J. F. FORD, Evangelist,

Of Des Moines, Iowa, writes under date of March 23, 1893:
S. B. MED. MFG. CO., Duffer, Oregon.

Gentlemen:
On arriving home last week, I found all well and anxiously awaiting. Our little girl, eight and one-half years old, who had wasted away to 38 pounds, is now well, strong and vigorous, and well fleshed up. S. B. Cough Cure has done its work well. Both of the children like it. Your S. B. Cough Cure has cured and kept away all hoarseness from me. So give it to every one, with greetings for all. Wishing you prosperity, we are Yours, Mr. & Mrs. J. F. Ford.

If you wish to feel fresh and cheerful, and ready for the Spring's work, cleanse your system with the Hoarseness and Liver Cure, by taking two or three doses each week.
Sold under a positive guarantee.

WAKE UP.

If you wake up in the morning with a bitter or bad taste in your mouth, Languor, Dull Headache, Despondency, Constipation, take Simmons' Liver Regulator. It corrects the bilious stomach, sweetens the breath and cleanses the furred tongue. Children as well as adults sometimes eat something that does not digest well, producing Sour Stomach, Heartburn, Restlessness, or Sleeplessness—a good dose of Regulator will give relief. So perfectly harmless is this remedy that it can be taken by the youngest infant or the most delicate person without injury, no matter what the condition of the system may be. It can do no harm if it does no good, but its reputation for 40 years proves it never fails in doing good.

The Daily Evening Chronicle is recognized as essentially the home paper for the Dalles City folks. This is not a bad reputation. Some 2,000 of our best citizens watch the columns of this paper daily for the spiciest local news. It succeeds in gaining the field, and hence grows in popularity and importance. Take it awhile, you who don't try some of its premium offers.

TWO MORE NEEDED

Managers of the Compromise Measure Confident of Its Passage.

AMENDMENT OF VOORHEES' BILL

The Silver Men See in it an Excuse to Prolong the Discussion.

WASHINGTON, Oct. 21.—When the democratic steering committee of the senate had completed its sittings today, 37 democratic senators had pledged themselves to support the committee's compromise repeal measure, and the managers felt assured of a sufficient number to bring the total up to 41, leaving only two more necessary to insure the passage of the bill by democratic votes. The senators holding out against the bill are said to be Mills and Vilas, of the repeal bill side, and Irby, of the silver side. Some of the repeal men have not as yet actually attached their names to the pledge, but the committee expects to secure the names of all democratic senators, and will rush the bill through as a party measure and without calling upon the republicans for help. Most of the republicans hope the democrats will succeed in this, for the bill is one which does not commend itself to either the repeal or silver faction in the republican ranks. The repeal men are pleased only with the clause limiting silver purchases to a year, while the silver men find in this a reason of hope for a further extension of silver purchases, and think it better than an unconditional repeal.

AS AN AMENDMENT.

The committee's recommendation will be put in the shape of an amendment of the Voorhees bill, and will probably receive the support of most of the silver republicans as an amendment, while the bill will, as amended, be opposed by them. This is a probability against the passing of the bill. It seems more than probable that if the democrats secure the concurrence of their entire party in the senate, the republicans will make no effort at united action. The silver men, if all parties are pleased, will accept the bill. As at present arranged, the bill will expire in the midst of the next congressional election, and probably there will be an effort to amend the amendment extending the purchasing time a year. The silver men think it possible they may secure sufficient republican support to put this through; but, all circumstances considered, it is scarcely probable. One of the advantages which the silver men find in the committee's amendment of the original bill is that it gives them ground to stand on while the silver fight shall be waged in the future. They say the entire silver fight in reality has only begun; that the present bill is only a stipulation for a brief time, and that it will be presented vigorously in the regular session.

Outside the Pale of the Church.

CINCINNATI, Oct. 21.—A private dispatch received in this city yesterday states that the New York synod of the Presbyterian church has not only refused to reopen the case of Professor Briggs, but declined to send a visiting committee to Union seminary, thereby ignoring the institution altogether and placing it outside the pale of the church. No such action was ever before taken against a seminary.

NEWS NOTES.

Saturday was Manhattan day at the world's fair. The estimates place the number of visitors from New York at 20,000.

It is announced that "Lucky" Baldwin is to soon retire from the turf and to dispose of his racing stock, except some 2-year-olds and a few others, which he will retain for breeding purposes.

At the W. C. T. U. convention Mrs. Thurber, a colored delegate from Jackson, Mich., moved that a department of colored work be established, with a colored woman as superintendent. The motion carried.

Great progress is being made in the progress of the midwinter fair buildings. The mechanics' arts building is expected to be finished and ready for occupation by December 1st. The brick walls of the fine arts building are two-thirds up, and the interior finishing will commence in a few days. The agricultural and horticultural building is now being roofed, and the walls of the manufacturers and liberal arts building are rapidly approaching completion.

Shiloh's Vitalizer is what you need for dyspepsia, torpid liver, yellow skin or kidney trouble. It is guaranteed to give you satisfaction. Price 74c Sold by Snipes & Kinerly, druggists.

MITCHELL NEWS.

The Grain Market—Mitchell Represented in Court—Minor News.

A very heavy rainfall the night of the fifteenth.
R. M. Roberts is gathering beef cattle for the Portland markets. He is giving sixteen dollars for two year olds.
Snow fell to the depth of several inches in the mountains last week and cold enough to remind us winter is near.

Last week McCoy started ninety head of beef cattle to market. They were an extra fine lot and he hoped to realize a nice profit.
Rev. Mr. Gregory has been appointed pastor for Shoofly and Mitchell. He delivered his first sermon at this place the evening of the 15th.

Fossil farmers sent an agent to Mitchell to try and sell wheat which they offered at 60 cents per bushel, but owing to the scarcity of money no sales were made.

Mitchell flour holds its own in price, five dollars per barrel, notwithstanding the fall in the price of wheat and hard times.

Prices of grain run below average as compared with prices of a year or two since. Barley and oats \$1.25, wheat 60 cents and rye \$1.00 per bushel. Hay is selling from \$6 to \$10. Generally hay has been one of the best crops, timothy a very good average, alfalfa extra good. This part of the country seems to be especially well adapted to alfalfa. We are always sure of the two good crops and if a favorable fall, three crops are not unusual.

Court in Prineville set today and as is usual Mitchell is well represented. Volna Shrum was arrested and taken to Prineville to stand trial for stealing a sheep camp. Perhaps next issue will give a detailed account of the affair, since particulars are not known at present.

Dr. Hauk has taken the building craze. His story and a half cottage already shows its form in its almost completed frame. Another bad financial year and Mitchell will be a place of some note. Four new dwellings and two new stores for this year, already. E. P. E. MITCHELL, Or., Oct. 17, 1893.

Dropped Dead While at Work.

BAKER CITY, Oct. 21.—Last evening Mrs. L. W. Meier, residing near Express, Baker county, fell dead while doing her housework. Deceased had been in the best of health, and had not even complained of feeling sick. The funeral occurred at Express today. She leaves a husband and three children. It is supposed that death was caused by the bursting of a blood-vessel.

The Baker City Pottery Company will soon begin the erection of a large kiln here for the purpose of manufacturing all kinds of pottery.

A marriage license was granted today to Mr. Frank Blaker and Miss Eva Hendricksen, both of The Dalles.

Six points out of many where Dr. Pierce's Pleasant Pellets are better than other pills:
1. They're the smallest and easiest to take—little sugar-coated granules that every child takes readily.
2. They're perfectly easy in their action—no griping, no disturbance.
3. Their efforts last. There's no reaction afterward. They regulate or cleanse the system according to size of dose.
4. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned.
5. Put up in glass—are always fresh.
6. They cure Constipation, Indigestion, Bilious Attacks, Bilious Headaches and all derangements of the liver, stomach and bowels.

I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy." J. J. Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

AN UNPLEASANT COUNTRY.

Some of the Objections to Living in Northern Borneo.

The northern half of the island of Borneo is the queerest and most unsatisfactory place to live that one can imagine, thinks the St. Louis Globe-Democrat. It is a land of constant recurring phenomena, where cyclones are frequent and deluges of water very common. The vegetation in that half is very fine, but in all probability the wildest and most tangled on earth—not even excepting that of Africa. The cause of all the trouble is the shallow condition of the sea north of it, great shoals of sand existing a few miles out which extend along its entire northern length. These shoals are covered by a depth of water not over five feet deep. The constantly recurring winds that blow in that climate change to hurricanes and sweep the smaller islands of all visible life. When such a storm strikes the sand shoals north of Borneo it sweeps up the shallow salt water in its course and drenches the island with it. Often it gathers up sand, great masses of it, from the clear-swept shoal and whirls it for miles high over the island, carrying it into the island and scattering it everywhere. The work of these storms does not always end with that. Entire shoals of fish, of all sizes, have been swept up time and again by the fierce wind with the water and sand and scattered about Borneo. In some places the ground would be literally covered with fish, enough to supply a heavy population for weeks. But such luck is no reparation for the evil the winds do, and consequently the northern half will never be inhabited by those who value their lives.

A NEW ZEALAND WONDER.

Uncertain Whether to Class it as an Animal or a Plant.

The most curious of all objects in New Zealand, says Chambers' Journal, is that which the Maoris call "aweto." One is uncertain whether to call it an animal or a plant. In the first stages of its existence it is simply a caterpillar about three or four inches in length, and always found in connection with the rata tree, a kind of flowering myrtle. It appears that when it reaches full growth it buries itself two or three inches under ground, where, instead of undergoing the ordinary chrysalis process, it becomes gradually transformed into a plant, which exactly fills the body, and shoots up at the neck to a height of eight or ten inches. This plant resembles in appearance a diminutive bulrush; and the two, animal and plant, are always found inseparable. One is apt to relegate it to the domain of imagination, among dragons and mermaids; but then its existence and nature have been accepted by the late Frank Buckland. How it propagates its species is a mystery. One traveler, after describing its dual nature, calmly states that it is the grub of the night butterfly. If so, then the grub must also become a butterfly, or what becomes of the species? One would be ready to suppose that the grub does really so, and that some fungus finds the cast-off slough congenial quarters for its growth. But as far as present observation goes the grub never becomes a butterfly, but is changed in every case into a plant.

Yellow Fever Increasing.

BRUNSWICK, Ga., Oct. 21.—Four deaths and 49 new cases of yellow fever were officially reported today, the record-breaker of the epidemic.
