AN ADVANCE BOOKED.

From Clapp & Co.'s weekly market letter the outlook for wheat is good. The Hatch bill a year ago was given as the reason why prices of wheat then were lower than previous records had shown for thirty years. Now speculators claim Chicago (freights and other charges considered) is the highest market in the world. Quotations now range about 12 per cent. lower. The visible supply ranges about 12 per cent. larger. Freights are no higher and speculation is still at a low ebb. Chicago and New York has now about 55 per cent. of the official visible. We believe about half of the crop has been marketed since July 1; that more than half our apparent surplus has been exported; that too much wheat is in the wrong place and owned by too many people who do not need it and will not aid causes to rapidly enhance values. The visible for ten years has increased yearly until January. Averages and comparisons for a score of years lead us to believe this season will be no exception to the rule. Speculation has decreased that but four months (or times) in the year shall constitute popular trading months; custom has established the habit of liquidation just preceding the beginning of each of these four months, December, May, July and September. Many leading money-making short sellers claim they have found the "spout" that adds the most dollars to their bank accounts is by selling nearby futures freely just before liquidation days occur. Built always consider wheat, speculatively speaking, about large delivery days, is a good purchase for handsome gains, regardless of all statistical conditions. Our impulses for weeks past have assured us about Thanksgiving it will be a good time to buy some wheat for an advance. Small deliveries were made in many markets the first of this month, and a depression existed. It is but natural an advance is due, and will occur before liquidation by the masses and classes take place a month hence. Statistical conditions the world over appear to be unchanged. Fall crop reports are about an average.

The Spokane Review says: Since Tuesday's elections the "Injen" name of the democracy has become Old-Man-Afraid-of-His-Police.

A. C. Ross, engineer of the steamer Ilwaco, at Astoria, caught with a hook and line the first man-eating shark that has ever been captured in the Columbia river. It is of the genuine great shark species, and is very young, being only three feet in length. It will be preserved and presented to the chamber of commerce.

Any further foolish talk on the part of the administration of restoring the profligate queen Liliokulani to the Hawaiian throne will bring a hornet's nest about the ears of the president and his chamberlain-like secretary of state. It is assumed, contrary to a great deal of evidence, that United States troops took an active part in the deposition of the queen and the restoring of a provisional government in her place. This can be successfully contradicted, no matter what the findings of "my commissioner" has been, who has combined the silence of a clam with the pugnacity of a bull dog. The troops were called out merely to protect American property interests in Honolulu, and by the time of their arrival on the scene, the queen had already lost her throne and the provisional government substituted. The recommendations of Secretary Gresham and the announced policy of President Cleveland supporting him is the most Quixotic action ever undertaken by any administration. It cannot even appeal to a morbid sentiment, for Liliokulani was notoriously unfit to rule, abetting and championing corruption and personally profligate. Of course, before any decisive action is taken, it will be submitted to congress, which is a safeguard against any such foolery as is indicated by the president.

FACTS ABOUT THE HEART.

Interesting Statistics Showing the Vast Amount of Work That Organ Does. The human heart is a hollow muscle of a conical form placed between the two lungs and inclosed in the pericardium or heart sac, says Leisure Moments. The ordinary size of the heart in the adult is about five inches in length, three and one-half inches in breadth at the broadest part and two and one-half inches in thickness. Its weight is from ten to twelve ounces in men and from eight to ten ounces in women. Dr. Benecke, of Marburg, has made known his observations on the growth of the human heart, the fact appearing that the increase is greatest and most rapid during the first and second years of life, its bulk at the end of the second year being exactly double what it originally was. Between the second and seventh years it is again doubled in size. A slower rate of growth then sets in and continues during the period of maturity of other portions of the body. After the fifteenth year up to the fiftieth the annual growth of the heart is about .061 of a cubic inch, the increase ceasing at about the fiftieth year. The heart, although so small, is a wonderful piece of mechanism, and of great power. With each stroke or beat it projects something like two and a half ounces of blood into the conduits or channels of the body, throwing it for a distance of nine feet. This it does sixty-nine or seventy times a minute. The number of its pulsations varies in the sexes and according to posture. In the male it beats 81 times a minute when standing, 71 when sitting and 66 when lying. In the female it is 91, 84, 80 in the similar positions respectively.

La Grippe.
 During the prevalence of the gripe the past seasons it was a noticeable fact that those who depended upon Dr. King's New Discovery, not only had a speedy recovery, but escaped all of the troublesome after effects of the malady. This remedy seems to have a peculiar power in effecting rapid cures not only in cases of la grippe, but in all diseases of throat, chest and lungs, and has cured cases of asthma and hay fever of long standing. Try it and be convinced. It won't disappoint. Free trial bottles at Snipes & Kinnersly's drug store.

 Cleaning and Repairing a Specialty.

THE WAY SHE LOOKS

troubles the woman who is delicate, run-down, or overworked. She's hollow - cheeked, dull - eyed, thin, and pale, and it worries her. Now, the way to look well is to be well. And the way to be well, if you're any such woman, is to faithfully use Dr. Pierce's Favorite Prescription. That is the *only* medicine that's guaranteed to build up woman's strength and to cure woman's ailments. In every "female complaint," irregularity, or weakness, and in every exhausted condition of the female system—if it ever fails to benefit or cure, you have your money back. For overworked, "worn-out," "run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequalled as an appetizing cordial and restorative tonic.

If you're suffering from Catarrh, the proprietors of Dr. Sage's Catarrh Remedy ask you to try their medicine. Then, if you can't be cured, they'll pay you \$500 in cash.

THE DALLES

Wasco County, Oregon.

The Gate City of the Inland Empire is situated at the head of navigation on the Middle Columbia, and is a thriving, prosperous city.

ITS TERRITORY.

It is the supply city for an extensive and rich agricultural and grazing country, its trade reaching as far south as Sumner Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here.

The Dalles is the largest original wool shipping point in America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful Klickitat valley find market here, and the country south and east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast, and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

The California Winehouse.
 Is now open, and its proprietor will sell his home-produced Wine at prices in the reach of everybody. Also, best Peanuts to be found. Goods guaranteed to be Pure and First-Class in every respect.
 Thompson's Addition. C. BECHT.
