'I do not Eat Pastry.'

How often you hear this expression, and the explanation that usually follows: "I am troubled with dyspepsia." The explanation is not far to seek. In the past Lard has been used as the principal shortening in all pastry, the result—dyspepsia. The dyspeptic need no longer be troubled, providing

A YOUNG GIRL'S FATE

Burned to Death While Learning to Cook.

SHE WAS ONLY SIXTEEN YEARS OLD

A Comprehensive Strike on the Chesapeake & Ohio Railroad—Minor Mention.

WHITTIER, Cal., Oct. 2.—A girl burned yesterday, while cooking in the Whittier state school, died at 11 o'clock last night. Doctors L. U. Harvey and J. B. Cook were in constant attendance. Her mother arrived during the night from Los Angeles, where the funeral will take place this afternoon. There was no place on the body larger than two hands not burned. Miss Dewolf, the principal, was the first to control the girl, who was frenzied by pain and fright, and remove the burning remnants of clothing. The girl was 16 years old, bright, promising and a great favorite with the other pupils.

Troubles of Labor.

MEMPHIS, Oct. 2.—All the switchmen on the Chesapeake & Ohio road went out this morning, only one engine being worked. The coalheavers, wipers, section men and shop men are also out. The switchmen on the Louisville, New Orleans & Texas and Illinois Central refused to handle Chesapeake & Ohio cars and also went out. It is understood the Memphis & Chattanooga switchmen will strike today. The strikers say they will be joined by the switchmen of all roads entering here before night.

Cholera at Eau Claire, Wis.

Eau Claire, Wis., Oct. 2.—The 10-days-old child of Mr. and Mrs. Monson died Saturday afternoon. It turned black in a few hours. Attending physicians say the child died from cholera, and notified the district attorney and sheriff. Before they could hold an inquest, the Monsons buried the child in a cemetery. It is probable that the body will be disinterred. Physicians to whom the condition of the body and the symptoms have been described have no hesitation in pronouncing it a case of cholera. Eau Claire is on the path taken by emigrants to the Northwest. It is believed that the case came from germs left by these travelers.

A Rich Silver Mine.

SAN ANTONIO, Tex., Oct. 2.—Work has been commenced on the great wagon road which will connect the richest silver and lead mines in Mexico with Marathon, Tex. This mine is a solid mountain of ore 300 feet high and six miles long. At any point the ore can be taken out in almost solid lumps. It is situated three miles from the Rio Grande in Mexico, about 100 miles south of Marathon. The ore will be hauled to Marathon, the nearest railway point, and shipped from there to the company's smelter in New Mexico.

Troubles in Brazil.

LONDON, Oct. 2.—The Brazilian legation in this city today furnished the United Press the following information received in dispatches from the government at Rio de Janeiro, bearing date October 1st:

"The insurgent squadron, under command of Admiral Mello, is still in the bay of Rio de Janeiro with its fighting elements weakened. Many of the members of the crews of the rebel warships are deserting daily. During the recent engagement between the land forces and the fleet the shore artillery damaged some of the rebel vessels. Two steamers that attempted to land insurgents at Santos and on the island of Santa Catharina were repulsed. The land forces are united to the government. Public opinion is wholly opposed to the insurgents."

The Rebels' Story.

LONDON, Oct. 2.—A private cablegram announces that the rebel fleet at Rio de Janeiro bombarded that city all day yesterday, resulting in further damage to the city and great loss of life. Details as to the amount of damage and the number of killed ashore and afloat are not given; but it is presumed from the fact that firing was kept up all day the loss must have been considerable on both sides. The cablegram adds that famine prices for provisions prevail in Rio.

Will Be Shot in the Back.

BARCELONA, Oct. 1.—The approaching death of Pallas, the anarchist, who will be shot in the back next week, is being discussed throughout Spain. The police are well aware he has a number of sympathizers among a certain class of the population. This causes them to make a most thorough search for proofs of

further outrages contemplated. The police have found positive proof that Pallas had accomplices among foreign anarchists. An Italian named Mancini was arrested today charged with being an accomplice.

President Cleveland has signed the proclamation setting apart a large tract of land as a forest reservation, under the act of March 3, 1891. The reservation will be known as the "Cascade forest reservation." It extends from the Columbia river 200 miles southward, about 20 miles in width, taking in the Cascade range. Hereafter no settlement will be allowed within its boundaries.

ABSOLUTELY PURE

THE OLD MAN CONSERVATIVE.

Gladstone Will Go Slow in the Battle Against the House of Lords.

NEW YORK, Oct. 1.—Harold Frederic cables the Times from London: "Although politicians have talked with Roman firmness about continuing the battle of the parties in the country resolutely and at once, and making the whole recess vibrate with their oratory, nothing has come of it. Outraged nature asserts itself in spite of their ardor, for the people are tired and they will not listen, so it seems that there is a chance of having October devoted to the humanities and to amiable leisure, with nothing more exciting than a little pleasant chaff between the two camps. In the hush which has fallen upon partisan strife the only noise heard is the rattle of Gladstone's reel. As the big house-of-lords fish flash spiritedly away into open waters the radical onlookers are at no pains to conceal the feeling that the grand old angler is letting out too much line and playing the rod far too gently. They had hoped for a sharp, immediate tussle, and, by faith, could almost feel their hands on the gills of the peerage. But Gladstone was always conservative, always keen to do things in his own way. He thinks it better to go slowly. His speech in Midlothian was a wet blanket to those earnest captains who were for marching out and smashing the upper house forthwith. It has damped the radical powder right and left, like a sea mist. The liberal federated association had issued a flamboyant fighting appeal to the party, but Gladstone's speech took all the stiffening out of it, and an accident by which the printers shortened the last two words of the signature to "Federal Association," imported into the thing an element of the ridiculous which the opponents were not slow to jump at. Under these depressing yet amusing conditions the great advertised battle with hereditary privilege stands adjourned till November.

The Senate Threatened.

WASHINGTON, Oct. 1.—The following printed circular was received by every representative, senator and public official in Washington today: "There is a time in the affairs of men when patience ceases to be a virtue. Down with the United States senate, enemies of the people."

Although no skull and cross-bones headed the circular, the words were printed in large black ominous-looking type. The letters containing the circulars were post-marked New York.

NEWS NOTES.

Unsuccessful Attempt to Escape.

FORT SMITH, Ark., Oct. 1.—"Kid" Wilson and Henry Starr led an unsuccessful attempt to break jail today. They were assisted by John Pointer, Alexander Allen and Frank Collins, condemned murderers, and Charles Young and Jim Fair, negroes. They refused to go into the cells at dinner time, and the guard fired, shooting Young in the face, but not seriously injuring him. Pointer, Starr and William Wilson begged to be shot.
