OCTOBER OLIO.

A Savory Mess From Miscellaneous News Bits.

One sweetly solemn thought Comes to us with a grin. That Emin Pasha, as like as not, Will come to life again. Will he alive and strong, No wheels within his head, Till some reporter comes along To tell us he is dead.

Two vagrants were given quarters in the city jail last night.

Lyonel Stange is now engaged at the First National bank at Spokane.

Mr. Chas. L. Richmond has taken sole charge of the Richmond livery stables again in the East End.

There is a great deal of wheat coming into market that is rejected on account of it being too damp.

The young Denny pheasants are acknowledged to surpass in toothsome-ness the native grouse or pheasants.

The Columbia Wheat Co. yesterday purchased 2,500 sacks of wheat, which have been delivered on the beach.

Butler & Co. shipped 1,200 head of sheep yesterday and today, instead of Faragher, as erroneously stated yesterday.

The Mignonette club will not hold a whist party Friday evening. The usual dancing party will be given one week from that night.

The Campbell Bros. are not handling any ice business, as they advertised. They tried to freeze me out of my business and bread and butter, but their little game did not work. CHAS. E. ALBISON.

The county jail was recruited today by the arrival of Thos. Pryor of Cascade Locks, who was sent up by Judge Candiana for larceny of some of Day Bros.' checks. He was bound over to appear before the grand jury.

News comes from the Palouse country, especially in the vicinity of Rosalia, that nearly all the threshers have started up, and every available man is working in the harvest field or threshing machine. The stacks are still very wet on the top, but they are pitching off the top and using it for feed, and in most cases the balance is all right.—Walla Walla Statesman.

A number of race horses left on the Regulator this morning in care of Mr. A. M. Allen, to be present at the winter meeting of the Pacific Coast Blooded Horse association to open shortly in San Francisco. These are Champagne and Cora J., owned by Dave McAtee, Heppner; Rockland Boy, J. P. McInerney; Sireta, J. O. Mack; Joe Woods, Dan. Maloney.

Shiloh's Vitalizer is what you need for dyspepsia, torpid liver, yellow skin or kidney trouble. It is guaranteed to give you satisfaction. Price 74c Sold by Snipes & Kinsley, druggists.

Cobweb Party.

A few friends were pleasantly entertained at the home of the Misses Michell last evening, the occasion being a "cobweb" party. A number of prizes were fastened at the ends of as many strings woven in the manner of a cobweb through the different rooms. The guests unwound the strings and captured their booty. Other social features were music and a lunch, and the evening was merrily passed. Those present were: Misses Mary Frazier, Anne and Bessie Lang, Elizabeth FitzGerald, Maie Williams, Ursula and Louise Ruch, Virginia Marden, Matilda Hollister, Messrs. H. Lonsdale, F. Faulkner, G. Snowden, F. Reid, M. Jameson, E. Williams, S. Campbell, J. Hampshire.

Mr. Harriman's Grain.

Mr. W. J. Harriman of Dry Hollow, one of the leading farmers of the county, brought in today a six-horse load of Walla Walla club wheat and stored it at Moody's warehouse. This wheat is some of the finest that has come into town this season. It turned out several bushels to the acre more than Little Club this year. Mr. Harriman raises the new Archangel oats.

Liberty School.

Mr. F. S. Isenberg, an enterprising young man from Hood River, is teaching the Liberty school. The pupils of this school decided the other day to have a school paper. They named it The Liberty School Herald and selected Miss Mary Underwood editor and Miss Ada Bell principal reporter. The teacher, of course, is associate editor.

Perhaps some of our readers would like to know in what respect Chamberlain's Cough Remedy is better than any other. We will tell you. When this remedy has been taken as soon as a cold has been contracted, and before it has become settled in the system, it will counteract the effect of the cold and greatly lessen its severity, and it's the only remedy that will do this. It acts in perfect harmony with nature and aids nature in relieving the lungs, opening the secretions, liquifying the mucus and causing its expulsion from the air cells of the lungs, and restoring the system to a strong and healthy condition. No other remedy in the market possesses these remarkable properties. No other will cure a cold so quickly. For sale by Blakeley & Houghton.

A Chinaman Kills Another.

The Telegram gives the news of a Chinese murder in Pendleton Tuesday night.

A Chinaman named Coon Sing stabbed another named Charley. Sing is the proprietor of a wash-house on Main street and Charley was one of his employees. Charley asked Sing for some money. Sing refused, and then hot words ensued, scaring the rest of the Chinamen so that they hustled out into the street, while a crowd of white men were attracted just in time to see Charley murdered. After scuffling and swearing for a minute or two, Sing quickly drew a Chinese dagger and plunged it with full force deep into the breast of Charley and through his heart, killing him instantly. Instead of trying to escape, Sing took the matter very calmly and went alone to the sheriff's office and surrendered himself. He claimed that Charley was as much to blame as himself, and would have killed him instead if he had not been the quicker of the two.

PERSONAL MENTION.

Mr. T. H. Johnston of Dufur is in the city today.

Mr. W. Lord left last night for Waterville, Wash., to be absent several days.

Mr. John Hampshire left this morning for a duck shooting at White Salmon.

Mr. F. G. Connolly went down to the new town of Stevenson, Wash., this morning.

Dr. V. Gesner of Prineville was a passenger on the Regulator this morning for Portland.

Mr. J. C. Lucky, of Warm Springs Indian Agency, left this morning for Portland.

Mr. and Mrs. J. W. Moore left this morning by steamer for Corvallis, where they will visit their daughter who resides in that city.

Mrs. R. F. Gibbons and Mrs. John Marden were passengers on the Regulator this morning for White Salmon, where they will visit Mrs. J. R. Warner.

Mr. A. J. Ward of Goldendale favored this office with a call today. He confirms all former reports concerning the damage done the grain by the late rain in Klickitat county, and says the loss will be severe on the farmers.

Ex-Mayor DeLashunt of Portland arrived in the city last evening and will return in the morning. The gentleman has extensive mining properties near Wardner, and at the present time has 150 men employed. He does not consider mining prospects very favorable, that lead is low on account of the prospective changes in tariff, and silver just now is about as unstable a metal as can be found.

Dr. Rinehart, who was taken to La Grande Tuesday evening, stood the trip fairly well. Word was received from there this morning that he was resting easily and hopes were indulged that he would recover. The sympathy of everyone is with the doctor and his family in the time of distress and news from the sickbed will be eagerly sought. The community has no better citizen in its midst nor the medical profession a truer disciple than Dr. Rinehart, and he is one who can ill be spared from the work that is his.

"I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy." J. J. LaGrange, druggist, Avoca, Neb. 50 cent bottles for sale by Blakeley & Houghton.

IN NEW QUARTERS.

The Electric Light Company Installed Down in Town.

The Electric light company have finished moving their machinery and fixtures in their handsome new building between First and Second streets, which is an ornament to the city. It is of handsome design, commodious and its exterior is covered with corrugated iron. The interior is divided as follows: Office 15x15; shop 38x15; store room 42x15; machinery room 80x32; boiler room 28x40. A brick wall separates the boiler room from the main building.

There are two Edison dynamos, each capable of maintaining 820 16-candle power incandescent lights, and one Thompson-Houston dynamo, with a capacity of fifty 2,000 candle power arc lights. The engine is a Lane & Bodley Corliss, 225 horse power. The new Ames boiler has a capacity of 125 horse power and the old one 100, which can and will be used jointly to furnish steam for the engine. The quality of the lights has been improved since the change was made, although Manager McArthur has not completed the work of arranging the wires, and within a day or two the lights will all shine with great brilliancy.

The last of the machinery was put in place yesterday and the old boiler will be put in at once.

An Apoplectic Seizure.

Mr. Geo. F. Beers was taken with an apoplectic seizure this morning, and serious apprehension is manifested as to his recovery. Mr. Beers was apparently in the best of health and spirits and the suddenness of the blow was especially sad. After breakfast this morning, while buttoning his wife's shoe, which is a domestic custom with him, he seemed to experience a difficulty as if he could not see plainly, which caused Mrs. Beers to question him as to what was the matter. He tried to reply, but no word passed his lips and he has not spoken since. It was at first supposed he was affected with lockjaw, but it later developed that he was stricken with apoplexy. Dr. Logan was summoned, but can give no opinion as to whether he is apt to recover or not. Mr. Beers had a light stroke of apoplexy some years ago. He was a former partner of Mr. S. L. Brooks, the latter disposing of his interest in 1891, since which time Mr. Beers has been at the head of The Dalles Mercantile Company. He is well known all over this section of the state, and all of his acquaintances will be pained to hear of his sudden serious illness.

WHERE THE LORDS MEET.

Palatial Quarters of the Titled Legislators of England.

What specially strikes a visitor on entering the house of lords for the first time is the rich splendor of the chamber, says the New York Herald. It is a noble apartment, one hundred feet long by forty-five broad and forty-five high, splendidly adorned and carved, lighted by twelve richly decorated windows. All round run galleries, protected by handsome brass railings. The end gallery is that set apart for the use of strangers. It has the press gallery just in front. The galleries that run along the sides are for the use of distinguished personages. When the princess of Wales and other ladies of the royal family attend to hear the debates they invariably view the scene from the alcove of the gallery to the left of the throne. The throne itself is a richly gilt chair, directly facing the strangers' gallery. It stands on a slightly raised dais and is divided off from the rest of the house by a handrail. From this part of the chamber peerage councilors and the sons of peers who have the entree usually watch the proceedings, and on the night of any great debate many members of the house of commons also may be seen here.

The seats in the house of lords are arranged much as in the lower house, except that rows of cross benches face the woolsack. It is there that the prince of Wales and the dukes of Edinburgh, Connaught and Cambridge ordinarily sit, this part of the house indicating independence of political allegiance to either of the great parties. Occasionally some noble lord who may have broken with his party finds a temporary seat here, too, as Lord Derby did in the session of 1879. The lord chancellor, who acts as speaker or chairman of the upper house, sits in front of the throne on the so-called woolsack. This is really a sort of ottoman, and a seat compared with which an armchair such as the speaker of the house of commons is allowed must be luxurious case. The peers of the ministerial party sit to the lord chancellor's right; those in opposition to the left. By a curious custom in the procedure of the house, whenever the lord chancellor speaks in debate, he has to step two paces to the left of, and away from, the woolsack—an odd idea, for it places him—a member of the party in power and a cabinet minister—on the opposition side of the house.

SCIENTIFIC EXPERIMENTS.

By mixing a saturated solution of carbonate of soda with ordinary carmine ink, red lines may be successfully drawn on blue prints.

On a clear day an object raised one foot above a level can be seen 1.31 miles; one ten feet high, 4.15 miles; one twenty feet high, 5.86 miles, one 100 feet high, 13.1 miles, and one a mile high (as the top of a mountain), almost 96 miles.

Turn the convex side of a watch-glass upon water so as to leave a drop hanging on the glass. Pour a little ether into the concave side and blow upon it. The rapid evaporation of the ether will render the glass so cold that the drop of water will be frozen.

ENTIRE combustion of smoke is secured by a German invention by an entirely new process. The coal is pulverized by machinery and injected into the furnace by an automatically regulated current of air. The carbon is said to be entirely consumed and there is no smoke and no ash. Besides, the fire is under complete control and can be instantly started or cut off.

Like a Thief in the Night Consumption comes. A slight cold, with your system in a scrofulous condition that's caused by impure blood, is enough to fasten it upon you. That is the time when neglect and delay are full of danger.

Consumption is lung-scrofula. You can prevent it, and you can cure it, if you haven't waited too long, with Doctor Pierce's Golden Medical Discovery. This is the most potent blood-cleanser, strength-restorer and flesh-builder that's known to medical science. For every disease that has to be reached through the blood, for Scrofula in all its forms, Consumption, Weak Lung, Bronchitis, Asthma, and all severe, lingering coughs it is the only guaranteed remedy. If it doesn't benefit or cure, you have your money back.

The proprietors of Dr. Sage's Catarrh Remedy know that their medicine perfectly and permanently cures Catarrh. To prove it to you, they make this offer: If they can't cure your Catarrh, no matter what your case is, they'll pay you \$500 in cash.
