In the case of Branner vs. Ward a jury decided for the plaintiff and against defendant in the sum of \$75. The case is being tried today of Banker vs. Willig, which is an action for the collection of a promissory note. Attorney C. S. Lord of Portland is attorney for the plaintiff and E. B. Dufur for defendant. The defense is the want of a consideration.

A communication has been received from a subscriber concerning the nuisance of small boys in church. If the writer will furnish us his name we will publish the letter, not for publication but as a guarantee of good faith. A newspaper always wants to know who writes what is published in its columns.

All delinquent taxpayers that don't want their names advertised had better come forward, as the roll will be published on the 21st of this month.  
 T. A. WARD, Sheriff.

### The Harvest Concert.

The "harvest concert" at the Congregational church last evening was an entertainment of unusual excellence. A great number and variety of selections were sung and spoken by the little folks, of a sentiment applicable to the harvest time, further enlivened by decorations of wheat and corn in sheaf. There were no hitches or pauses, though; the selections were for the most part very short. At agreeable intervals the choir rendered some pretty selections, under the leadership of Mr. C. J. Crandall. Of exceptional merit were the first number, a song and drill by about a score of little girls, in perfect time and tune, the faultless recitation of little Miss Baldwin, and the selection of Miss Evelyn Newman, which was given in a natural though spirited tone. "The Wind among the Wheat." The action of the concert was rapid, the music simple yet pleasing, and the recitations spoken with meaning, all of which reflects much credit upon Mrs. S. L. Brooks, who arranged the concert and drilled the little folks. After a benediction by Rev. W. C. Curtis, the praise and thanksgiving service concluded.

### The New Stone Quarry.

The J. G. & I. N. Day Contracting company, who have the government contract for completing the locks at the east falls of the Columbia, have given a large contract to Largene & Haggard, well known contractors of the coast, to furnish them with dressed stone. The subcontractors have opened a quarry on Thos. Monaghan's ranch about four miles above Stevenson. They have a large force of quarrymen at work at present getting out a fine quality of stone. Mr. Haggard is in Portland at present getting a force of stonecutters to dress the crude stone, and making other arrangements for rushing their contract through. The Days are using every effort to complete the work according to their contract.—Pioneer.

### A Curious Growth.

An instance of the curious growth of our native oak is afforded by a piece of wood brought in by Surveyor Ed. Sharp this morning. While hunting for a corner recently the field notes cited him to a certain oak tree. The tree was found, but not a mark of any kind was to be seen and the perfect condition of the bark seemed to indicate that there never had been a mark upon it. Nevertheless, the distance was precisely that called for by other land marks, and he split the tree, when the mark was found. New wood had grown upon it completing the broken circle, and the bark had closed over it, making the tree look perfectly natural. It is a curious phenomenon and may now be seen at THE CHRONICLE office.

### Explained.

L. D. Claypool, writing from Laramie, Wyoming, under date of Nov. 13th, says: "W. W. Reynolds, who acted as agent for H. G. Rand in buying beef cattle in Eastern Oregon, is at Laramie and expresses the belief that Rand intends to swindle all those whom he has not paid for cattle. Reynolds offers his assistance in forcing Rand to settle, and should any of the injured parties desire his assistance, letters addressed to Huntington, Oregon, will reach him.—Globe.

Here is an item from the Eugene Guard on the subject: "Frank Hampton has returned from Eastern Oregon. He says he received a portion of his money from Rand & Co., to whom he sold a lot of cattle, and is satisfied the remainder will be forthcoming, as the gentlemen are perfectly reliable; that out of purchases amounting to over \$100,000 they only owe about \$12,000; that the reason that some of the parties were "docked" \$4 per head was because of the careless driving to the point of delivery."

### DOWN IN THE MINES.

EIGHT THOUSAND tons of gold have been mined throughout the world during the present century.
