THE DALLES OREGON

TOUCHES OF ART.

The French government has bought of W. T. Daumat, the American painter in Paris, his "Portrait of Miss E. H.," shown at the salon of 1885 and again at the Universal exposition of 1889. It will be placed at the Luxembourg.

The picture galleries of Rome are to be illustrated by "Braun" photographs with the carbon process. A selection of paintings, three hundred and twenty-four in number, will be issued in portfolios, with letterpress written by Prof. Venturi, director of the Royal museum at Rome.

The German sculptor, Josef Kopf, who lives at Rome and has a atelier in Baden Baden, has presented the contents of that studio to the grand duke of Baden with the request that they be kept as a museum for the citizens and guests. There are many paintings and tapestries besides the sculptures by Kopf.

A ROMAN tomb has been unearthed at Cologne containing the bones of a man, a silver sword handle with an inscription and an inkstand of bronze. The sword grasp is inlaid with gold and enamel, and the inkstand is rich in decoration. A coin of Gordian III. gives some clue to the period of the interment.

Farms in a Volcano.

Thirty miles from the city of Kumamoto, Japan, is the volcano Aso San, which has the largest crater in the world. It is more than thirty miles in circumference, and peopled by twenty thousand inhabitants. Think of walking for miles among fertile farms and prosperous villages, peering into schoolhouse windows and sacred shrines well within the shell of an old-time crater, whose walls rise eight hundred feet all about you. It gives one a queer feeling. Hot springs abound everywhere. In one place brick-red hot water is utilized to turn a rice-mill. The inner crater is nearly half a mile in diameter, and a steady column of roaring steam pours out of it. The last serious eruption was in 1884, when immense quantities of black ashes and dust were ejected and carried by the wind as far as Kumamoto, where for three days it was so dark that artificial light had to be used.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this remedy has been taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and greatly lessen its severity, and it's the only remedy that will do this. It acts in perfect harmony with nature and aids nature in relieving the lungs, opening the secretions, liquifying the mucus and causing its expulsion from the air cells of the lungs, and restoring the system to a strong and healthy condition. No other remedy in the market possesses these remarkable properties. No other will cure a cold so quickly. For sale by Blakeley & Houghton.

When they want your trade their announcements will be found in the paper. Look over our columns and observe the verification of the truth of this assertion. Remember, a trade of a family of two thousand is worth asking for through these columns, especially so at our very

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.
