His Forthcoming Message on Hawaiian Affairs.  
ALL CORRESPONDENCE TO BE GIVEN Theories Advanced That the President Will Recommend Forcible Restoration.

WASHINGTON, Dec. 7.—It is not certain yet what course the executive will take in response to the resolution of the senate calling for information on the Hawaiian episode. The information will be given, but whether as a formal response to the senate resolution or in a special message from the president, which takes no note of the resolution has not yet been determined. The information is prepared and can be sent in at any time. It was apparently put in shape to accompany the president's forthcoming special message before the resolution passed the senate yesterday. There is excellent authority for saying that Minister Willis' present orders are to employ no force of arms. It is probable the instructions by the Corwin are for him to proceed in his effort to persuade the provisional government to allow Liliuokalani to be restored. It is intimated from a responsible source that the ex-queen declines to go back on the throne unless by consent of the provisional government leaders, or a guarantee of protection by the United States. There had been theories advanced that after hearing again from Minister Willis, and learning positively that the queen cannot be restored, except by the use of the United States troops, the president will present to congress the case of the queen as a wronged monarch, whose government was overthrown by this government, and assert that it is now the duty of the United States to restore the former condition even by using force. This is the idea advanced by the friends of the administration.

**A TRAGEDY ON SHIPBOARD.**  
An Obnoxious Bully Killed by a Utah Stockman.  
SAN FRANCISCO, Dec. 7.—Advices have just been received by mail from San Blas, Mexico, to the effect that on the afternoon of the 18th of last November, James F. Cully, a steamer passenger on board the steamer City of Sydney, from San Francisco for Panama, was shot through the brain with a revolver by Albert Spinch, a stockman of Utah, who was also a steamer passenger. It appears that Cully was of a very obnoxious, bullying disposition, and took offense because Spinch wore spectacles. After abusing Spinch he started up from the supper table saying, "And you with the glasses I'll fix!" advancing at the same time in a threatening manner. Spinch immediately backed away, drawing his revolver as he did so, and when Cully was within striking distance he fired. The captain of the vessel exonerated Spinch from all blame, and Cully's remains were buried at sea the following morning. On the day after the burial Jose Jacintho de Brun Costa, an elderly passenger, became a raving maniac in consequence of having witnessed the tragedy, and when the steamer reached Mazatlan he sprang overboard and tried to swim ashore. He was with difficulty rescued and taken back to the vessel.

**THE UNEMPLOYED.**  
Thousands of People in Chicago Without Food or Shelter.  
CHICAGO, Dec. 7.—The distress among the unemployed is so great that every night 600 find lodgings on the cold floors in the corridors of the city hall. These are only a few of the great number who have no place to sleep. Five hundred sleep in the chairs in the Pacific Garden mission. From 1,400 to 1,500 find lodging on the stone floors in the cells in the police stations. Last night it was announced that eight churches will be thrown open to furnish lodgings for those who have no other. The men will be given a cup of coffee and rolls in the morning. This action was forced upon Christian people by the fact that for the last month the unemployed and unsheltered thousands have been crowding around engine rooms in buildings and other places where there was heat and shelter, begging for a place where they might be protected from the cold. Herry Monroe, superintendent of the Pacific Garden mission, brought these facts to the attention of the churches with the result above stated.

**Pasturage.**

**BELLINGER'S RULING.**  
Important Point Against the Indicted Smugglers.  
Judge Bellinger has thrown a cannon ball into the smugglers' camp by announcing in open court that he is convinced he erred in the ruling made in the Dunbar trial that conviction could not be had on the evidence of accomplices without corroborative testimony. The court said:  
"In that case I ruled that there would be no conviction without the testimony of other than accomplices. I did this without investigation. I have since investigated it, and I find the testimony of an accomplice is sufficient evidence for the jury to convict if they believe the testimony is true. I make this statement now so that counsel will not be taken by surprise. I am satisfied I made a mistake in that ruling, and I hasten to correct it at the earliest possible moment."

The ruling, which Judge Bellinger stated was made in error, was that on which he based the instructions in his charge to the jury that conviction could not be had on eight of the fourteen counts in the indictments against Dunbar, because there was no testimony corroborating that of Blum, Garthorne, Jackling and Berg, who were accomplices, and it was on the remaining six counts in the two indictments that the jury returned the verdict of guilty against Dunbar.

**A New Explosive Invented.**  
PARIS, Dec. 7.—Pictet, a Swiss engineer, has invented an explosive called fulgurite, which he claims possesses a power equal to dynamite, and a greater power when used as gunpowder. It is smokeless, and, according to the inventor, perfectly safe in handling. Its qualities are not impaired by weather or water, and it is cheaper than dynamite.

**All On Board Lost.**  
LONDON, Dec. 7.—The body of one of the crew of the steamer Nyatca was washed ashore on the Cornish coast, adding to the probability of the supposed foundering of that vessel and the loss of her crew of eighteen in a recent gale.

**NEWS NOTES.**  
The Prince of Wales was nominated grand master of the English Freemasons.  
The directors of the Manchester ship canal formally opened the canal yesterday. The public opening will take place on New Year's day, with a procession of vessels.  
Hawaiian Minister Thurston left Washington yesterday for Honolulu. Before leaving he called on Gresham. He was not sent out of the country and does not go at the suggestion of the secretary of state, but goes of his own accord to advise and consult with those he represents.  
It is said that when the president sends in all the correspondence on the Hawaiian relations, extending over a period of a dozen years, it will be the bulkiest document ever submitted to congress. The reports, correspondence and affidavits incidental to Blount's special report, it is said, cover 522 pages alone.

**A Negro Murderer Lynched.**  
BIRMINGHAM, Ala., Dec. 7.—A young negro named West was hanged by a mob near Berlin, a small station not far from Selma, Ala., last night. Reuben Smith, a young white clerk, in the store of "Jack" Stubbs, in Berlin, was murdered in his bed in the rear of the store and the place was ransacked and robbed. As soon as the crime was discovered dogs were put on the trail and West was caught. He was examined by a magistrate and ordered to prison. The evidence was strong against him, so it is said. On the way to the prison a party of Smith's friends seized West, and, taking him to a neighboring tree, hanged him and riddled his body with bullets.

**Bleeding Bread.**  
Considerable dismay was caused in England during the recent hot weather by the appearance of blood stains in bread, and also in boiled potatoes, rice and other farinaceous substances. In superstitious times this somewhat rare phenomenon was regarded as a miracle, but modern science has shown that it is due to the growth of a microscopic plant, which is known to some, according to Dr. M. C. Cooke, as *micrococcus prodigiosus* and to others as *bacillus prodigiosus*. The true explanation of the terrifying blotches was first pointed out by a Paduan naturalist in 1819. The same production was seen near Berlin by Ehrenberg in 1848, at Rouen by Dr. Camille Montaigne in the same year, and was first recorded in Britain in 1853. About 1886 an epidemic visitation on the continent was attributed to this source. Carmine red patches, capable of staining the fingers, appeared on cooked meat during the night, and various articles of food were similarly affected until, after about three months, the epidemic suddenly ceased on the advent of a lower temperature. Friesenius found the individual organisms to be round or oval cells not more than one two-thousandths to one four-thousandths of a line in diameter. They develop only in the dark, and when kept continuously at a temperature of 100° F. their color is gradually lost.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of Iowa during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day he was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by Blakeley & Houghton.
