr. Crisp is now almost afraid to enter the treasury building and Mr. Carlisle does not conceal the annoyance which the exaggerated reports of his doings occasion. As recently stated, on the direct authority of a member of the cabinet, the administration has not discussed in meeting or out of it any new line of policy on financial matters, and will not enter upon the consideration of any new project until after the senate has taken action on the question now pending before it.

**GENTLEMEN:**—Having suffered a great deal from headache for years and being unable to get relief until it would wear away of itself, I saw Krause's Headache Capsules advertised. I tried them, and now am never without them, finding it the only remedy that will give relief. When I now find a headache coming on I take a capsule and always find the relief instantaneous. Respectfully yours, G. H. WRIGHT, Boston, Mass.

**Karl's Clover Root,** the new blood purifier, gives freshness and clearness to the complexion and cures constipation. 25c., 50c. and \$1.00. Sold by Snipes & Kinsely, druggists.

**SCIENTIFIC MISCELLANY.**

Twelve thousand microbes, strung in a line, would make a procession only one inch in length.

Three miles per hour is about the average speed of the gulf stream; at certain places, however, this speed is increased to fifty-four miles an hour.

Generally speaking, we say that the curvature of the earth amounts to about 7 inches to the statute mile; it is exactly 6.99 inches, or 7.962 inches for a geographical mile.

According to a promise made to her dead husband, Mme. Schliemann is continuing the excavations at Troy, which made his name famous, and personally superintends much of the work.

Prof. Barnard's recent photograph of the milky way shows the existence of 500,000,000 suns, each supposed to be the center of a system of planets, where hitherto it was thought to contain only about 20,000,000 such suns.

The celebrated "globe fish" is not always globe shaped. They have the power of distending themselves into a globular form by inflating a large air sac in the abdomen. When this is blown out they assume a normal shape.

A pound of rice contains 86.09 per cent. of nutritive matter. Lean beef contains but 26.83 per cent. Fat beef contains 46.03 per cent.; potatoes, 23.24 per cent.; Indian corn, 82.97 per cent.; oats, 74.92 per cent.; rye, 82.79 per cent.; and wheat, 82.54 per cent.

Brought back to health—suffers from the worst forms of Skin and Scalp Diseases, Scrofulous Sores and Swellings, and all manner of blood taints. It's done by Dr. Pierce's Golden Medical Discovery, which purifies and enriches the blood, and through it cleanses and renews the whole system. Even Lung-scurfula (known as Pulmonary Consumption) yields to it, if taken in time and given a fair trial. It's guaranteed to benefit or cure, in every case, or money paid for it is refunded. Only a medicine that does what is claimed for it, could be sold on such terms. No other medicine, besides the "Discovery" has undertaken it. So positively certain is it in its curative effects as to warrant its makers in selling it, as they are doing, through druggists, on trial!

It's especially potent in curing Tetter, Salt-rheum, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Goitre, or Thick Neck, and Enlarged Glands, Tumors and Swellings. Great Eating Ulcers rapidly heal under its benign influence.

 Of Des Moines, Iowa, writes under date of March 23, 1893:  
 S. B. MED. MFG. CO., Dufur, Oregon.

Gentlemen:—On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, I am, Yours, Mr. & Mrs. J. F. Ford.

If you wish to feel fresh and cheerful, and ready for the Spring work, cleanse your system with the Headache and Liver Cure, by taking two or three doses each week.  
 Sold under a positive guarantee.  
 50 cents per bottle by all druggists.

**PROPOSALS**  
 FOR  
**Flour, Bran and Feed.**  
 U. S. Indian Service, Warm Springs Agency.

WARM SPRINGS, Crook Co., Or., Aug. 5, 1893.  
 Sealed Proposals for Flour, Bran and Feed, as the case may be, and addressed to the undersigned at Warm Springs, Oregon, will be received at this agency until 1 o'clock P. M. of Tuesday, September 13, 1893, for furnishing and delivering at the agency about 45,000 lbs. of flour, 20,000 lbs. of bran, and 20,000 lbs. of feed.  
 Flour must be either what is known as "straight full stock" of good sound wheat—or its ground down to about 42 lbs. of flour, low grades to be taken out; or it may be what is known as patent flour, and delivered in extra strong single cotton sacks to weigh 49 lbs. each, with samples of not less than 25 lbs. must be furnished by bidders, said samples to be distinctly marked with the name of the bidder and the number of the sample if more than one is submitted.  
 Bran must be of good quality, equal parts bran and shorts mixed; samples of not less than 25 lbs. must be furnished by bidders.  
 Feed.—Of the above there is to be delivered at the Sienemasho School, located 20 miles north of the agency, 24,000 lbs. of flour, 10,000 lbs. bran, and 10,000 lbs. of feed; and at the agency, 24,000 lbs. of flour, 10,000 lbs. bran, and 10,000 lbs. feed. All articles are to be subject to a rigid inspection.  
 Proposals must state specifically the proposed price of each article offered for delivery under a contract by the U. S. or not barrels or tons.  
 The right is reserved to reject any or all bids, or any part of any bid if deemed for the best interest of the service.  
 Certified checks—Each bid must be accompanied by a certified check or draft upon some United States depository or solvent national bank in the vicinity of the residence of the bidder, made payable to the order of the commissioner of Indian Affairs, for at least five per cent. of the amount of the proposal which check or draft will be forfeited to the United States in case any bidder or bidders receiving an award shall fail to promptly execute sureties, otherwise to be returned to the bidder.  
 Bids accompanied by cash in lieu of a certified check will not be considered.  
 Further information as to time of delivery and other particulars, apply to

 THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and waterfalls, easily harnessed. Where else in our State power exists, there the machinery will center, surrounded by soil and climate that cannot be equalled anywhere for fruit and agriculture, and with transportation already established you will find this the place to make a perfect home or a paying investment.
