ATTEMPTS have been made to produce spider silk, but have failed, the ferocious nature of these insects not permitting them to live together in communities.

EMMA GOLDMAN tells a New York interviewer that she loves nothing better than a bath. If Emma doesn't look out the anarchists will be reading her out of the party.

THE mountain of Fuji-san, in Japan, is actually in motion. It is 12,400 feet above sea level, yet the power of the winds in those quarters causes it to sway from side to side.

THAT part of Boston known as the north end is strictly of a cosmopolitan character. On a certain street there are displayed signs in Italian, Spanish, Portuguese, French, Russian, Hebrew, Norwegian and Danish.

WINANS

THE NEW TOWN has been platted on the old camp ground, at the Forks and Falls of Hood river, with large, slightly lots, broad streets and alleys, good soil and pure water, with shade in profusion, perfect drainage, delightful mountain climate, the central attraction as a mountain summer resort for all Oregon, being the nearest town to Mt. Hood. It is unparalleled as a manufacturing center, being the natural center for 150 square miles of the best cedar and fir timber, possessing millions of horse-power in its dashing streams and water-falls, easily harnessed. Where cheap motive power exists, there the main factories will center, surrounded by soil and climate that cannot be excelled anywhere for fruit and agriculture, and with transportation already assured you will find this the place to make a perfect home or a paying investment.
