THURSDAY, - - - OCT. 26, 1893

The Daily and Weekly Chronicle may be found on sale at I. C. Nickelsen's store.

OCTOBER OLIO.

A Savory Mess From Miscellaneous News Bits.

Though we have won the yachting race, and gained the laurel crown, we will not brag too much of it. Not jump on those now down. Yet Dunneven has it squarely. The excuseable to how? Where the hatchet is reported to have fallen on the fowl.

An Indian got drunk on cider yesterday and was calaboosed.

A large number of people attended the opening of the auction sales last night at Harris' store. Prices ruled very low, but a large number of sales were made.

The Mignonette Dancing Club will meet this evening at 9:30 o'clock. The hour is made late because the Workmen have a meeting in the hall during the earlier part of the evening, but expect to be through by the hour named.

A large party from The Dalles will leave for the exposition in the morning. Many will stay up for the train, whiling away the time in dancing and merry-making, as the hour is particularly unreasonable for the average Dallesite.

The social hop to be given by the Chrysanthemum club next Friday evening will be postponed until next Tuesday for the dominion party to be given Halloween eve. The invitations issued for Friday's hop will be held for Tuesday evening, October 31st.

The Union whist club will meet at Fraternity hall every Wednesday evening at 8 o'clock, arrangements having been made to secure the hall for that evening. The first regular meeting will be on next Wednesday evening, Nov. 1st, and the club will be entertained by Judge and Mrs. Blakeley.

Frank Miller, who will make an ascension Saturday and Sunday, has followed his dangerous profession for seventeen years. He has had falls and broken bones, but says that he is never happier than when riding to and from the earth. It has become such a fascination for him that he would not relinquish it. Most balloonists get careless with time, but before every ascension he examines his balloon closely to see that it is not rotten and whole everywhere.

Notice of Dissolution.

Notice is hereby given that the co-partnership heretofore existing under the firm name of Williams & Teague is this day dissolved by mutual consent. All claims against the firm will be paid by J. H. Teague and all monies or accounts due the firm must be paid to J. H. Teague. The business will hereafter be conducted by J. H. Teague.

House for Rent. Six-room house to rent. Centrally located. Apply to H. GLENN.

KANGAROO COURT.

Strikes the Sheriff for 50 Cents Under Penalty for Non-Compliance.

OFFICE KANGAROO COURT. THE DALLES, OCT. 26. By order of the Kangaroo Court of the County of Wasco county:

To T. A. Ward, Greeting: You are hereby notified that an order has been made this day fining you fifty (50) cents, the same to be paid into said court by noon on the 26th day of October, 1893, to be used in purchasing tobacco for occupants of said jail.

This order is made because you fail to bring to this court men competent to pass examination, not one of whom has for some weeks past had sufficient money to pay the weekly assessment levied by this court.

Failure to comply with this order will be considered contempt of court and you will be dealt with accordingly.

MELL KULP, Judge. PETE STRONG, Doctor.

Attest: CHESTER COLE, Sheriff. By TOM PRIOR, Dep'y Sheriff.

A Stove that Burns Straw.

A straw burner is the latest novelty on exhibition in The Dalles by Messrs. Geo. Burlingame and Ralph Rowland. The straw is packed in a drum, which is attached to any cook stove or heater. It requires from eight to ten pounds to fill it, and lasts about from two to three hours. An even heat can be kept up and the fire can be thoroughly regulated by a damper. It is needless to say it was invented by a man living in a prairie state, a Swede by the name of Gortanner being the inventor, who lived in Dakota. If it acts in all respects as well as is claimed for it, it will be a blessing to many farmers in Crook, Sherman and other counties, who now have to haul their wood oftentimes seventy-five miles.

It is undoubtedly an improvement over the primitive method of burning straw in Iowa. Bundles of it were gathered, bound and twisted, and then it burned out so rapidly as to give rise to the widely-quoted remark that it required two twisters and a feeder to keep a stove burning.

Young America and the Parachute.

Young America of The Dalles, as has before been remarked, are progressive. Nothing in the show line ever visits the city without they get up a counterpart in miniature. They have become inspired with the recent parachute jump and have imitated it by tying the four corners of a handkerchief with pieces of cord and attaching a rock to where they join at the other end. They then wad it up and throw it in the air as far as possible, when it comes down as gracefully as a swan sailing on the bosom of a lake.

Mexican Silver Stove Polish causes no dust. Ask your dealer for Mexican Silver Stove Polish.

WOOD'S PHOSPHORINE.

The Great English Remedy. Promptly and permanently cures all forms of Nervous Weakness, Emotions, Sperratorrhoea, Impotency and all effects of Abuse or Excess. Has been prescribed over 35 years in thousands of cases. Is the only Reliable and Honorable medicine known. Ask druggist for Wood's Phosphorine. If he offers some worthless medicine in place of this, leave his dishonest store, inclose price in letter, and we will send by return mail. Price, one package, \$1; six, \$5. One will please, six will cure. Pamphlet in plain sealed envelope, 5 cents postage. Address: The Wood Chemical Co., 213 Woodward Avenue, Detroit, Mich. Sold in The Dalles by Blakeley & Houghton.

A Road Sample.

The first actual roadmaking test of the rock crusher is apparent now on the Union street cut, and about 100 yards of new made road may be seen by any visitor to this part of the city. The bottom strata is coarse rock, then follows two grades of finer, while the top layer contains no fragment larger than a walnut. It makes a first class road and if all the bad places in all the county roads were made like it, our farming community would soon be independently rich. The rock crusher, though not perhaps the most prominent citizen of The Dalles, as the Oregonian once facetiously termed it, is certainly among the most useful. May its erratic thumpings continue to disturb the serenity of the October air. In three days it has exhausted all the rock that has been thrown down so far.

PERSONAL MENTION.

Lem Burgess and wife are in the city. Mr. C. J. Bright, an attorney of Wasco, is in the city.

Miss Emma Jacobsen left for White Salmon this morning.

Mrs. Robert Densmore is visiting relatives in The Dalles.

Mrs. V. Meepie left on the Regulator this morning for Portland.

Sheriff Ward left for Wyeth this morning to subpoena witnesses.

Mr. S. L. Brooks took the steamer this morning for Portland.

Mr. Linus Hubbard departed this morning for his old Buffalo home.

Mr. W. J. Roberts, city engineer of Colfax, formerly of The Dalles, is in the city.

Mrs. Geo. Rowland and Mrs. Ainsworth left for the metropolis this morning by the boat.

Mr. and Mrs. H. Smith of San Lorenzo, Calif., who have been visiting Mr. and Mrs. J. B. Crossen, returned to their home Tuesday morning.

Mr. J. T. Peters returned from Portland last night. Mrs. Peters, who has been visiting Mrs. F. P. Mays at Portland, will arrive this evening on the Regulator.

Mr. S. E. Ferris will retire to Wapinitia Saturday for the winter to care for his stock, and in the spring will return to The Dalles, his home, and run the sprinkler again.

Mr. H. Corson is reported this morning to have improved somewhat. Feeling has returned to one arm and leg and he can speak. If he does not have another stroke he may gradually mend.

Six points out of many where Dr. Pierce's Pleasant Pellets are better than other pills:

1. They're the smallest and easiest to take—little sugar-coated granules that every child takes readily.

2. They're perfectly easy in their action—no griping, no disturbance.

3. Their efforts last. There's no reaction afterward. They regulate or cleanse the system according to size of dose.

4. They're the cheapest, for they're guaranteed to give satisfaction, or your money is returned.

5. You pay only for the good you get.

6. Put up in glass—are always fresh.

7. They cure Constipation, Indigestion, Bilious Attacks, Bilious Headaches and all derangements of the liver, stomach and bowels.

Board of Equalization.

The county board of equalization will meet at the court house on October 23d, 1893, for the purpose of equalizing the county assessment roll for this year's assessment. The board will continue in session one week. JOEL KOONTZ, County Assessor.

WOOD, WOOD, WOOD.

Best grades of oak, fir, and slab-cord wood, at lowest market rates at Jos. T. Peters & Co. (Office Second and Jefferson streets.)

HOPE FOR THE SETTLER.

Mr. Hermann's Letter to Capt. Lewis and the Prompt Reply.

From a letter received from Congressman Hermann dated Oct. 18th, there appears to be more hope for the relief of the settlers. The actual quotation is as follows:

"By a good hard tug I think it is probable that another relief for settlers can be gotten through. Mr. Ellis tells me that some people are protesting against another relief. Is this for the actual settlers only?"

Mr. Lewis has replied as follows:

"My dear Mr. Hermann—I was very glad to get your letter of the 18th inst., and to learn from it that there is a probable show for further relief for purchasers under the third section of the act Sept. 29th, 1890. God knows they need it."

The sheriff of Sherman county told me ten days ago that his people would lose \$300,000 on account of the unprecedented wet spell. The threshers have quit work and are housed up, with half the crop left standing in the fields or in stacks. A further extension for two or three years is absolutely necessary, and the repayment of the \$1.25 excess is a matter of simple justice.

If the new definition of settler (one who actually lives on the land) is to be accepted as final, any relief for actual settlers only would benefit a very small percentage. To illustrate: A settler claiming under act of Sept. 29th, 1890, makes homestead entry of one quarter section and at the same time applies to purchase under the third section of the act another quarter section, or 160 acres. How in the name of truth is he to prove actual residence on both quarter sections at the same time, especially if, as is the case in numerous instances, the two quarter sections are not contiguous, his proof of actual residence is confined to the particular quarter on which he seeks to make proof."

The answer of Capt. Lewis betrays the deep interest that gentleman is taking in the cause of the settler. No one is working with more zest, more efficacy and more speed than is our register, as will be seen from all his correspondence, which we have been permitted to publish. He has the facts well in hand, and applies them where they will do the most good. An intelligent congress, grasping the facts as they exist, and as represented by John Lewis, can do nothing less than grant the time asked for, and this it is evident Mr. Hermann has some reason to hope for.

EXPOSITION BOUND.

No. 1 Late--Hundreds of Excursionists--Cause of the Delay.

No. 1, west-bound, which should arrive about the time the festive cock throws back his head and braces himself for his first clarion call, did not pull up at the depot until 11 o'clock this morning. The train consisting of nine cars was crowded with travelers, most of them being excursionists to the Portland exposition. Seventy-five got on at Baker City, forty from La Grande, forty-two from Union, and forty-three from Huntington. Seventy-five from Spokane went through previously. The hotels were comfortably filled with guests, and many who rely on the regulation lunch basket amused themselves by perambulating the streets.

The delay of six hours was occasioned by a freight wreck at Kimball, a small station about sixty miles east of Cheyenne, Tuesday morning. A brake-beam on one of the forward cars gave way and the following half dozen cars were piled up on the track, taking the center out of the train and leaving both ends. It was a California fast fruit train and thousands of dollars worth of fruit was destroyed, besides a carload of sugar which was also a part of the train. None of the time lost was made up between that point and The Dalles.

I consider Chamberlain's Cough Remedy a specific for croup. It is very pleasant to take, which is one of the most important requisites where a cough remedy is intended for use among children. I have known of cases of croup where I know the life of a little one was saved by the use of Chamberlain's Cough Remedy. J. J. LaGrange, druggist, Avoca, Neb. 50 cent bottles for sale by Blakeley & Houghton.

The Columbia Packing Co.,

PACKERS OF

Pork and Beef

MANUFACTURERS OF

Fine Lard and Sausages.

Curers of ★ BRAND

Hams and Bacon, Dried Beef, Etc.

Masonic Building. The Dalles, Or.

AT THE SILVERSMITH'S.

ONE of the newest designs in lace pins is in the form of a small diamond duck, poised, with wings outspread.

DOUBLE heart brooches of pink topaz and aquamarine entwined in large true lover's knots of diamonds is the latest fad.

DIAMONDS in combination with turquoise of faultless blue are found in a peculiarly beautiful flexible gold curb bracelet.

THE Spanish topaz, looking like solidified rich golden brown sherry, is used as a mounting for riding whips and scent bottles.

NECKLETS, so long discarded, are in favor again. As many as five rows of jewels may be seen around the white throat of the woman of fashion.

PEARLS, black, white and pink, of unique beauty of shape and color, are worn, set bud fashion in a tiny cup of brilliants, as ornaments for the hair.

DOG COLLARS and girdles of amethysts in their various tints, rich purple, light green, blue and pink, are much worn as a finish to the fashionable mousseline de soie blouses.

A TINY humming bird, poised as if on the wing, incrustated with small diamonds, rubies and olivines, is one of the most charming ornaments worn on the soft lace of the dress bodice.

GOLDEN cornelian, a delicately lovely stone, more refined and true in color than the chrysoprase (which gets its peculiar green from the use of chemicals) goes well with diamonds.

SLENDER gold bangles, with the initials of the bride and bridegroom either in pearls or diamonds, have been presented at recent fashionable weddings by the bridegroom to the bridesmaids.

Cleaning Silverware.

About the last thing done to silverware in the factories is to cleanse the surface of all grease and other material used in the polishing, a process that usually involves a deal of hard labor. A mechanic who had noted the expensive character of this work invented a bath in which the foreign substances that cling to the surface of silverware are easily and quickly removed. From this bath the silverware comes clean and brilliant. The employers of the inventor have patented the process with his consent, and the patent is regarded as a valuable property.

Auction Sale Tonight.

Remember the auction sale at N. Harris' store commences at 7 o'clock tonight. Ladies especially invited. As the stock must go, bargains may be expected. Sale will continue from day to day until all is sold.

J. B. CROSSEN, Auctioneer.

Board of Equalization.

The county board of equalization will meet at the court house on October 23d, 1893, for the purpose of equalizing the county assessment roll for this year's assessment. The board will continue in session one week. JOEL KOONTZ, County Assessor.
