BLOUNT TALKS AT LAST

A Very Small Trump Played After So Long a Wait.

THE QUEEN WAS AFRAID OF FORCE

She Supposed that Mr. Steves Was in Sympathy with the Revolutionists.

NEW YORK, Nov. 20.—The Herald's Washington correspondent telegraphs as follows: Commissioner Blount's report on the Hawaiian question will show that minister Stevens landed the troops from the Boston long before there was any valid excuse for their presence on Hawaiian soil.

Many depositions by a number of well known gentlemen in Honolulu were taken before Commissioner Blount, indicating that Queen Liliuokalani surrendered her throne and her ministers resigned because of the landing of the American troops at Honolulu.

"I know it was the queen's idea that Mr. Stevens was in sympathy with this movement. The queen was reluctant to sign the abdication, but did so on the ground that it would all come up for review at Washington."

"Was any message sent to the queen after that—anything rejecting the proposition for a settlement of the dispute at Washington?"

"The surrender, then, was made on that proposition?"

"Yes. Then the queen sent down word to the station house that they should surrender. That wound up the whole affair. We took possession. It was not delivered up till after this conference."

A Robber's Retreat Discovered. ELIZABETHTOWN, Ky., Nov. 20.—There is a cave 3 1/2 miles from this city which had never been explored to any great extent till yesterday.

LITTLE ROCK, Ark., Nov. 20.—News reached here yesterday that Dolph Parker, who served a term in the Arkansas penitentiary for complicity in a train robbery below this city several years ago, was shot and killed in Van Buren county.

This is to certify that I have used Krause's Headache Capsules periodically for over one year and have very much pleasure in stating that they have always proved beneficial.

All delinquent taxpayers who don't want their names advertised had better come forward, as the roll will be published on the 21st of this month.

WASHINGTON LETTER.

How the Hawaiian Matter is Viewed at the Capitol.—Notes.

From our Regular Correspondent.] WASHINGTON, Nov. 17, 1893.

This has been quite as unpleasant a week in administration circles as was that which followed the condemnation of the democratic party and its methods at the polls. Public opinion has made itself heard by every member of this administration, which is the first and will doubtless be the last to attempt to drag partisan politics into the foreign policy of the United States.

It is no wonder that Mr. Cleveland and his cabinet are awaiting with trepidation the news from Hawaii that will tell of the strangling of a republic and the setting up of a monarchy by their willing tool, Minister Willis.

Ever since the elections the administration has been trying to placate those democratic senators and representatives who have openly protested against the unjust treatment of pensioners which has been such a conspicuous feature of Hoke Smith's management of the pension bureau.

It is now stated with much positiveness that the free traders among the democratic members of the house ways and means committee have triumphed and that the new tariff bill is to be made about as radical as it can well be made.

sonal intercourse at the same rate that he has done since last March he will soon be at "outs" with every prominent democrat in public life. It might have been supposed that the course taken by Senator Mills upon the silver question would have made him stand particularly well with Mr. Cleveland, but apparently it did not, as Mr. Cleveland not only refused to grant the only favor that Senator Mills had asked of him, but he did it in such a manner as to insult the Texas senator, who will probably bide his time for getting even, just as Vice President Stevenson, Senator Vest and others are doing.

Mr. Cleveland paid a mysterious visit to New York this week, which created quite a commotion in Washington for a few hours, because of a report that he had gone there to have a dangerous operation performed upon himself. Your correspondent has it from a trustworthy source that his real object was to consult with certain Wall street bankers upon financial matters.

Trial of Chris Evans.

Fresno, Cal., Nov. 20.—Chris Evans was arraigned in Judge Harris' department of the superior court this morning on the charge of murdering Deputy McGinness at Sampson's Flat. Defendant moved for a continuance on the ground of the absence of one of his attorneys, but this was denied and the case went over until 1:30 this afternoon, when the selection of the jury will begin.

NEWS NOTES.

Silver men propose to renew the silver fight as soon as congress meets. Blount's report has just been given out by the state department. It makes from 100,000 to 150,000 words.

The official count shows McKinley had a plurality of 80,995, and a majority over all of 43,926 in the late election. Two young men went over the Horseshoe rapids of Niagara at dusk Saturday night.

President Barrios, of Guatemala, has published a decree which is in effect a proclamation emancipating the laboring classes from slavery. It has been the custom of the government, through its military agents, to take forcible possession of persons of lower classes at any and all times, sending them to work where they pleased.
