THE DALLES OREGON

ABOUT TREES.

A curious tree growth is noted near Ellenville, N. Y., where a hemlock and an oak have become perfectly joined at a height of about ten feet.

Or all living things, trees, perhaps, are capable of longest life. English yews and California redwoods are supposed to have lived one thousand years, and there are cedars of Lebanon which may possibly date back to the Christian era.

A curious tree growth has been noticed in Key West, Fla. The date palm is growing from the hollow of an Indian fig or banyan tree, and is apparently supported by the rootlets of the fig tree, which clasp the date for some distance. The banyan is a small one, having only three trunks.

One of the peculiarities of the coconut palm is that it never stands upright. A Malayan saying has it that: "He who has looked upon a dead monkey; he who has found the nest of a paddy bird; he who has beheld a straight coconut palm or has fathomed the heart of a woman, will live forever."

STAGE NOTES.

In Shakespeare's time the prices of admission varied from a penny to a shilling.

Last season the Carl Rosa opera company made a profit of \$10,000, the first in several years.

MME. EMMA NEVADA has been engaged for a series of "star" performances at the Opera Comique in Paris next autumn. This is a most unusual compliment to an American prima donna.

MME. MOJESKA carries in "Henry VIII." a handkerchief which is said to have been the property of Queen Isabelle. The handkerchief is one of the rarest pieces of old Spanish lace in existence.

JANE HADING, the French actress, is said to be more beautiful off the stage than on. She almost always wears black on the street, being probably quite well aware that it sets off her wonderful red gold hair, languishing eyes and pale, mobile face advantageously.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this remedy has been taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and greatly lessen its severity, and it's the only remedy that will do this. It acts in perfect harmony with nature and aids nature in relieving the lungs, opening the secretions, liquifying the mucus and causing its expulsion from the air cells of the lungs, and restoring the system to a strong and healthy condition. No other remedy in the market possesses these remarkable properties. No other will cure a cold so quickly. For sale by Blakeley & Houghton.

They read The Chronicle to get the latest and most reliable news. And they read every line that is in the paper. That is what makes the Chronicle an invaluable advertising medium. The newspaper that goes to the family fireside is the one that the advertisers of today patronize when they desire to reach the people. When they want your trade their announcements will be found in the paper. Look over our columns and observe the verification of the truth of this assertion. Remember, a trade of a family of two thousand is worth asking for through these columns, especially so at our very

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly elevated streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 100 square miles of the best cedar and fir timber, possessing millions of horse power in its rushing streams and waterfalls, easily harnessed. Where clean motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.

Wasco County, Oregon,

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.
