THE DALLES OREGON

**Electric Lighting in Spain.**  
Spaniards, although slow in the adoption of many improvements, are decidedly not so in regard to electric lighting. A large number of the principal towns, as well as many very small ones, have insulations of their own. The latest venture is on the part of the owner of some water power near the two very limited towns, Elgalbar and Elbar, in the Spanish province of Vizcaya; these towns will shortly be supplied with electric current for both lighting and power purposes. The necessary working power will be furnished by the water of the River Dova.

**Algerian Riders.**  
The donker in Algeria rarely has a saddle. He has a pad very similar to the pad on which the bespangled queens of the sawdust ring dance their short hour to delighted boys and rustics. The pad has no stirrups and is so wide as to make a seat on it extremely tiring to the uninitiated. The Arab sits astride or sidewise, and as the pad is rarely girthed, or at best by a slender rope, it is like walking a tight rope or managing a birch bark canoe to sit on it.

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse power in its dashing streams and water-falls, easily harnessed. Where cheap motive power exists, there the manufacturing center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
