#### OCTOBER OLIO.

A Savory Mess From Miscellaneous News Bits.

I would not have the vanished day come back from Time's great shore for then, you know, I'd have to pay the bygone bills once more.

Albert Valentine, the runaway, has been recaptured and placed in the county jail.

There will be services in the Congregational church on Sunday morning at 11 o'clock, Rev. C. F. Clapp of Portland officiating.

Mr. Albert Allen brought into the Sultana & Co. stock yards this afternoon the 40 head of beef cattle that were in pasture on 8-Mile, and the owners, Messrs. Rand & Co., will ship them to Omaha.

Mr. J. C. Crandall was re-elected secretary of the Northwest Funeral Directors association. The other officers are: President, E. R. Butterworth, of Seattle; first vice-president, D. B. Vanball, of Dayton, Wash.; second vice-president, C. S. Hoska, of Tacoma; treasurer, F. S. Dunning, Portland; board of directors, R. S. Holman, of Oregon City; Jasper Fuller, of Vancouver, Wash.; John Garmold, J. R. Finley and F. S. Dunning, Portland.

A short but exciting runaway took place this afternoon. Henry Staagman's four horse team, attached to a heavy wagon took fright while standing in front of Prinz & Nitschke's furniture store, and ran down the street one square colliding with August Deckert's light rig at the Red Front grocery. The heavy wagon turned over, wheels up, the spokes of one front wheel being broken completely out. The tongue of Deckert's spring wagon was broken off and one of his horses sustained a flesh injury on a hind leg. Both gentlemen are considerably damaged by the event.

#### Company Organized.

A mass meeting was held in the court house last evening for the purpose of organizing a company of the National Guards. Col. Thompson was present as mustering officer and forty-three enlisted. The election of officers resulted in the selection of L. C. Ohlman, captain, Dennis Bunnell first lieutenant, and J. R. McAvoy second lieutenant. The company selected for their title the initial G. Others will enlist and it is expected the company will recruit their numbers up to about 65 men. The term of enlistment is three years. While they may never be called upon to engage in active service the discipline will be invaluable. A knowledge of military tactics should be possessed by every loyal citizen of the land.

#### Dr. Doane and Wife Returns.

Dr. O. D. Doane and wife returned this morning from the east, after an absence of nearly six weeks. After leaving The Dalles on Sept. 11th, they went to Milwaukee, to attend the sovereign grand lodge of Odd Fellows, to which the doctor was a delegate. After a very pleasant session they left on the 23d for Chicago, staying until Oct. 11th visiting friends and sight-seeing, when they started homeward. Like all Oregonians who have visited the fair, the doctor deplores the fact that Oregon has no state building, though it is well represented in the various general buildings, where the exhibits excite favorable comment. Especially in the horticultural building the exhibit is excellent. The educational exhibit is equal to the best of any in the state. There is also a very creditable showing in the fisheries building. The state is also well represented in ornithology, the Denny pheasants finding a conspicuous place. The doctor was greatly surprised that in the whole number of days he was at the fair he never saw a drunken man and heard no profane language, and the crowds numbered any day in the hundred thousands. Very little swindling takes place on the grounds, owing to the large number of guards, as besides the 1,400 Columbian there are great numbers of detectives in citizens clothes, and all tough characters are spotted at once. The doctor and his wife are glad to be at home again, and have a large number of souvenirs to remind them of their visit to the great Columbian exposition.

#### Repays a Loan.

When in jail at Ellensburg, Cal. Hale, falsely accused of the Roslyn bank robbery, wrote to Frank O'Hara, of Pendleton, for a loan of \$300 to enable him to defend the case. Cal had no security to offer, but Frank sent the money and received the prisoner's note. The note fell due on the first of this month. Cal Hale, although Detective Sullivan and the rest deemed him a desperado, bank robber and villain, is in reality an honest well-meaning man of work, and when he found that he could not pay the note did all that was possible to insure his friend in need against loss. Yesterday he arrived in Pendleton, says the E. O., from Wasco county and gave a bill of sale to Frank O'Hara for all his horses. Six work horses he brought with him, and the remainder, twelve head of colts, he will winter for Mr. O'Hara at his Wasco county ranch. Cal Hale, "the notorious outlaw," the "king of outlaws," is now worse than bankrupt, all because of the crime laid at his door of which he was proven innocent; that's all. He has no means of redress for the weary months spent in jail and the loss of everything he possessed.

#### Boy Tramps.

Charles and Frank Williams, aged 12 and 13 years respectively, are the latest occupants of the city jail. The older of the two is minus a leg above the knee. Both are very dirty and ragged and were intercepted by an officer while coming in on a freight train. The boys say they lived about 25 miles this side of Chicago, and about ten days ago left for Portland, where they claim an older brother lives, who is a wiper in the shops. They have lost their parents and have earned a livelihood blacking boots. They are bright little Arabs and seem to need the refining influences of civilization more than anything else. Their case is being considered by Judge Blakeley.

#### MARKET REPORT.

Continued Good Weather Stimulates Trade--Prices Looking Up.

FRIDAY, Oct. 20.—The settled clear weather has had a stimulating effect on business and a marked degree of activity has characterized trade in general lines. Prices continue about the same in all staples. The provision, in connection with the produce market, has experienced some changes, especially so in the produce line.

Eggs are very scarce and find a ready sale at 25 cents per dozen.

Butter remains steady on former quotations.

Potatoes arrive more freely and are quoted at 50 to 60 cents per sack. Onions are in good supply at 1 1/4 to 1 1/2 cents per pound. Cabbage 1 cent per pound.

Fruit is in fair delivery and apples sell at 35 to 50 cents per box, according to quality.

Pears—Fall Butter, Flemish Beauty, and like kinds are quotable at 40 to 65 cents per box.

Pop corn is in limited supply, but sells at three to four cents per pound.

Poultry is in better supply, with former prices paid.

The live stock market is unsteady, owing to uncertain deliveries and the demand for export.

Beef cattle range from \$1.65 to \$1.75 per 100 pounds for dry cows, and \$1.75 to \$2.25 for steers. Prime lots may be quoted at \$2.12 1/2 to \$2.25 gross.

Mutton sheep range from \$1.75 to \$2 per head, with a large reserve in sight.

Fat hogs for the block are quoted at 4 1/4 per pound gross for light and 4 1/2 cents per pound gross for heavy.

The cereal market is very heavy and is said to be off as far as transactions are concerned. Barley is very dull, and 65 cents per cental is the outside price. Oats are dull, as the market is well stocked, and 85 cents to \$1 covers the range of quotations.

Wheat is arriving freely, mostly for storage, although some is being sold. The Columbia Wheat Company are buying all that is offered, which is strictly merchantable and will bear shipping. A large quantity offered is badly shrunken and some is damaged by moisture, which is rejected in all cases.

The wheat market abroad presents a healthier tone and in Europe there is a firmer tendency. Yesterday Chicago dispatches indicated a slight improvement over the day before. The bears have control over the situation, but the bulls think they will conquer at an early day. In San Francisco May delivery quotations continue steady at \$1.26 1/2 to \$1.26 3/4 per cental. In Portland there is no change in the condition of the market. The old quotation of 85 per cental for Walla Walla and 90 to 95 per cental for valley is maintained. Our own market quotations vary according to quality. No. 1 is quoted at 45, No. 2 at 43 cents per bushel.

#### Trials of the Farmers.

A gentleman from Sherman county, who was in the city last evening, informs us that the condition of the untreshed wheat is anything but hopeful. He says the late spring, followed by early fall rains, was the cause of the late harvest, and the scarcity of harvesting machinery to meet the requirement for the harvesting of the grain, which ripened about the same time, caught the farmers in a straitened condition and the result is that nearly half of their grain is spoiled and not half of the farmers will see themselves out whole, but he left nearly bankrupt, as they depended on their crops to help them out of debt. The best of their wheat only sell at the stations on the railroad at 32 to 34c per bushel. In some instances the farmers have settled on railroad land and have improved and made homes who under the existing law requiring payment January 1st, 1904, will be unable to do so. Congress ought to extend the time for payment another year, as the government can better stand it than the people who have taken the chances of meeting the requirement and lost through storms, etc.

#### Butterine.

Butterine, or oleomargarine, as it is technically called, has for several years been extensively used in the leading hotels, restaurants and private families of Europe and America, and is so favorably considered that a statement of the method of its manufacture, and the materials of which it is composed, cannot fail to interest.

Butterine is composed of butter, butter oil, neutral lard and oleo oil.

Elgin creamery butter and butter made at the factory daily are the milk products used in butterine.

Butter oil is made by pressing the oil from American cotton seed. It is a pure, nutritious vegetable oil, which is used in small quantities to soften the texture of butterine.

Neutral lard is pure, chilled leaf lard, cooked at a low temperature, and is then put into a bath of pure cold water for about 48 hours, which removes all flavor, leaving a perfectly neutral material.

Oleo oil is made from the choicest fat of beef cattle, chilled in ice water, then melted at a temperature of 140° Fahr. From this is pressed a perfectly soluble oil known as oleo oil, which is the only beef product used in butterine.

The above named ingredients, when properly combined, salted and worked the same as butter, form what is known as butterine, which is one of the purest and most wholesome articles of food in general use.

The Union Stock yards have an exhibit of butterine at the world's fair.
