THE DALLES OREGON

HORNS AND MILK.

How Veterinary Would Increase the Usefulness of Cows.

The removal or suppression of the horns of cows increases the supply of milk, and the animal fattens better; the fact is a strange one, says the Boston Globe, but there is no doubt about it. The horns are not of much use, and, on the other hand, are often the cause of accidents.

The removal of the horns of young animals was recommended years ago by a distinguished veterinary surgeon, and Neumann demonstrated that cows without horns were fatter and gave more milk than others.

He saw four Dutch cows without horns give from eighteen to nineteen quarts of milk a day although on indifferent pastures, whereas others of the same breed, but with horns, only gave twelve to fifteen quarts, in spite of the fact that they had the advantage of excellent grazing land. American breeders have made experiments which amply confirm the statements made above.

Those in favor of the removal of the horns do not in the least intend to countenance any act of cruelty; the removal would be effected in a simple and easy manner, by destroying the tissue or root of the horn, as soon as there was the slightest sign of hardening on the forehead of the young animal.

But without entering into any discussion on this head, simply note the fact that the removal of the horns increases the supply of milk.

Although strange at first sight, it does not appear so extraordinary upon consideration. It is known by experience that the removal of an organ which has no utility leads to beneficial results in other ways.

Everyone His Own Life Preserver.

The children of Italian beggars are often seen to be covered with tumors and wens, while otherwise they are perfectly healthy. An inquisitive surgeon has found the cause of the swelling. It is a trick of the father or mother to appeal the more strongly to the charity of the world. With an instrument like a hypodermic syringe the skin is punctured and the breath is blown into it, causing it to stand out like a tumor or other excrescence in a way that would deceive almost anyone. Dr. Sylvester, an English physician, has made practical use of the discovery by converting a man's skin into a life preserver. His method is to puncture the flesh of the cheek, from the inside of the mouth, until the small holes reach to the outer skin. By then closing the mouth and blowing hard the cheeks are filled with air, so that a person seems to have a little balloon on each side of the face. It is almost impossible to sink in that condition. After leaving the water a gentle pressure of the hand forces out the air and the cheek resumes the normal shape. It is therefore possible for every man to be his own life preserver.—Paris American Register.

A Long Procession of diseases start from a torpid liver and impure blood. Dr. Pierce's Golden Medical Discovery cures every one of them. It prevents them, too. Take it, as you ought, when you feel the first symptoms—languor, loss of appetite, dullness, depression and you'll save yourself from something serious.

In building up needed flesh and strength, and to purify and enrich the blood, nothing can equal the "Discovery." It invigorates the liver and kidneys, promotes all the bodily functions, and brings back health and vigor. For Dyspepsia, "Liver Complaint," Biliousness, and all Scrofulous, Skin and Scalp Diseases, it is the only remedy that's guaranteed to benefit or cure, in every case, or the money is refunded.

About Catarrh. No matter what you've tried and found wanting, you can be cured with Dr. Sage's Catarrh Remedy. The proprietors of this medicine agree to cure you, or they'll pay you \$500 in cash.

JACOB WETLE. JOHN P. KRIER.

The Dalles Daily Chronicle.

HAS A FAMILY OF 2000 READERS.

They read The Chronicle to get the latest and most reliable news. And they read every line that is in the paper. That is what makes the Chronicle an invaluable advertising medium. The newspaper that goes to the family firesides is the one that the advertisers of today patronize when they desire to reach the people. When they want your trade their announcements will be found in the paper. Look over our columns and observe the verification of the truth of this assertion. Remember, a trade of a family of two thousand is worth asking for through these columns, especially so at our very cheap Advertising Rates.

MORE ROOM. Also, can furnish First Class accommodations to teamsters with freight or driving teams, having added to their stables large feeding and wagon room. Commercial Patronage Solicited.

THE DALLES

Wasco County, Oregon.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY. It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market. The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS. The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH. It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.

SHOE FACTORY

For Sale at a Bargain.

The undersigned, having secured the machinery and fixtures of what was intended for a first-class shoe factory, will sell the same at a bargain. Here is an engine and boiler of 40-horse power, and a large amount of shoe machinery, lasts, line shafting, pulleys, belting and findings—almost a complete shoe factory.

Here is also one of the best sites for successfully operating a factory of this kind to be found in this country. Write for particulars at once, to
