ODDITIES OF NATURE.

Curious Things to Wonder Over by the "Know It All People."

There are processes of nature which seem as inexplicable as the operation of the mind.

Why does sugar always crystallize in a certain way and salt in a certain other way? An infallible test for some minerals is in their form of crystallization, says the Seattle Telegraph.

Why does the mysterious movement of the sap in a plant proceed with such absolute regularity that in the leaf, say of a variegated geranium, a little coloring matter of one shade is dropped at one point and a little of another shade at another point, with never a mistake?

Why does nature, or rather how does nature, tell the wheat that is grown in northern latitudes that it must produce many seeds to each plant, so that some of them may survive the rigor of the winter?

Why do the plants of the tropics expend all their forces in leaf and gorgeous flower, and yield only a few seeds, as if they knew that in the genial climate where they flourish every seed stood a grand chance of growing?

THE BEST PLASTER.—Dampen a piece of flannel with Chamberlain's Pain Balm and bind it on over the seat of pain. It is better than any plaster. When the lungs are sore such an application on the chest and another on the back, between the shoulder blades, will often prevent pneumonia. There is nothing so good for a lame back or a pain in the side. A sore throat can nearly always be cured in one night by applying a flannel bandage dampened with Pain Balm. 50 cent bottles for sale by Blakeley & Houghton, druggists.

If you want a crayon for Christmas, join Herrin's Crayon club. It will only cost you 50 cents if you join before Saturday.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, airy lots, broad streets and alleys, good soil and pure water with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for the square miles of the best cedar and fir timber, possessing millions of horse power in its rushing streams and waterfalls, easily harnessed. Where cheap motive power exists, there the manufacturing will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured, you will find this the place to make a perfect home or a paying investment.
