TRANSPORTING FROZEN FISH.

Nothing connected with the fisheries of the west coast has been so important a factor in their development as the adoption of the suggestions made by Capt. Collins, in his report on "Fisheries of the Pacific Coast."

"The importance to the fishing interests on the Pacific coast," he says, "of the establishment of properly constructed freezing houses can scarcely be over-estimated. The demand for fresh fish, in all parts of the country, is a growing one, and apparently increases more rapidly than the population. This demand should be met and all legitimate means should be employed to increase it. Among the methods so far adopted for the preservation and distribution of fishery products, none perhaps has met with greater or more deserved favor than that of artificially freezing many species of fish which can be satisfactorily kept in this manner and distributed, through means of refrigerator cars, over an enormous extent of territory."

The hint thus given was promptly adopted.

Mr. John Wallace, a prominent fish shipper at Kalama, Wash., gives, in Ice and Refrigeration, some interesting facts in relation to the rail shipment of frozen fish, which may be of general value. As our readers well know, a large quantity of frozen salmon finds its way from the freezing plants at the fisheries to the east. In shipping, the trade recognizes the fact that fish frozen solid will, in part, refrigerate themselves. They, therefore, pack them tightly in boxes and load them into refrigerator cars. These cars are first reduced to as low a temperature as practicable, and then the floor is covered with several inches of chilled sawdust. The boxes of fish are then loaded in, leaving a space of several inches between the sides, ends, and top of the car, which is also filled with cold sawdust. Then the car is closed and sealed. No ice is placed in the tanks of the car, but it has been found by quite extensive experience that fish so packed for shipment reach their destination in perfect condition, in reasonably warm weather, without ice, and that, too, after a passage of fifteen to eighteen days. The saving effected is: the first cost of the ice; then cost of freight on the ice, and also a gain of 1,500 pounds of fish in lieu of that much weight of ice, which, by the practice of the Northern Pacific road, is allowed free.

CURRENT PRESS COMMENT.

Some people consider it necessary to call a convention whenever they want to adopt a good resolution.

The sorrows of Queen Lily O'Killarney ought to command the sympathy of the state of Oregon.

The people got their change last fall. They are now anxious to get some more "change"—of the kind that rattles.

Had it been known that the democratic victory of 1892 was to be followed by the depression of 1893, it is not likely that the election of last year would have placed the democratic party in power.

Estimates for the gold production of 1893 make it \$145,000,000, an increase over last year of \$60,000,000. In this estimate the United States is credited at \$35,000,000, an increase over last year of only \$2,000,000. The principal increase is in the English territory of South Africa and is an English product. The American product of silver has not only diminished in quantity for the year, and the showing in American precious metals for the year will be a poor one in contrast with previous years.

Representatives Hermann, Ellis and Doolittle say that the Wilson tariff bill will cripple the industries of the Pacific states; that there are no states in the union, in proportion to their population, that will suffer as much as the state of Oregon and Washington by placing wool, hops, coal, and also lumber, on the free list. These industries have grown so as to put these states in the front rank of producing states, and to enact a tariff law putting these products into the market unprotected would paralyze the productive energies of the great Northwest. The great reform committee did not give the West a hearing on these vital questions, and in so

doing evinced a spirit of hobbyism, without realizing a fact, that the producers are the bone and sinew of this great republic.

That School Circular.

BALTIMORE, Md., Dec. 14.—In reply to a letter from the editor of the New York Independent, Cardinal Gibbons writes as follows under date of December 7th: "Replying to your kind note, dated December 6th, I would say that the circular which has appeared in some papers alleging my sanction in presenting a claim for state aid for parochial schools did not emanate from me, and was not published with my authority. Neither have I signed any petition to the legislature for the purpose, and I am sure that Monsignore Satolli has not. Moreover the paper in question is not something new. It appeared about a year ago without my sanction, and it has again appeared without my knowledge and consent."

NEWS OF THE STATE.

Dr. Ozias, formerly of Roseburg, has been committed for insanity in New York city.

Snow is thick on all the Washington foothills opposite Astoria, and it is expected that the city will be visited by a heavy fall in a day or two.

People in the Klamath country claim that the recent terrific downfall of rain will have one beneficial effect by drowning off myriads of destructive ground squirrels now lying dormant in their holes.

Last September these dispatches reported the accidental shooting of James Smith by Thos. Godfrey, at Deer Lick, on the Siskiyou mountain, south of Ashland, Godfrey claiming the shooting was accidental and the coroner's jury not finding otherwise. A little later, developments led to suspicions that Godfrey killed Smith to avoid paying the latter money due him. Yesterday the grand jury indicted Godfrey for murder. Godfrey left the country in ample time and is hardly liable to be apprehended.

Mr. J. P. Blaize, an extensive real estate dealer in Des Moines, Iowa, narrowly escaped one of the severest attacks of pneumonia while in the northern part of Iowa during a recent blizzard, says the Saturday Review. Mr. Blaize had occasion to drive several miles during the storm and was so thoroughly chilled that he was unable to get warm, and inside of an hour after his return he was threatened with a severe case of pneumonia or lung fever. Mr. Blaize sent to the nearest drug store and got a bottle of Chamberlain's Cough Remedy, of which he had often heard, and took a number of large doses. He says the effect was wonderful and in a short time he was breathing quite easily. He kept on taking the medicine and the next day he was able to come to Des Moines. Mr. Blaize regards his cure as simply wonderful. For sale by Blakeley & Houghton.

CLARA Z. UNDERHILL,
Executrix of the Estate of James Underhill, deceased.

It isn't in the ordinary way that Dr. Pierce's Favorite Prescription comes to the weak and suffering woman who needs it. It's guaranteed. Not with words merely; any medicine can make claims and promises. What is done with the "Favorite Prescription" is this: if it fails to benefit or cure, in any case, your money is returned. Can you ask any better proof that a medicine will do what it promises?

It's an invigorating, restorative tonic, a soothing and strengthening nerve, and a certain remedy for the ills and ailments that beset a woman. In "female complaint" of every kind, periodical pains, internal inflammation or ulceration, bearing-down sensations, and all chronic weaknesses and irregularities, it is a positive and complete cure.

To every tired, overworked woman, and to every weak, nervous, and ailing one, it is guaranteed to bring health and strength.

To every sufferer from Catarrh, no matter how bad the case or of how long standing, the proprietors of Dr. Sage's Catarrh Remedy say this: "If we can't cure it, perfectly and permanently, we'll pay you \$500 in cash." Sold by all druggists.

AGENTS make \$300 a day. Greatest kitchen utensil ever invented. Retail 25 cts. \$25.00 in every house. Sample, postage paid, five cents. McLaughlin and Co., Cincinnati, Ohio.

WE WANT YOU TO WORK FOR US. This making \$12.00 to \$25.00 PER WEEK. Parties preferred who can furnish a horse and travel the country. A team, though, is not necessary. A few vacancies in towns and cities. Spare hours may be used to good advantage. 11th and Main Sts., Richmond, Va.

The American Farmer,

1729 New York Avenue,

WASHINGTON, D. C.

THE AMERICAN FARMER, which is now entering upon its 75th year, is the pioneer farmer's paper in the country. It is a large eight-page paper, and contains 56 columns of the choicest agricultural and literary matter, plentifully embellished with fine illustrations. It is

NATIONAL IN CHARACTER. and deals with farming and farmer's interests on broad, practical lines. It

EMPLOYS THE BEST WRITERS IN THE COUNTRY. and everything that appears in its columns is of the highest character. Every department of the farmer's business is discussed in an earnest, practical way, looking to the greatest profit and benefit to the farmer and his family.

It appears on the 1st and 15th of each month, and is furnished at the low price of

50 CENTS A YEAR in advance. This makes it the cheapest agricultural paper in the country.

FARMER LEGISLATION. During the coming year there will be an immense number of matters of the most vital interest to farmers dealt with by Congress, and the Executive Departments at Washington. It is highly important that the farmers be kept promptly and fully informed as to what is being planned and done affecting them at the National Capital. They should all, therefore, take THE AMERICAN FARMER, which, being on the ground, has better facilities than any other papers for getting this information, and devotes itself to this duty. They will find in it constantly a great amount of valuable information that they can get in no other way.

THE AMERICAN FARMER and THE CHRONICLE will be sent one year for \$1.75.
