The mills all over the country are getting down to actual work. Senatorial windmills should accept the pointer.

A few parsimonious ones are crying that to deport the Chinese will take a great amount of money. Suppose it does. If they remain they will send out triple the sum every year, never to return. A part of the \$30 a head it takes to export them stands a good chance of returning, and the entire sum it takes for conviction finds its way readily into circulation.

It is unquestionably the intention of the ways and means committee of the present house to reimpose the duties on sugar, tea and coffee. The adoption of such a policy will furnish the national government with nearly \$8,000,000 of revenue, but every dollar will be just that much added to the cost of living of the people. Not a pound of tea or coffee, and very little sugar, is produced in the United States, but all are necessities and the reimposition of such a tax will come home to every fireside in the land.

In a short time, says the Albany (N. Y.) Journal, another mammoth locomotive, similar to the Empire State Express engine, will be turned out of the shops at West Albany. The work of constructing the new engine is under the supervision of General Foreman Watson and Chief Draughtsman Buchanan. A corps of twenty of the best mechanics employed at the works are continually working on the engine and it is expected it will be completed before the winter. It is of the Buchanan type, with water arch boiler of heavy Bessemer steel. It will be equipped with the latest improved apparatus, and will be equal, if not superior, to the Empire State Express engine No. 999, now being exhibited at the world's fair.

Dr. West, accused of the murder of Addie Gilmour, says the girl was sent to him by a woman doctor, who had performed a criminal operation on the girl and then sent her to him out of revenge. West still asserts that he gave Miss Gilmour's body to two medical students, but refuses to name them.

Representative Breckinridge has filed a reply to the charges in the suit for breach of promise of marriage by Madeline Pollard. He denies that he seduced her or promised to marry her, or is the father of any of her four children. He declares the first time they met she requested his advice as a lawyer in the matter of a man named Rhodes, who had betrayed her.

A Good Thing to Keep at Hand.

From the Troy (Kan.) Chief.
 Some years ago we were very much subject to severe spells of cholera morbus; and now when we feel any of the symptoms that usually precede that ailment, such as sickness at the stomach, diarrhea, etc., we become scared. We have found Chamberlain's Colic, Cholera and Diarrhoea Remedy the very thing to straighten one out in such cases. We are not writing this for a pay testimonial but to let our readers know what is good to keep handy in the house. For sale by Blakeley & Houghton, druggists.

A Peep Into a Fashionable Chop-House at One O'clock in the Morning.

If you feel any interest in the curious phases of mankind take a look in one of our fashionable chop-houses about one o'clock in the morning. If it be Saturday night all the better. That peculiar class of men who rise very late in the morning and go to bed only when everything else is shut up, says the Pittsburgh Dispatch, are then out in full force. It isn't because they can't come on some other night, but because on other nights there wouldn't be so many of their kind to admire them. Most of these modern chop-house crowds are young men of from twenty to thirty years of age. They are mostly in evening dress and their walk and conversation have a theatrical flavor. The greatest compliment that can be paid one of these youngsters is when he is taken for a rounder, a man about town, or something equally devilish. As the world goes, they are rather a fine-looking specimen of American manhood. They have stiff stomachs yet untouched by the insidious demon of late suppers they are in the act of codding. They are neither heavy drinkers nor loud and boisterous of demeanor. But they can get away with rarebits and fried scollops and lobsters and steaks and chops and other things like hired men in threshing time. A few indulge in expensive wines, but most of them prefer the conventional toby of ale from the wood. About two in the morning they will have disappeared. Then the waiters will go around and gather up the canes and umbrellas that have been left in the corners during the evening. These average from two to a dozen nightly. Men who leave canes around in this way are not accustomed to carrying canes.

Among the incidents of childhood that stand out in bold relief, as our memory reverts to the days when we were young, none are more prominent than severe sickness. The young mother vividly remembers that it was the Chamberlain's Cough Remedy cured her of croup, and in turn administers it to her own offspring and always with the best results. For sale by Blakeley & Houghton.

A FOOTHOLD

for Consumption is what you are offering, if your blood is impure. Consumption is simply Lung Scrofula. A scrofulous condition, with a slight cough or cold, is all that it needs to develop it. But just as it depends upon the blood for its origin, so it depends upon the blood for its cure. The surest remedy for Scrofula in every form, the most effective blood-cleanser, flesh-builder, and strength-restorer that's known to medical science, is Dr. Pierce's Golden Medical Discovery. For Consumption in all its earlier stages, and for Weak Lungs, Asthma, Severe Coughs, and all Bronchial, Throat and Lung affections, that is the only remedy so unfailing that it can be guaranteed. If it doesn't benefit or cure, you have your money back.

For a perfect and permanent cure of Catarrh, take Doctor Sage's Catarrh Remedy. Its proprietors offer \$500 reward for an incurable case of Catarrh in the Head. Costs only 50 cents.
