The Yakima Republican delights in a 36-pound pumpkin. Why, bless you, brother, you should see some of the Wasco county pumpkins. Two were exhibited at the fair here, one weighing 108 and another 113 pounds. A 36-pound pumpkin would be a pigmy in comparison.

In giving the account of the arrest of a tramp, the Albany Democrat says: "Upon being searched a handsome ladies gold watch chain was found in his possession. GIRLS ON A TRAMP.

They Relate Some Startling Experiences to a Baker Reporter.

Two girls who looked very much like the breaking up of a hard winter walked into the Baker City depot hotel Saturday night and asked for a night's lodging. One wore a red waist and a polka-dotted dress, the other was in plain proximo white. They did not carry all the marks of every town between that place and Chicago about them, but they were travel-stained, with that stain of train which comes to those who go by the box-car and steamer route. And yet in a way they had the appearance of attempted tidiness, but the odds were too strong against them.

The names given were Camilla Hanson and Betsy Cody. The tale told by the young women is a startling one. The two are tramps; they are feminine Hungry Hawkines, with all the attributes of a painstaking tramp. They tell a very interesting story, which is related by the Baker City Democrat as follows:

Four weeks ago, according to the story told by Betsy Cody, they started out from Chicago for the wild and woolly west, where Betsy asserts she has a brother who owns a farm. Chicago was a little too wicked for them, so they started for this section, where even homely virtue is appreciated.

"We managed to get on a coal car which had two hand cars in it," Betsy said in relating their adventure. "By and by a brakeman came along and wanted money from us. We had none and then he talked bad to us, and we got off as soon as the train stopped at the next station. There was no train for the west, no freight train until evening, and so we walked awhile and on the way struck a farm house for something to eat and got the run. We got some corn out of a field and ate it for supper. We slept in an outhouse that night and the next morning got on a freight car just behind the engine, where the sparks and smoke nearly killed us. The men saw us and told us we could ride in the way car, so we went back there.

"At Peoria we struck the salvation army, and were taken in by a woman soldier, who gave us something to eat. From Peoria we took a box-car to Galesburg, and from there we had the luck to strike a freight train and rode in another box-car all the way to Cheyenne. We didn't have to make so many stops from this time on, but came right through to Weiser City, Huntington, and here we are in Baker City."

Died of Consumption.

A half-breed Indian named Simpson died on the Regulator Saturday evening while en route to Toppenish, Wash. He came from Vancouver and was accompanied by his Indian wife. He was in the last stages of consumption, with which he has been affected for nine months. A telegram was received from his father, who is chief of police of the Yakima reservation, to hold his body here until his arrival, and it is expected he will be here tomorrow morning. Dr. Hollister was summoned, but he was already beyond reach of medical aid.

"During my term of service in the army I contracted chronic diarrhoea," says A. E. Heneing, of Halley, Oregon. "Since then I have used a great amount of medicine, but when I found any that would give me relief they would injure my stomach, until Chamberlain's Colic, Cholera and Diarrhoea Remedy was brought to my notice. I used it and will say it is the only remedy that gave me permanent relief and no bad results follow." For sale by Blakeley & Houghton.

Music Travels 500 Miles.

The new telephone line was put to a novel use Saturday night. The guitar and Mandolin club played for two hours and a half, to the edification of listeners in Portland, Salem, Independence, Albany, Seattle and Tacoma. They pronounced the music superb and thought it was an orchestra of at least nine pieces, mistaking the bass strings of the guitar for a tuba, and other effects of a similar kind. The club were rewarded by some sweet voiced singer of Salem who gave them "After the Ball" in splendid style. The clapping of hands and remarks of the distant audience were plainly heard and all that was required to make them seem present was their actual visible presence, and Edison is working to overcome this difficulty, though he says it is hard to find a material that will respond to the waves of light, as they are so much more intense than those of sound.
