Oregon is not a small pumpkin after all, says the West Side, when she carries away twenty awards at the world's fair to California twelve, and Washington four.

Under the free trade party's idea of a new tariff, the price of sugar will be increased 25 or 30 per cent., also their tea and coffee. This addition to the household expenses, coming at the same time as a reduction in wages of 10 to 25 per cent., will be very sorely felt.

Prendergast's trial for the murder of Carter Harrison began today in Chicago. It is a very sensible proceeding to try him as soon as possible. If the jury and sheriff are equally speedy, the effect will be good, for most cranks have a lingering regard for their worthless life.

Thanksgiving day has always been regarded as a national holiday, and the last Thursday in the month of November. With all due respect to our governor, we think it more fitting to follow the custom of our fathers and grandfathers, and recognize the glorious union rather than a fraction ther of.

As we have before remarked, Gov. Pennoyer could amass a large fortune as an advertisement writer. Who in the United States would ask "What part of money refunded.-Price 50c and \$1 per Washington is Oregon in?" after hearing that she bas a Thanksgiving day all her own? Nothing more original or unique could have been devised, and the boards of trade of all cities of the state, irrespective of party, should unite and present the governor with a suitable token of appreciation.

The passing of the repeal bill means the transfer of the surplus silver mined in the United States to other and newer civilizations that will need it very soon. (Thirty years' silver exports to date are nearly 400 million dollars in excess of imports); the coinage of bullion in hand and the ultimate accumulation of heavier gold reserve; return of confidence and consequently at least partial return of consumption; a paper money redeemable in gold to which standard inflation must face.

Matchmaking mammas with eligible daughters may learn something of interest in the success of a woman who went from Kansas down into the Osage Indian country several years ago. Within the past year, according to the Helena Independent, she has married off four grown daughters, all to Osage Indians, and as soon as a divorce suit, which she has pending against her husband is decided, she will take to her heart a red blanket i member of that tribe. Every member of the Osage tribe is worth \$15,-000 in cash and passesses nearly 2,000 acres of land, and these women now become members of the tribe and are entitled to their full share of the funds and lands, which makes the family very wealthy.

It Menns Work.

Some people are laboring under the impression that it does not require labor, skill or money to make photog.aphs. I realize the fact that my best trade is from people who know how a photo is made, therefore it pays me to show the people just how a photo is made. I will give any adult person a life size crayon of themselves or friend free, that will come and watch the different processes through in making one photograph of someone from their number. I will drop my regular work and finish that one picture as soon as I can. Come everybody Wednesday afternoon, promptly at 3 o'clock sharp, and if you stay through the different operations a life size crayon is yours, free.
