The Yakima Republican by innuendo, accuses the city council of extending \$100 aid to a destitute soiled dove, and believes it could be in better business by relieving the respectable poor of that city.

The river at this place has taken on a sudden rise, probably from rains and melting snow in the mountains, east of this. As we go to press the gauge registers 13.6, having risen over two and a half feet since last night, when it was falling slowly. At 2 p. m. today the rise was 2 inches an hour.

A San Francisco man has stolen Sam Klein's brains, and has patented a fan attachment for rocking chairs. There are few of our citizens who during the heated spell of last summer did not observe the genial Sam rocking in front of his store with this identical fan attachment cooling his expansive brow. McCartney, the San Francisco inventor, might make a fortune, and there is no telling but what he got his ideas in The Dalles last summer.

Some of the leading citizens of the county should get together and formulate plans for representing Wasco county at the midwinter exposition. Oregon took a generous share of prizes at the world's fair and Wasco county has secured unparalleled honor at the state fair. Ergo, Wasco county leads the world. We should improve our opportunities. Nature can tint the apple with beautiful hues, and paint the rose bluish of the peach and pear, but she is powerless to make of herself a public carrier and found.

## A TERRIFYING INSTRUMENT.

The Historical Skull and Cross Bones of the U. S. L. O. at The Dalles, Or.

Away back in the '70s when this office was new and time hung heavily on the hands of the solitary clerk allowed by the honorable commissioner, an idea struck him to make more forcible the picture of the penalties invoked by a breach of the provisions of section 5392, Revised Statutes. He got up the picture alluded to. On the otherwise barren expanse of about a foot square of paste-board is printed the text Title LXX—Crimes—Chapter 4, Section 5392, and then follows the statute. Underneath the text is a picture of a skull and cross bones, very nearly as follows:

NEMO ME IMPUNE LAESIT  
MIKA HIAK CLATAW  
E PLURIBUS UNUM—ERIN GO BRAGH!

The honest claimant and his corroborating witnesses have only a small idea of the penalties hanging over them for a breach of truth, as provided in the text of said statute No. 5392. One look at the above described card would freeze them into truth and last forever.

## A Remedy Suggested.

It is well known, says the Walla Walla Statesman, referring to the whisky-to-Indians cases, that many innocent men are convicted upon the unreliable testimony of a number of Indians eager for fees. This has often been demonstrated near Walla Walla, on the Umatilla reservation. And, further, it is a notorious fact which has been given to the public heretofore by Umatilla county newspapers, that men have been known frequently to deliberately sell liquor to Indians for the purpose of being transported to Portland, where light sentences were imposed, the accused thus saving his fare. There are many reasons why the present system is pernicious and tends rather to increase than diminish crime, thus creating enormous expense. The present session of the U. S. court in Walla Walla will necessitate an expenditure of not less than fifteen thousand dollars, two-thirds of which is caused by Indian cases. Various remedies have been suggested. One is that the fee system be abolished, both as to the Indian witnesses and officials of the government. Officials should be employed under a salary commensurate with the duty performed. Another remedy suggested is that the Indian who purchases whisky should be made equally guilty with the white man who sells it, and receive equal punishment. Then, it is claimed, there would not be such an opportunity for fraud on the part of the swash and he would not be so anxious to become a stool-pigeon for others; also the fear of punishment would make him hesitate before committing a crime.
