THE INCOME TAX

It has been stated that the income tax scheme evolved by the committee on debt ways and means proposes to put a tax of 2 per cent. on all incomes from \$4,000 to \$20,000. Upon higher incomes up to \$50,000 a tax of 5 per cent, is to be imposed; and for all incomes above that amount the tax is to be 10 per cent. \$390,409,347. This is, in effect, says the Philadelphia Record, the plan of the progressive income tax embodied in the platform of the populists. In order to make the ually gets there shead of the old man scheme as popular as possible it is to be imposed on a very small minority of the people. Whatever this minority rose for my hair yet?" may think of the policy, it has been but now I cannot find the hair."-Fliegratuously assumed by its authors and gende Blaetter. advocates that the great majority of the

American people would welcome a

scheme of which they would share none

of the burdens. upon the people of this country, in obe- might at least give him a check .dience to the demand of the populists. Cleveland Plain Dealer. let it, at least, be given a more equitable and democratic character than is possessed by the bill that is said to have been incubated in the committee on ways and means. A progressive income tax, with a rate running up to 10 per wheat market?" Potts-"I went after cont., would undoubtedly have much wool and got worsted."-Indianapolis attraction for those who would not be Journal obliged to pay it; but experience has shown that such a method of spoliation is not calculated to yield a large amount more determined the efforts to evade its son streets.

payment. The history of the brief experiment dust. with an income tax in the United States. from 1863 to 1870, affords ample evi- Stove Polish. dence on this score. In 1866, under a uniform rate of tax of 5 per cent. on all net incomes over \$600, the revenue amounted to \$72,982,159. Subsequently the tax on incomes above \$5,000 was raised to 10 per cent, and still later incomes above \$2,000 were subjected to a uniform tax of 25g per cent. In 1871, the last year of the tax under this rate. the revenue fell to \$19,162,651.

Under the mast democratic form of an income tax, such as that of 1866, there would still remain a large class of exempte hovering just a little below the margin of taxation. But system of taxation, of whatever kind, which would bring the largest possible number of citizens within its operation would be more in accordance with the spirit of American institutions than a system which proposes to discriminate against a very small portion of them. People who pay taxes are, as a rule, jealously watchful of public expenditure. People who do not pay taxes give themselves emall concern about the extravagances of the government. When the patricians of Rome contributed the public revenues, and out of them furnished the populace with bread and circuses, the republic perished.

When the first income tax was imposed the democrats denounced it as a violation of the constitution, which declares that "no capitation or other direct tax shall be laid, unless in proportion to the census or enumeration" of population. The supreme court, it is true, had anticipated this objection; but sticklers for a strict construction of the constitution sometimes change front with amazing facility when they find it convenient to evade the provisions of that instrument.

The worst feature of this business, however, is that a comprehensive and almost revolutionary scheme of taxation is to be aprung upon congress and the country without the least note of warning. In the platform of neither of the two great parties in 1892 was there the slightest hint of an income tax. There was no discussion of the subject among the people outside of assemblages of the populists, whose orators showed how easy it would be to relieve the masses of all the burdens of taxation by a system of progressive taxation upon the incomes of the hated possessors of capital. The scheme in the committee on ways and means is the first installment of the populist programme. What is the need of a populist party, after all, when democratic committees in congress stand ready to execute its dying beheats?

Senator Dolph has been criticised for being early in his denunciation of the Hawaiian policy. This is absurd. If the president has not grossly exceeded his authority he has sesumed an importance throughout this matter that

does not belong to him rightfully, and has practically set! himself up as a dictator. Congress should be as quick a possible in making a thorough investigation of the matter, and demand all information as to what has been done and the existing status of affairs.

50 CENTS A YEAR

FARMER LEGISLATION.

Inting the coming year there will be an immense number of matters of the most vital interest to farmers dealt with by Congress and the Executive Departments at Washington. It is highly important that the farmers be kept promptly and fully informed as to what is being planned and done affecting thom at the National cantial. They should all, therefore, take THE ARERICAN FARMER, which being on the ground, has better facilities than any other papers for getting this information, and devates itself to this duty. They will find in it constantly a great amount of valuable information that they can get in no other paper.

THE AMERICAN FARMER and THE CERONICLE will be sentone year for \$1.50.

-AND

One Year,

THEDALL

Wasco County. - - Oregon. The Gate City of the Inland Empire is situated at the head

of navigation on the Middle Columbia, and is a thriving, properous city. ITS TERRITORY

It is the supply city for an extensive and rich agricultural

and grazing country, its trade reaching as far south as Summer Lake, a distance of over two hundred miles.

The Largest Wool Market.

The rich grazing country along the eastern slope of the Cascades furnishes pasture for thousands of sheep, the wool from which finds market here. The Dalles is the largest original wool shipping point in

America, about 5,000,000 pounds being shipped last year.

ITS PRODUCTS.

The salmon fisheries are the finest on the Columbia, yielding this year a revenue of thousands of dollars, which will be more than doubled in the near future.

The products of the beautiful knickitat valley find market here, and the country south an east has this year filled the warehouses, and all available storage places to overflowing with their products.

ITS WEALTH.

It is the richest city of its size on the coast and its money is scattered over and is being used to develop more farming country than is tributary to any other city in Eastern Oregon.

Its situation is unsurpassed. Its climate delightful. Its possibilities incalculable. Its resources unlimited. And on these corner stones she stands.

Underhill deceased. All persons having claims against said estate are hereby re-FIRST CLASS quired to present them to me with proper vouchers at the law office of Condon & Condon in Dalles City, Oregon, within six months from the date of this November 11, 1893.
